Mexicana Encounters The Making Of Social Identities On The Borderlands:

MeXicana Encounters Rosa Linda Fregoso, 2003-12-04 Table of contents **Latinas/os in the United States** Havidan Rodriguez, Rogelio Saenz, Cecilia Menjivar, 2007-11-21 Clara E Rodriguez As is befitting a book on Latinas/os at the start of the 21st century the chapters in this volume reflect the contemporary panorama of Latinas/os in the United States Today Latinas/os are the largest minority group They accounted for 12.5% of the total U.S. population in the last decennial census recent estimates showed the Hispanic population to be 41.3 million as of July 1, 2004 or 14% of the nation's total population However this estimate does not include the 3.9 million residents of Puerto Rico who are also U.S. citizens and would raise the total to 45.2 million This would make the U.S. population of Latinos the second largest Spanish origin population in the hemisphere after Mexico The growth of this population since 1980 has been dramatic Hispanics/Latinos grew more than seven times faster than the population of the nation as a whole increasing by half whereas the white non-Hispanic population increased by only 6% between 1980 and 1990 U.S. Bureau of the Census 1991 Table 1 U.S. Bureau of the Census 1993 p. 2 In the 1990s the Hispanic population increased 58% Moreover between 2003 and 2004 one of every two people added to the nation's population was Hispanic/Latino Consequently not only are Latinos a substantial part of the U.S. population but they account for half its population growth *Popular Culture in the Age of White Flight* Eric Avila, 2006-04 In *Popular Culture in the Age of White Flight* Eric Avila offers a unique argument about the restructuring of urban space in the two decades following World War II and the role played by new suburban spaces in dramatically transforming the political culture of the United States Avila's work helps us see how and why the postwar suburb produced the political culture of balanced budget conservatism that is now the dominant force in politics how the eclipse of the New Deal since the 1970s represents not only a change of views but also an alteration of spaces George Lipsitz author of *The Possessive Investment in Whiteness* *The Life of Paper* Sharon Luk, 2018 Introduction the life of paper The inventions of China Imagined genealogies for all who cannot arrive Detained alien enemy mail examined Censorship and the work of art where they barbed the fourth corner open Ephemeral value and disused commodities Uses of the profane **Boyle Heights** George J. Sánchez, 2022-07-12 The radical history of a dynamic multiracial American neighborhood When I think of the future of the United States and the history that matters in this country I often think of Boyle Heights George J. Sánchez The vision for America's cross-cultural future lies beyond the multicultural myth of the great melting pot That idea of diversity often imagined ethnically distinct urban districts the Little Italys Koreatowns and Jewish quarters of American cities built up over generations and occupying spaces that excluded one another But the neighborhood of Boyle Heights shows us something altogether different a dynamic multiracial community that has forged solidarity through a history of social and political upheaval Boyle Heights is an in-depth history of the Los Angeles neighborhood showcasing the potent experiences of its residents from early contact between Spanish colonizers and native Californians to the internment of Japanese Americans

during World War II the hunt for hidden Communists among the Jewish population negotiating citizenship and belonging among Latino migrants and Mexican American residents and beyond Through each period and every struggle the residents of Boyle Heights have maintained remarkable solidarity across racial and ethnic lines acting as a unified polyglot community even as their tribulations have become more explicitly racial in nature Boyle Heights is immigrant America embodied and it can serve as the true beacon on a hill toward which the country can strive in a time when racial solidarity and civic resistance have never been in greater need *Arise!* Christina Heatherton, 2024-02-06

An international history of radical movements and their convergences during the Mexican Revolution The Mexican Revolution was a global event that catalyzed international radicals in unexpected sites and struggles Tracing the paths of figures like Black American artist Elizabeth Catlett Indian anti colonial activist M N Roy Mexican revolutionary leader Ricardo Flores Mag n Okinawan migrant organizer Paul Shinsei K chi and Soviet feminist Alexandra Kollontai *Arise* reveals how activists around the world found inspiration and solidarity in revolutionary Mexico From art collectives and farm worker strikes to prison universities *Arise* reconstructs how this era s radical organizers found new ways to fight global capitalism Drawing on prison records surveillance data memoirs oral histories visual art and a rich trove of untapped sources Christina Heatherton considers how disparate revolutionary traditions merged in unanticipated alliances From her unique vantage point she charts the remarkable impact of the Mexican Revolution as radicals in this critical era forged an anti racist internationalism from below **Incarcerating the Crisis**

Jordan T. Camp, 2016-04-18 The United States currently has the largest prison population on the planet Over the last four decades structural unemployment concentrated urban poverty and mass homelessness have also become permanent features of the political economy These developments are without historical precedent but not without historical explanation In this searing critique Jordan T Camp traces the rise of the neoliberal carceral state through a series of turning points in U S history including the Watts insurrection in 1965 the Detroit rebellion in 1967 the Attica uprising in 1971 the Los Angeles revolt in 1992 and events in post Katrina New Orleans in 2005 *Incarcerating the Crisis* argues that these dramatic events coincided with the emergence of neoliberal capitalism and the state s attempts to crush radical social movements Through an examination of the poetic visions of social movements including those by James Baldwin Marvin Gaye June Jordan Jos Ram rez and Sunni Patterson it also suggests that alternative outcomes have been and continue to be possible **Suburban**

Empire Lauren Hirshberg, 2022-02-15 *Suburban Empire* takes readers to the US missile base at Kwajalein Atoll in the Marshall Islands at the matrix of postwar US imperial expansion the Cold War nuclear arms race and the tide of anti colonial struggles rippling across the world Hirshberg shows that the displacement of indigenous Marshallese within Kwajalein Atoll mirrors the segregation and spatial politics of the mainland US as local and global iterations of US empire took hold Tracing how Marshall Islanders navigated US military control over their lands *Suburban Empire* reveals that Cold War era suburbanization was perfectly congruent with US colonization military testing and nuclear fallout The structures of suburban

segregation cloaked the destructive history of control and militarism under a veil of small town innocence *Jack Johnson, Rebel Sojourner* Theresa Runstedtler, 2012-05-14 Discusses the life and boxing career of Jack Johnson *Eugenic Nation* Alexandra Minna Stern, 2016 With an emphasis on the American West *Eugenic Nation* explores the long and unsettled history of eugenics in the United States This expanded second edition includes shocking details that demonstrate that the story is far from over Alexandra Minna Stern explores the unauthorized sterilization of female inmates in California state prisons and ongoing reparations for North Carolina victims of sterilization as well as the topics of race based intelligence tests school segregation the U S Border Patrol tropical medicine the environmental movement and opposition to better breeding Radically new and relevant this edition draws from recently uncovered historical records to demonstrate patterns of racial bias in California s sterilization program and to recover personal experiences of reproductive injustice Stern connects the eugenic past to the genomic present with attention to the ethical and social implications of emerging genetic technologies Provided by publisher
