creative journey      *Finding Truth in Life and Love: One Man's Journey* George Kyriacou, 2022-04-26 Finding Truth in Life and Love One Man's Journey Wow what a title but I hear you say the great thinkers of our time can explain Love Life and the Universe so why have you bothered writing a book Stephen Hawking says the universe can and will create itself from nothing Richard Dawkins explanation of life is We are survival machines robot vehicles blindly programmed to preserve the selfish molecules known as genes And as for love science has proven that love is just a bunch of chemical reactions So what can I offer on the subject at hand All these intelligent people indeed have more to say on the subject with all their knowledge gained through degrees and doctorates What can I add to the subject with my most prized qualification being my 100 yards swimming certificate from primary school Well indeed I do not have a lot of knowledge but I do consider that life has taught me to be wise You may ask what the difference is between knowledge and wisdom Well knowledge is knowing that a tomato is a fruit wisdom is not putting tomatoes in your fruit salad Reading some of the explanations by the world's greatest minds like Stephen Hawking when he says the universe will create itself from nothing I get the uneasy feeling that someone is messing with the fruit salad This uneasiness and my stubborn enquiring nature have set me on a half century discovery for truth The earth is travelling at 67 000 miles per hour through space Is someone driving What about all the religions of the world Are some or all of them true What is the truth in any case Does the truth matter Why don't we abandon the truth and all invent our reality to suit our lives      **Love Deficiency Diseases** Lawrence H. Taylor, M.D., 2021-05-28 Love Deficiency Diseases Abortions Addictions Abuse and Divorce By Lawrence H Taylor M D More than half of marriages end in divorce Nearly a million abortions yearly deprive our country and families of the new love that all babies bring And addictions are a major factor filling our jails and destroying the body brains and the mind spirits of this nation's most precious commodity our youth Love Deficiency Diseases teaches us that love is a panacea a cure all for addictions abortions abuse and divorce No pill or prescription has the healing power of love The more the patient learns of love its earthly and divine powers the healthier happier and wealthier he will become      **Teilhard de Chardin** Osgood, Libby, CND, 2023-03-30      **Labor of Love** Murray Leinster, 2011-03-14 There's a basic difference in the method of thinking we of today use as against that used a millennium or more ago It's remarkably hard to spot because we assume that of course everybody always thought this way didn't they

**The Work of Love** J. C. Polkinghorne, 2001 The development of kenotic ideas was one of the most important advances in theological thinking in the late twentieth century Now a diverse group of acknowledged experts brought together by the Templeton Foundation presents a stimulating interdisciplinary evaluation of these controversial ideas      *Triumph of Love* PRAVIR MALIK, 2020-04-04 Broadly speaking transhumanism refers to a philosophy whose focus is to move beyond current human limits This book suggests an approach to transhumanism based on a perception of Light elaborated in the previous nine books in the Cosmology of Light book series In this perception light is envisioned as existing at different constant speeds We know that in our physical universe light travels at a constant speed referred to as c of 186 000 miles per second This has

a concrete bearing on how we experience time and space and on how matter arises and in a Cosmology of Light it can be said that light at  $c$  is an intentionality to filter infinite potentiality from Light's native state of traveling infinitely fast so life can arise in a particular way. So imagine light traveling infinitely fast. This would suggest another reality packed with infinite possibility due to Light's omnipresence, omnipotence, omniscience, and omninurturing fourfoldness. Omnipresence because Light would be instantaneously present in whatever volume considered. Omnipotence because anything not of the nature of light will be overcome by it. Omniscience because light being everywhere will know what arises or disappears in it. Omninurturing because all would exist in one nature and be bound by it. As the previous books have elaborated and as this book will adequately summarize, a cosmology arises when we consider the simultaneous and interpenetrating realities created when Light exists at multiple constant speeds simultaneously. The dynamics and information resident in each of these simultaneous realities is arbitrated into material reality through a constant and persistent quantum level computation that generates genetic type information that effectively becomes law. Quanta in such a cosmology is perceived as being the mechanism by which information in faster moving layers of light is materialized in a slower moving layer of light. Law manifests as quadrumvirate mechanisms such as space time energy gravity, the electro magnetic wave archetype, mass potential spectrum, quark lepton boson Higgs boson particles, s shell, p shell, d shell, f shell, atoms, nucleic acid, lipid, protein, polysaccharide, cells, amongst other mechanisms that derive their ability to become based on the native being of Light's omnipresent, omnipotent, omniscient, omninurturing fourfoldness. It may even be said that such becomings resulting in quadrumvirate based law reveal essential beings. Hence a being or a particular kind of taxonomic classification akin to the species, genus, family, order, class, phylum, kingdom, domain as in the hierarchy of life is revealed with successful becoming. Plate 1 that follows shortly summarizes such a classification by way of a contemplative map of being. Hence Light in its native state traveling with infinite speed may be thought of as sitting at the top of such a taxonomic hierarchy generating light based domains, kingdoms, phyla, classes, and so on. But such fourfoldness that manifests as effective law or through the becoming involving persistent quantum level computation that reveals a being is none other than a triumph of love. For it is only the power of love of that innate need to maintain the integrality of light's fourfoldness even as it continues to materialize that can be the foundation of a sustainable becoming. The more powerful such love so that in any materialization there is integration not only of the fourfoldness of Light's implicit properties but also of an integration of the many layers of light existing at different speeds, the more fully will a becoming be founded on completeness of potentiality in light to itself become a being capable of engendering light based life. Hence as will be suggested in this book, not only does a particular type of being engender vast variation within that type but further beings can combine with beings which is essentially an act of love to create more comprehensive beings resulting in all the complexity of life. Life itself will be seen to originate in the native state of Light adding function and variation as light precipitates into more and more material reality emerging as a fullness of

