Every chapter includes sections on human development, brain function, individual differences, and abnormal psychology that occur in that area. These cut across sections highlight how the different fields of psychology are connected to each other and how they connect to everyday life. Every chapter begins with a vignette that shows the power of psychology in understanding a whole range of human behavior.

This theme is reinforced throughout the chapter in boxed readings and margin notes that celebrate the extraordinary processes that make the everyday possible and make psychology both meaningful and relevant. The text presents psychology as a unified field the understanding of which flows from connecting its multiple subfields and reinforces the fact that psychology is a science with all that this implies: research methodology, cutting edge studies, the application of critical thinking.

**The Practice of Love** Laird Torrent, 2022-02-15 A master class in relationship repair and connection. At its core, this book delivers an inconvenient truth: Our relationships have to be a daily practice if we want them to thrive. We should treat them like we treat anything that we want to succeed by giving them time and attention. For far too long it has been assumed that we should innately understand how to love one another. Relationships have fallen into the category of things we should know how to do. But we are not born knowing how to make a relationship work any more than we are born knowing how to file taxes or buy insurance, and there are no classes in high school or college that teach us how to do this. *The Practice of Love* is that class. In his work, Laird Torrent, a licensed marriage and family therapist, brings together concepts and tools that can actually help couples heal for the long haul. Diving beneath the symptoms, most therapies focus on, he helps couples develop a deeper understanding of the wounds that brought them together and how they show up in their relationships. *The 5 Practices* gives the reader an opportunity to weed out and take responsibility for limiting or negative habits while allowing them to learn and adopt new and healthier practices with their partner. These are not short term solutions but rather a path to profound healing, deeper connection and stronger, happier relationships.
