Men In White Coats:

Men in White Coats George Szmukler, 2017-11-16 Mental health laws surrounding psychiatric treatment under coercion have remained largely unchanged since the eighteenth century The grounds for involuntary treatment in psychiatry are first that the patient has a mental disorder that warrants treatment and second that the patient needs to be treated in the interests of his or her safety or for the protection of others Men in White Coats Treatment under Coercion is an accessible and timely resource on medical treatment under coercion and its justifications Split into thirteen chapters George Szmukler examines the current grounds for involuntary treatment of patients with mental disorders He argues that the existing laws are both discriminatory and morally unacceptable and that they should be replaced by an entirely different approach for overriding treatment refusals Using case studies and real life experiences Men in White Coats Treatment under Coercion discusses how involuntary treatment in psychiatric practice affects patients their families and society and looks to potential solutions to the current legal frameworks surrounding coercion that could be made applicable across all medical specialties and settings

The White Coat Diaries Madi Sinha, 2020-09-15 Grey's Anatomy meets Scrubs in this brilliant debut novel about a young doctor's struggle to survive residency love and life Having spent the last twenty something years with her nose in a textbook brilliant and driven Norah Kapadia has just landed the medical residency of her dreams But after a disastrous first day she's ready to quit Disgruntled patients sleep deprivation and her duty to be the perfect Indian daughter have her questioning her future as a doctor Enter chief resident Ethan Cantor He's everything Norah aspires to be respected by the attending physicians calm during emergencies and charismatic with his patients And as he morphs from Norah's mentor to something more it seems her luck is finally changing But when a fatal medical mistake is made pulling Norah into a cover up she must decide how far she's willing to go to protect the secret What if doing no harm means putting herself at risk

With and Without the White Coat Lata Murti, 2014-12-15 This study examines the role of occupational status in the racialization of Indian physicians in Southern California Since the liberalization of U S immigration policy in 1965 the number of first and second generation Indian doctors in the U S has grown to nearly seven percent of the nation's physician workforce however Indians constitute less than one percent of the total U S population Overrepresented in one of America's most prestigious professions Indians are more visible in U S medicine than in the U S at large Previous scholarship in immigration research Asian American Studies and the sociology of occupations has paid little attention to these professional non white immigrants and their racial experience in the U S Asian American Studies in particular has focused primarily on the racial ethnic identity formation of economically disadvantaged non white groups under the assumption that professional Asian Americans class status and occupations in the sciences effectively shield them from racist harm and preclude their engagement in racial politics This research shows that Indian doctors high occupational status and class privilege provide them only partial situational protection from racism They have what I call occupational citizenship access to most of the same rights and

privileges as whites only when perceived as being both professionally successful and economically beneficial to the U S They are clearly marked as occupational citizens during clinical interactions with patients when they are in the white coat But outside of this context they are subject to racist treatment from colleagues staff health care institutions and the general public The particular forms of racism these doctors face as well as how they interpret this racism have as much to do with their gender immigrant generation and perception of others race and class as with their own professional class status These findings are based on fifty two interviews with first and second generation Indian doctors in Southern California as well as participant observation at the monthly meetings of two regional Indian medical associations I also observed seven Indian doctors at work noting their interactions with patients staff and colleagues Southern California represents an ideal case for understanding the racial formation of Indian physicians in the U S because of its large but dispersed population of established Indian physicians and its overall diversity of race ethnicity and class

Separated by the War Richard D. Arnold, 2014-02-07 When I was a youngster growing up in Texas my dad worked in a number of fields From the Oil Patch of West Texas to farming in the Panhandle or in security in central Texas the family usually enjoyed evening meals together After supper Dad enjoyed drinking a cup of coffee and telling us stories ranging from his experiences in the army during World War II where he was wounded during a German artillery barrage or his dreams for our futures or sometimes stories from his childhood On one such occasion he told of two young men who were separated during the Civil War One was raised by a family in the North and the other was raised by a family in the South Years later when both boys were grown and had families of their own they were reunited I have taken this event to construct the story of Josh and Jim two young boys who were separated by the Civil War The names characters locations and events are entirely fictitious and are presented for the readers enjoyment I hope that you enjoy this story as much as I have enjoyed writing it
