Mobilizing For The War Effort 1940:

Mobilizing America: Robert P. Patterson and the War Effort, 1940-1945 Keith Eiler, 2022-12-14 Judge Robert P Patterson resigned from the US Court of Appeals for the Second Circuit in New York City in 1940 to join the War Department to help prepare the country for a war he knew was coming As Under Secretary of War he was responsible under Secretary of War Henry L Stimson for industrial mobilization and procurement for the army and the army air force The study documents Patterson s extraordinary and largely unrecognized contributions to the war effort recounts how the federal government transformed itself for war and converted a vast market oriented economy into an effective war machine and documents numerous issues about the evolution of civil military relations during the emergency Patterson emerges as a self effacing public servant of unusual ability and character This splendid biography does belated justice to one of the unsung heroes of the Second World War Robert P Patterson a quiet man of commanding ability and sturdy purpose played a key role in the mobilization of American men and resources that made victory possible Mobilizing America illuminates both the integrity of the man and the complexity of his achievement Arthur Schlesinger Jr In Mobilizing America Keith E Eiler makes a significant contribution to our understanding of the mobilization by describing the contributions of Robert P Patterson a heretofore neglected yet pivotal figure in making President Franklin D Roosevelt s vision of America as the Arsenal of Democracy into a reality Mobilizing America is a worthy work of scholarship Gracefully written it deftly examines Patterson s style and numerous issues of wartime policy and reminds us that a purposeful individual can make a difference in a vast national endeavor The Journal of Military History Students of the Second World War even professional military officers are often woefully uninformed about the vast and complex war effort waged on the home front to provide the supplies trained manpower and munitions necessary to ultimate victory Keith Eiler has found a way to portray this mobilization effort vividly by telling the story through the eyes of Undersecretary of War Robert P Patterson a modest but dynamic man whose contributions in the author s words were comparable only to those of the army s chief of staff General George C Marshall and of the president himself I recommend this book to anyone seeking to attain a full understanding of the entire United States war effort John S D Eisenhower As a study of the domestic economy during WWII this book is unparalleled Choice Eiler has written a comprehensive account of Patterson s Herculean efforts largely unrecognized then or later which were so essential for the final victory Patterson emerges as a patriot and ideal public servant Library Journal This account of the career of one of the 20th century s great public servants is a dramatic story ably narrated and documented about a side of World War II the domestic war against entrenched bureaucracy in which Patterson played an heroic role Washington Times A detailed well researched book The Journal of American History **American Zionism: Mobilizing for the war effort, 1940** ,1990

Japan's Economic Planning and Mobilization in Wartime, 1930s-1940s Yoshiro Miwa, 2015-01-22 Although most economists maintain a mistrust of a government s goals when it intervenes in an economy many continue to trust its actual

ability They retain in other words a faith in state competence For this faith they adduce no evidence Sharing little skepticism about the government's ability they continue to expect the best of governmental intervention To study government competence in World War II Japan offers an intriguing laboratory In this book Yoshiro Miwa shows that the Japanese government did not conduct requisite planning for the war by any means It made its choices on an ad hoc basis and the war itself quickly became a dead end That the government planned for the war incompetently casts doubts on the accounts of Japanese government leadership more generally The Mobilized American West, 1940-2000 John M. Findlay, 2023-07 In the years between 1940 and 2000 the American Far West went from being a relative backwater of the United States to a considerably more developed modern and prosperous region one capable of influencing not just the nation but the world By the dawn of the twenty first century the population of the West had multiplied more than four times since 1940 and western states had transitioned from rural to urban becoming the most urbanized section of the country Massive investment both private and public in the western economy had produced regional prosperity and the tourism industry had undergone massive expansion altering the ways Americans identified with the West In The Mobilized American West 1940 2000 John M Findlay presents a historical overview of the American West in its decades of modern development During the years of U S mobilization for World War II and the Cold War the West remained a significant distinct region even as its development accelerated rapidly and in many ways it became better integrated into the rest of the country By examining events and trends that occurred in the West Findlay argues that a distinctive region wide political culture developed in the western states from a commitment to direct democracy the role played by the federal government in owning and managing such a large amount of land and the way different groups of westerners identified with and defined the region While illustrating western distinctiveness Findlay also aims to show how in its sustaining mobilization for war the region became tethered to the entire nation more than ever before but on its own terms Findlay presents an innovative approach to viewing the American West as a region distinctive of the United States one that occasionally stood ahead of at odds with and even in defiance of the nation