life At the base of all possible variation and advancement in being becoming and life is the ability to influence the process of the persistent quantum level computation so that there is a more complete horizontal and vertical integration of Light a more complete light based singularity as it were and therefore of the output of genetic type information and consequently of laws that are active in a being s becoming This is what is considered to be the basis of a system or framework of transhumanism in a cosmology of light

**Love the World** David Adam,2018-07-19 Writing from lived experience as much as knowledge David Adam conveys a delight in the mystery of being that is deeply attractive Love the World opens by looking at the beginning of the universe then moves on to the earth s atmosphere the miracle of water and things that we often take for granted but are essential for our health and happiness It focuses on our relationship with the world and encourages us to reflect on what really matters In our most fragile moments we know that we are of dust and to dust we shall return but in our depths we know there is more We are not created out of nothing but out of love The very source of your being is love This beautifully written book aims to increase our love for the world through reflecting on what we have discovered about it and using this as a basis for further meditation and spiritual enrichment It opens by looking at the beginning of the universe and the mystery of being then moves on to our world its atmosphere the miracle of water and things we often take for granted but are essential to our health and happiness Finally it focuses on our relationship to the earth Each section offers a short introduction based on scientific discovery a meditation and an exercise in awareness and sensitivity

**God of Love and God of Reason** David R. Mason,2016-02-18 These homilies lectures and essays vigorously champion the author s conviction that it is reasonable to believe in a God of pure unbounded love and also that the best religion is a reasonable religion That is the God of Love is the God of Reason and as a seventeenth century Cambridge preacher put it If you would be religious be rational in your religion Thus these essays challenge both the New Atheists and Fundamentalists who are twins like Tweedledum and Tweedledee And they aim positively to unpack the meaning and implications of Jesus dictum You shall love the Lord your God with all your heart and with all your soul and with all your mind This is the greatest and first commandment And the second is like it You shall love your neighbor as yourself On these two commandments hang all the law and the prophets

Johnson, 2014-01-16 For millennia plant and animal species have received little sustained attention as subjects of Christian theology and ethics in their own right Focused on the human dilemma of sin and redemptive grace theology has considered the doctrine of creation to be mainly an overture to the main drama of human beings relationship to God What value does the natural world have within the framework of religious belief The crisis of biodiversity in our day when species are going extinct at more than 1 000 times the natural rate renders this question acutely important Standard perspectives need to be realigned theology needs to look out of the window so to speak as well as in the mirror Ask the Beasts Darwin and the God of Love leads to the conclusion that love of the natural world is an intrinsic element of faith in God and that far from being an add on ecological care is at the centre of moral life      *Undivided Love* Janet Gear, 2022-05-25 Undivided Love is a book about faith how it is expressed and what it communicates Janet Gear offers readers a sympathetic way to interpret the belief inspired actions of those around them without assuming homogeneous understandings of God the church and our place in the world Recognizing the pastoral and strategic challenges provoked by conflicting understandings of what the church is for Gear guides leaders in the artistry of handling shadows and strengths coexisting across five streams of lived faith evangelical ecclesial missional ecumenical and spiritual Ultimately Undivided Love empowers congregations to navigate the terrain of theological diversity shared by their community of faith to nurture its various longings and receive its unique gifts and to ultimately address the deeper question What are we called to do      **Mindful Loving** Henry Grayson, 2004-03-08 In this groundbreaking book Dr Henry Grayson shares his breakthrough techniques for creating deeper and more lasting connections with our loved ones Henry Grayson a psychologist relationship counselor psychoanalyst and former minister who has been working with couples and individuals to improve their relationships for over thirty years has found that most people are actually more unhappy after marriage counseling or couples therapy In Mindful Loving he sets aside the traditional methods of therapy to show you how to look at your relationships from a completely different perspective By getting to the root of our relationship problems which stem from our thoughts and beliefs and mistaken ideas about our own identities Grayson creates a whole new framework one where psychology spirituality and science meet in which to view intimacy

