Works of James Buchanan... John Bassett Moore,1908 The Works of James Buchanan James Buchanan,1908

The Reformation of Charity Thomas Max Safley,2003-01-01 Spiritual ideals in early modern Europe shaped political and social poor relief structures just as much as rationalization and effective administration colored ecclesiastical charity efforts Thomas Max Safley examines the roles of the community in responding to poverty whatever the context religious political or private the elite *Prague and Central Bohemia* Martin Ouředníček,2022-10-01 The theme of socio spatial differentiation has belonged to the core issues of social geography and urban studies for a long time The general aim of the book is to describe and explain the current socio spatial differentiation of Prague and the Central Bohemian Region and the processes that have influenced it during the first two decades of the twenty first century The book offers its own theoretical perspective on the structuration of spatial patterns and the social environment a general view of regional development and the main socio spatial processes of the period after transition Maps are an important part of this volume and concentrate crucial information within most chapters Apart from the static information described in the maps the book offers a look at current population processes as hinted at by the subtitle of the publication The presentation and evaluation of processes require more dynamic forms of cartographic visualisation and new methods of investigation Among them new tools of segregation measurement various approaches for the use of mobile phone data and an innovative form of population forecast are presented in the book The common thread connecting all chapters is a regional focus on Prague and the Central Bohemian Region and a quantitative approach to comparing spatial patterns and regional processes **Harper's Monthly Magazine** ,1921 Harper's New Monthly Magazine ,1921 Important American periodical dating back to 1850

Manhunts Grégoire Chamayou,2012-07-22 A comprehensive history of manhunting in the West from ancient times to the present Touching on issues of power authority and domination Manhunts takes an in depth look at the hunting of humans in the West from ancient Sparta through the Middle Ages to the modern practices of chasing undocumented migrants Incorporating historical events and philosophical reflection Gr goire Chamayou examines the systematic and organized search for individuals and small groups on the run because they have defied authority committed crimes seemed dangerous simply for existing or been categorized as subhuman or dispensable Chamayou begins in ancient Greece where young Spartans hunted and killed Helots Sparta s serfs as an initiation rite and where Aristotle and other philosophers helped to justify raids to capture and enslave foreigners by creating the concept of natural slaves He discusses the hunt for heretics in the Middle Ages New World natives in the early modern period vagrants Jews criminals and runaway slaves in other eras and illegal immigrants today Exploring evolving ideas about the human and the subhuman what we owe to enemies and people on the margins of society and the supposed legitimacy of domination Chamayou shows that the hunting of humans should not be treated ahistorically and that manhunting has varied as widely in its justifications and aims as in its practices He investigates

the psychology of manhunting noting that many people from bounty hunters to Balzac have written about the thrill of hunting when the prey is equally intelligent and cunning An unconventional history on an unconventional subject Manhunts is an in depth consideration of the dynamics of an age old form of violence Never Had the Like Occurred John Tait,2016-09-16

Never Had the Like Occurred examines Ancient Egypt s own multifaceted encounters with its past As Egyptian culture constantly changed and evolved this book follows a chronological arrangement from early Egypt to the attitudes of the Coptic population in the Byzantine Period Within this framework it asks what access the Egyptians had to information about the past whether deliberately or accidentally acquired what use was made of the past what were the Egyptians attitudes to the past what sense of past time did the Egyptians have and what kinds of reverence for the past did they entertain This is the first book dedicated to the whole range of these themes It provides an explanatory context for the numerous previous studies that have dealt with particular sets of evidence particular periods or particular issues It provides a case study of how civilizations may view and utilize their past

Aporophobia Adela Cortina,2022-11-15 Why aporophobia rejection of the poor is one of the most serious problems facing the world today and how we can fight it In this revelatory book acclaimed political philosopher Adela Cortina makes an unprecedented assertion the biggest problem facing the world today is the rejection of poor people Because we can t recognize something we can t name she proposes the term aporophobia for the pervasive exclusion stigmatization and humiliation of the poor which cuts across xenophobia racism antisemitism and other prejudices Passionate and powerful Aporophobia examines where this nearly invisible daily attack on poor people comes from why it is so harmful and how we can fight it Aporophobia traces this universal prejudice s neurological and social origins and its wide ranging pernicious consequences from unnoticed hate crimes to aporophobia s threat to democracy It sheds new light on today s rampant anti immigrant feeling which Cortina argues is better understood as aporophobia than xenophobia We reject migrants not because of their origin race or ethnicity but because they seem to bring problems while offering nothing of value And this is unforgivable in societies that enshrine economic exchange as the supreme value while forgetting that we can t create communities worth living in without dignity generosity and compassion for all Yet there is hope and Cortina explains how we can overcome the moral social and political disaster of aporophobia through education and democratic institutions and how poverty itself can be eradicated if we choose In a world of migrant crises and economic inequality Aporophobia is essential for understanding and confronting one of the most serious problems of the twenty first century
