**AirLandBattle21** Ellwood P. Hinman IV, Thomas E. Jahn, James G. Jinnette, 2016-12-05 The changed strategic landscape of the 21st century has driven a shift to more flexible adaptable capabilities across the spectrum of conflict Operations in Iraq and Afghanistan have demonstrated the validity of team warfare between air and land forces during open hostilities with an enemy The time has come for innovative counter air and counter land concepts focused on medium to large scale conventional combat operations that will merge air and ground forces even more effectively into a single potent fighting force Such is the focus of AirLandBattle21 A basic assumption in this study is that during major combat operations a relevant number of Brigade Combat Teams BCTs will conduct distributed operations in a non linear non contiguous and geographically separated fashion The study introduces a flexible counter air framework that allows for the most efficient use of limited air assets and advocates only the necessary levels of air control in different areas across the theatre The study also offers alternative views of strategic attack and explores the critical role tactical airlift will play in employing and sustaining the brigade combat team

**Kill Hitler** World History, 2024-11-07 Six attempts were made by German officers to kill Hitler in autumn 1943 and summer 1944 Explosives in personal gifts assassins armed with hand grenades and pistols and even suicide bombers with pockets full of explosives hunted the Führer who undoubtedly recognised the danger The security arrangements around the leader of the Nazi regime were therefore enormous when in July 1944 Officer Claus von Stauffenberg travelled to Hitler's Führerbunker in East Prussia to kill first Adolf Hitler and then the entire Third Reich Claus von Stauffenberg was not alone He was just a pawn in a group of noble officers plan to overthrow the Nazis and then make gentle peace with the British Russians and Americans before Germany was destroyed by its enemies How close was the group to succeeding World History invites you on a fascinating journey to bygone eras allowing you to explore the greatest events in history Take a trip back in time to the frontlines of World War 2 to the Viking raids and to the religious rituals of ancient Egypt World History is for everyone who would like to know more about the exciting and dramatic events of the past

Alexander, 2010-04-01 The nature of warfare has changed Like it or not terrorism has established a firm foothold worldwide Economics and environmental issues are inextricably entwined on a global basis and tied directly to national regional security Although traditional threats remain new shadowy and mercurial adversaries are emerging and identifying and locating them is difficult Future War based on the hard learned

lessons of Bosnia Haiti Somalia Panama and many other trouble spots provides part of the solution Non lethal weapons are a pragmatic application of force not a peace movement Ranging from old rubber bullets and tear gas to exotic advanced systems that can paralyze a country they are essential for the preservation of peace and stability Future War explains exactly how non lethal electromagnetic and pulsed power weapons the laser and tazer chemical systems computer viruses ultrasound and infrasound and even biological entities will be used to stop enemies These are the weapons of the future