*The Light of Divine Altruistic Love* Ridley Stevens, 2021 Purity is a condition of the soul that implies divine grace has been acknowledged and further has been granted with this condition of light not having any relationship with the darkness of evil The angels the cherubs the seraphim are pure with this status enabling them to see the face of the Almighty Angels are spirits of light the spirit begotten children of the Father of lights messengers of the spirit of mercy faithfulness truthfulness forgiveness optimism and joy that impart a language of service by means of the spirit of altruism where the strong serve the weak to all who are to inherit paradise and salvation Since the faithful angels are pure spirits the Father is a pure spirit a Holy Spirit being undefiled and therefore all that is in him are the spirits of selfless love of selfless justice of selfless power

and of selfless wisdom which all shine as radiant light opposing and exposing the spirits of evil which are selfish love selfish justice and selfish wisdom It follows then that the Father of lights having no sharing with evil does not punish punishment being evil anybody for anything at all but only protects guides supports and disciplines but never punishes not even those that stand firmly as enemies and adversaries The Father has no hatred indifference bitterness or enmity in His heart towards anyone but has a heart that vibrates with purity and affection God is Love      Triumph of Love Illustrated - Part II Pravir Malik,2025-07-14 Part II From Quantum Seeds to the Second Singularity After EM WAMP the same iterative generator equation yields successive P type beings quantum particles atoms molecules cells and ultimately the human P type Each step adds complexity by combining information from faster than light layers with the finite physical layer At the human stage faculties such as urge will emotion and thought open quantum windows into FBLEE the Four Base Logic Encoding Ecosystem that stores pre genetic instructions Constructive mutations which integrate additional super luminal information update FBLEE and DNA alike destructive mutations which align with the zero speed 0 type layer remain local and do not alter foundational logic Continued constructive integration leads to super matter based P type beings and large scale entities stable mega organizations and a sustainable global civilization whose codes currently exist only in FBLEE Their eventual materialization accelerates universal expansion a candidate explanation for dark energy and prepares the way for the Second Singularity or S type being where fourfold functionality becomes fully conscious and horizontally as well as vertically integrated In contrast derivative D type beings technologies built on fragmented finite information sets can extend capability but cannot match the coherence or longevity of S type evolution The book s second half maps these possibilities outlining how persistent quantum level computation may steer humanity and the cosmos toward or away from that ultimate integrative state      **Artificial Love** Paul Shephard,2003-05-09 A vision of architecture that includes sculpture machines and technology and encapsulates the history of the human species According to Paul Shephard architecture is the rearranging of the world for human purposes Sculpture machines and landscapes are all architecture every bit as much as buildings are In his writings Shephard examines old assumptions about architecture and replaces the critical theory of the academic with the active theory of the architect citizen enamored of the world around him Artificial Love weaves together three stories about architecture into one The first about machines as architecture leads to speculations about technology and the human condition and to the assertion that machines are the sculptures of today The second story is about the ways that architecture reflects the tribal and personal desires of those who make it In the West ideas of community multiculturalism and globalization compete furiously leaving architecture to exist as it always has as the past in the present The third story features individual people experiencing their lives in the context of architecture Here Shephard borrows the rhetorical device of Shakespeare s seven ages of man to propose that each person s life imitates the accumulating history of the human species Shephard s version of the history of humans is a technological one in which machines become sculpture and

sculpture becomes architecture For Shepheard our machines do not separate us from nature Rather our technology is our nature and we cannot but be in harmony with nature The change that we have wrought in the world he says is a wonderful and powerful thing      **Love Affair** Don Tait, 2017-01-09 Several years ago at a gathering of married priests and their wives it was asked How is it you got married I began to reply with a long description of the journey leading up to my decision After a few minutes my wife impatient with the slowness of it all blurted out We fell madly in love and got married End of story So begins the story of Don Tait and his spiritual journey from his roots in a devout Catholic upbringing to becoming a celibate parish priest and missionary in Latin America to the life changing decision to marry ever faithful to the Spirit who leads to life While the context of his life is unique the choice to be faithful is universal
