Improving Survey Methods Uwe Engel, Ben Jann, Peter Lynn, Annette Scherpenzeel, Patrick Sturgis, 2014-09-18 This

state of the art volume provides insight into the recent developments in survey research. It covers topics like survey modes and response effects, bio indicators and paradata, interviewer and survey error, mixed mode panels, sensitive questions, conducting web surveys and access panels, coping with non response and handling missing data. The authors are leading scientists in the field and discuss the latest methods and challenges with respect to these topics. Each of the book's eight parts starts with a brief chapter that provides an historical context along with an overview of today's most critical survey methods. Chapters in the sections focus on research applications in practice and discuss results from field studies. As such, the book will help researchers design surveys according to today's best practices. The book's website www.surveymethodology.de provides additional information, statistical analyses, tables and figures. An indispensable reference for practicing researchers and methodologists or any professional who uses surveys in their work, this book also serves as a supplement for graduate or upper level undergraduate courses on survey methods taught in psychology, sociology, education, economics and business. Although the book focuses on European findings, all of the research is discussed with reference to the entire survey methodology area, including the US. As such, the insights in this book will apply to surveys conducted around the world.

The SAGE Handbook of Survey Methodology Christof Wolf, Dominique Joye, Tom W. Smith, Yang-chih Fu, 2016-07-11. Survey Methodology is becoming a more structured field of research deserving of more and more academic attention. The SAGE Handbook of Survey Methodology explores both the increasingly scientific endeavour of surveys and their growing complexity as different data collection modes and information sources are combined. The handbook takes a global approach with a team of international experts looking at local and national specificities as well as problems of cross national comparative survey research. The chapters are organized into seven major sections, each of which represents a stage in the survey life cycle: Surveys and Societies, Planning a Survey, Measurement, Sampling, Data Collection, Preparing Data for Use, Assessing and Improving Data Quality. The SAGE Handbook of Survey Methodology is a landmark and essential tool for any scholar within the social sciences.

Advances in Questionnaire Design, Development, Evaluation and Testing Paul C. Beatty, Debbie Collins, Lyn Kaye, Jose-Luis Padilla, Gordon B. Willis, Amanda Wilmot, 2019-10-24. A new and updated definitive resource for survey questionnaire testing and evaluation. Building on the success of the first Questionnaire Development, Evaluation and Testing (QDET) conference in 2002, this book brings together leading papers from the Second International Conference on Questionnaire Design, Development, Evaluation and Testing (QDET2) held in 2016.
