contributed to the critical nature of this moment To delve into the heart of the crisis leading researchers and practitioners draw from the science of human connection to tell a five part story about its roots consequences and solutions In doing so they reveal how we in modern society have been captive to a false narrative that takes individualism as a universal truth The new story now emerging from across the human sciences underscores our social and emotional capacities and needs The science also reveals the ways in which the privileging of the self over relationships and of individual success over the common good as well as the perpetuation of dehumanizing stereotypes have led to a crisis of connection that is now widespread Finally the practitioners in the volume present concrete solutions that show ways we can create a more just and humane world This profoundly important book suggests that our innate human determination to bridge differences and live in vulnerable loving relationships is the antidote to rising fear and anxiety Lyn Mikel Brown author of *Powered by Girl*
