

The Role of Love and Affection Among Dogs

Dogs have a long history of being kept as pets because of the common belief that they are man's greatest friend. One of the most significant facets of having a dog as a pet is the relationship that develops between the dog and its owner, which is frequently characterized by feelings of fondness and love. In this essay, we will investigate the significance of love and affection in the lives of dogs, as well as the ways in which it influences their behavior and overall health.

To begin, a dog's socialization process cannot begin without love and affection from their owners. canines are naturally social animals that benefit greatly from the company of both people and other canines. Anxiety and behavioral issues in dogs, such as excessive barking, destructive behavior, and aggression can develop when they do not receive enough care and attention from their owners. On the other hand, canines who are showered with a great deal of affection and attention are more likely to be well-adjusted and comport themselves appropriately.

The second way to assist develop the link between a dog and its owner is to show love and affection to both of them. Dogs have a strong sensitivity to the sentiments and moods of humans and are able to pick up on their owners' states of mind. When owners offer their pets love and affection, a good and nurturing atmosphere is created. This environment can improve the dog's well-being and can also strengthen the link between the dog and its owner.

Thirdly, the act of showing love and affection to a dog can have a beneficial effect on their physical well-being. Petting and snuggling with a dog can help its owner feel less stressed and lower their blood pressure, both of which can have a beneficial effect on the dog's general health. Studies have proved this to be the case. Dogs who are showered with love and care on a consistent basis are less likely to be overweight and more likely to lead healthy, active lives, which in turn lowers their likelihood of developing a variety of health issues.

In conclusion, the function that love and affection play among dogs is crucial for the socialization, behavior, and well-being of the dogs themselves. Dog owners can foster a pleasant and nurturing atmosphere for their pets by showing affection and care to their canine companions. This, in turn, contributes to the development of canines that are emotionally

Mortal Subjects Christina Howells, 2013-05-02 This wide ranging and challenging book explores the relationship between subjectivity and mortality as it is understood by a number of twentieth century French philosophers including Sartre Lacan Levinas and Derrida Making intricate and sometimes unexpected connections Christina Howells draws together the work of prominent thinkers from the fields of phenomenology and existentialism religious thought psychoanalysis and deconstruction focussing in particular on the relations between body and soul love and death desire and passion From Aristotle through to contemporary analytic philosophy and neuroscience the relationship between mind and body psyche and soma consciousness and brain has been persistently recalcitrant to analysis and emotion or passion is the locus where the explanatory gap is most keenly identified

This problematic forms the broad backdrop to the work's primary focus on contemporary French philosophy and its attempts to understand the intimate relationship between subjectivity and mortality in the light not only of the death of the classical subject but also of the very real frailty of the subject as it lives on finite desiring embodied open to alterity and always incomplete. Ultimately Howells identifies this vulnerability and finitude as the paradoxical strength of the mortal subject and as what permits its transcendence. Subtle beautifully written and cogently argued this book will be invaluable for students and scholars interested in contemporary theories of subjectivity as well as for readers intrigued by the perennial connections between love and death.

Cervantine Blackness Nicholas R. Jones, 2024-10-22 There is no shortage of Black characters in Miguel de Cervantes's works yet there has been a profound silence about the Spanish author's compelling literary construction and cultural codification of Black Africans and sub-Saharan Africa. In *Cervantine Blackness* Nicholas R. Jones reconsiders in what sense Black subjects possess an inherent value within Cervantes's cultural purview and literary corpus. In this unflinching critique Jones charts important new methodological and theoretical terrain problematizing the ways emphasis on agency has stifled and truncated the study of Black Africans and their descendants in early modern Spanish cultural and literary production. Through the lens of what he calls Cervantine Blackness Jones challenges the reader to think about the blind faith that has been lent to the idea of agency and its analogues. Presence and resistance as a primary motivation for examining the lives of Black people during this period. Offering a well-crafted and sharp critique through a systematic deconstruction of deeply rooted prejudices Jones establishes a solid foundation for the development of a new genre of literary and cultural criticism. A searing work of literary criticism and political debate *Cervantine Blackness* speaks to specialists and nonspecialists alike anyone with a serious interest in Cervantes's work who takes seriously a critical reckoning with the cultural historical and literary legacies of agency, antiblackness, and refusal within the Iberian Peninsula and the global reaches of its empire.
