Mexico And The Nafta Environment Debate The Transnational Politics Of Economic Integration:

Mexico and the NAFTA Environment Debate Barbara Hogenboom,1998 **Mexico and the NAFTA Environment Debate** Barbara Hogenboom,1998 The book makes an important contribution to the discussion on the nature and impact of current processes of regionalization and globalization NGOs criticism on Mexico s weak enforcement of environmental policy could not be ignored or silenced in the NAFTA debate In the end a supplemental environmental agreement was added to the trade agreement a unique event **Regional Governance in Post-NAFTA North America** Brian Bow,Greg Anderson,2014-10-30 Twenty years after NAFTA the consensus seems to be that the regional project in North America is dead The trade agreement was never followed up by new institutions that might cement a more ambitious regional community The Security and Prosperity Partnership SPP launched with some fanfare in 2005 was quietly discontinued in 2009 And new cooperative ventures like the US Canada Beyond the Border talks and the US Mexico Merida Initiative suggest that the three governments have reverted to the familiar pre NAFTA pattern of informal incremental bilateralism One could argue however that NAFTA itself has been buried and yet the region somehow lives on albeit in a form very different from regional integration in other parts of the world A diverse group of contributors from the United States Canada and Mexico with experience in academia government service think tanks and the private sector bring to bear a sophisticated and much needed examination of regional governance in North America its historical origins its connection to the regional distribution of power and the respective governments domestic institutions and the variance of its forms and function across different issue areas The editors begin by surveying the literature on North American regional politics matching up developments there with parallel debates and controversies in the broader literatures on comparative regional integration and international policy coordination more generally Six contributors later explore the mechanisms of policy coordination in specific issue areas each with an emphasis on a particular set of actors and with its own way of characterizing the relevant political and diplomatic dynamics Chapters on the political context for regional policy coordination follow leading to concluding remarks on the future of North America At a time when scholarly interest in North America seems to be waning even while important and interesting political and economic developments are taking place this volume will reinvigorate the study of North America as a region to better understand its past present and future Gary Bryner, The Historical Dictionary of Environmentalism strategically skips across issues concepts time organizations and cultures not with any pretense of producing a definitive dictionary but rather with the aim of producing an inclusive wide ranging and global history of environmentalism This is done through a chronology a list of acronyms and abbreviations an introductory essay and over 300 cross referenced dictionary entries Reevaluating NAFTA I. Hussain,2012-12-05 Depicting NAFTA to be but a stepping stone rather than final product of regional economic integrative efforts a chapter specific 15 year assessment conveys the upsides and downsides of North America s Camelot moment **North American Regionalism and Global Spread I.**

Hussain,R. Dominguez,2015-02-19 Was the 1993 North American Free Trade Agreement NAFTA designed as a definitive trade agreement or as a stepping stone This book reviews NAFTA s performances on trade investment intellectual property rights dispute settlement as well as environmental and labor side agreements within a theoretical construct *European Discourses on Environmental Policy* Marcel Wissenburg,Gökhan Orhan,Ute Collier,2018-08-20 First published in 1999 this volume contributed to the debate on the European Union in furthering the study of environmental policy and expressly by introducing promising young scholars to the debate The volume is based on a series of seminars for the Interdisciplinary Research Network on Environment and Safety IRNES with funding from the UK Economic and Social Research Council ESRC These new scholars explore areas including post decisional politics sustainability and agricultural biotechnology regulation
