Mexican American Fertility Patterns:

Mexican American Fertility Patterns Frank D. Bean, Gray Swicegood, 2014-06-23 The Mexican American population is the fastest growing major racial ethnic group in the United States During the decade 1970 1980 the Mexican origin population increased from 4 5 million to 8 7 million persons High fertility not immigration was responsible for nearly two thirds of this growth Recent and historical evidence shows that women of Mexican origin or descent bear significantly more children than other white women in the United States Mexican American Fertility Patterns clarifies the nature and magnitude of these fertility differences by analyzing patterns of childbearing both across ethnic groups and within the Mexican American population Using data from the 1970 and 1980 U S Censuses and from the 1976 Survey of Income and Education the authors evaluate various hypotheses of cultural social demographic and or economic factors as determinants of fertility differences Empirical analyses center on the interrelationships between fertility and generational status language usage and proficiency and female education This timely report concludes that Mexican American fertility is closest to that of other whites under conditions of greater access to the opportunity structures of the society *Patterns of Fertility Variation Among Mexican Immigrants to the United States* Frank D. Bean, 1980 *The Mexican American Family* Norma Williams, 1990 This is the first book to provide readers with an overall understanding of changing patterns in the extended and conjugal family relationships of the second largest ethnic minority group in the United States **Hispanic Population of the United States** Frank D. Bean, Marta Tienda, 1988-05-26 The Hispanic population in the United States is a richly diverse and changing segment of our national community Frank Bean and Marta Tienda emphasize a shifting cluster of populations Mexican Puerto Rican Cuban Central and South American Spanish and Caribbean as they examine fertility and immigration family and marriage patterns education earnings and employment They discuss for instance the effectiveness of bilingual education recommending instead culturally supportive programs that will benefit both Hispanic and non Hispanic students A study of the geographic distribution of Hispanics shows that their tendency to live in metropolitan areas may in fact result in an isolation which denies them equal access to schooling jobs and health care Bean and Tienda offer a critical much needed assessment of how Hispanics are faring and what the issues for the future will be Their findings reveal and reflect differences in the Hispanic population that will influence policy decisions and affect the Hispanic community on regional and national levels represents the state of the art for quantitative analysis of ethnic groups in the United States *American Journal of Sociology* A Volume in the Russell Sage Foundation Census Series *The U.S.-Mexico Border*, 1983 **Ethnic America** Thomas Sowell, 2008-08-01 This classic work by the distinguished economist traces the history of nine American ethnic groups the Irish Germans Jews Italians Chinese African Americans Puerto Ricans and Mexicans **Fertile Matters** Elena R. Gutiérrez, 2009-06-03 While the stereotype of the persistently pregnant Mexican origin woman is longstanding in the past fifteen years her reproduction has been targeted as a major social problem for the United States Due to fear fueled news

reports and public perceptions about the changing composition of the nation's racial and ethnic makeup the so called Latinization of America the reproduction of Mexican immigrant women has become a central theme in contemporary U S politics since the early 1990s In this exploration Elena R Gutierrez considers these public stereotypes of Mexican American and Mexican immigrant women as hyper fertile baby machines who breed like rabbits She draws on social constructionist perspectives to examine the historical and sociopolitical evolution of these racial ideologies and the related beliefs that Mexican origin families are unduly large and that Mexican American and Mexican immigrant women do not use birth control Using the coercive sterilization of Mexican origin women in Los Angeles as a case study Gutierrez opens a dialogue on the racial politics of reproduction and how they have developed for women of Mexican origin in the United States She illustrates how the ways we talk and think about reproduction are part of a system of racial domination that shapes social policy and affects individual women's lives [Chicano Scholars and Writers](#) Julio A.