Arming the Nation for War Robert P. Patterson, 2014-10-30 A decorated World War I veteran Federal Judge Robert P. Patterson knew all too well the needs of soldiers on the battlefield He was thus dismayed by America's lack of military preparedness when a second great war engulfed Europe in 1939-40 With the international crisis worsening Patterson even resumed military training as a forty-nine year-old private before being named assistant secretary of war in July 1940 That appointment set the stage for Patterson's central role in the country's massive mobilization and supply effort which helped the Allies win World War II In *Arming the Nation for War* a previously unpublished account long buried among the late author's papers and originally marked confidential Patterson describes the vast challenges the United States faced as it had to equip in a desperately short time a fighting force capable of confronting a formidable enemy Brimming with data and detail the book also abounds with deep insights into the myriad problems encountered on the domestic mobilization front including the sometimes divergent interests of wartime planners and industrial leaders along with the logistical difficulties of supplying far-flung theaters of war with everything from ships planes and tanks to food and medicine Determined to remind his contemporaries of how narrow the Allied margin of victory was and that the war's lessons not be forgotten Patterson clearly intended the manuscript which he wrote between 1945 and 47 when he was President Truman's secretary of war to contribute to the postwar debates on the future of the military establishment That passage of the National Security Act of 1947 to which Patterson was a key contributor answered many of his concerns may explain why he never published the book during his lifetime A unique document offering an insider's view of a watershed historical moment Patterson's text is complemented by editor Brian Waddell's extensive introduction and notes In addition Robert M. Morgenthau former Manhattan district attorney and a protégé of Patterson's for four years prior to the latter's death in a 1952 plane crash offers a heartfelt remembrance of a man the New York Herald Tribune called an example of the public spirited citizen **The Marketing of World War II in the US, 1939-1946** Albert N. Greco, 2020-06-10 From the late 1930s until December 7 1941 isolationism and an antipathy toward war in Europe were strong political currents in the US However once the US

entered World War II the entire apparatus of the US government was mobilized to market the war to Americans who were incredulous and horrified about the attack at Pearl Harbor Americans wanted immediate and detailed information from the US government and the nation's media and entertainment companies about the recent military disasters This book analyzes the complex relationships between the US government and the entire media and entertainment industries between 1939 and 1946 The US government realized in early 1942 that it needed to forge an alliance with the media and entertainment industries to create and maintain support for the war The Office of War Information OWI was the US government agency acting as the liaison between Washington and the diverse media and entertainment industries and all of them confronted a series of major issues and concerns to convince Americans to support the war effort This book offers business historians an examination of the complex and sometimes tense relationships between the OWI and the radio magazine newspaper and motion picture industries The Home Front and War in the Twentieth Century ,1983 **A Blueprint for War** Susan

Problems United States. Congress. Senate. Committee on Military Affairs. War Contracts Subcommittee,1944 *World War II and the U.S. Army Mobilization Program* Arlene R. Kriv,1992 Mobilizing Women for War Leila J. Rupp,2015-03-08 To discover how war can affect the status of women in industrial countries Leila Rupp examines mobilization propaganda directed at women in Nazi Germany and the United States Her book explores the relationship between ideology and policy challenging the idea that wars improve the status of women by bringing them into new areas of activity Using fresh sources for both Germany and the United States Professor Rupp considers the images of women before and during the war the role of propaganda in securing their support and the ideal of feminine behavior in each country Her analysis shows that propaganda was more intensive in the United States than in Germany and that it figured in the success of American mobilization and the failure of the German campaign to enlist women s participation The most important function of propaganda however consisted in adapting popular conceptions to economic need The author finds that public images of women can adjust to wartime priorities without threatening traditional assumptions about social roles The mode of adaptation she suggests helps to explain the lack of change in women s status in postwar society Far reaching in its implications for feminist studies this book offers a new and fruitful approach to the social economic and political history of Germany and the United States Originally published in 1978 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 Mobilization and Demobilization Problems United States. Problems, Hearings Before a Subcommittee ..., S. 1730 ..., S. 1893 ..., April 26, 1944 United States. Congress. Senate. Committee on Military Affairs,1944 *The Economic Consequences of U.S. Mobilization for the Second World War* Alexander J. Field,2022-10-18 A reminder that war is not always or even generally good for long term growth Many believe that despite its destructive character war ultimately boosts long term economic growth For the United States this view is often supported by appeal to the experience of the Second World War understood as a triumph of both production and productivity Alexander Field shows that between 1941 and 1945 manufacturing productivity actually declined depressed by changes in the output mix and resource shocks from enemy action including curtailed access to natural rubber and on the Eastern Seaboard petroleum The war forced a shift away from producing goods in which the country had a great deal of

experience toward those in which it had little Learning by doing was only a partial counterbalance to the intermittent idleness and input hoarding that characterized a shortage economy and dragged down productivity The conflict distorted human and physical capital accumulation and once it ended America stopped producing most of the new goods The war temporarily shut down basic scientific research and the ongoing development of civilian goods U S world economic dominance in 1948 Field shows was due less to the experience of making war goods and more to the country s productive potential in 1941 Nazi Germany Jane Caplan, 2008-04-24 The history of National Socialism as movement and regime remains one of the most compelling and intensively studied aspects of twentieth century history and one whose significance extends far beyond Germany or even Europe alone This volume presents an up to date and authoritative introduction to the history of Nazi Germany with ten chapters on the most important themes each by an expert in the field Following an introduction which sets out the challenges this period of history has posed to historians since 1945 contributors explain how Nazism emerged as ideology and political movement how Hitler and his party took power and remade the German state and how the Nazi national community was organized around a radical and eventually lethal distinction between the included and the excluded Further chapters discuss the complex relationship between Nazism and Germany s religious faiths the perverse economic rationality of the regime the path to war laid down by Hitler s foreign policy and the intricate and intimate intertwining of war and genocide with a final chapter on the aftermath of National Socialism in postwar German history and memory
