New Connections New Architecture New Urban Environments And The London Jubilee Line Extension:

New Connections Richard MacCormac, Peter Murray, Maryanne Stevens, 2001 In December 1999 the city of London completed the first extension of its underground transportation system in more than 30 years With its innovative engineering and striking design the state of the art Jubilee Line Extension has won recognition as one of the great engineering and architectural achievements of its age A dynamic case study of the impact of new urban transportation this illustrated book not only looks at the engineering and architectural challenges involved but also examines the line extension's vital importance as a catalyst for urban regeneration Engineers architects and city planners will find lessons here for all cities at a time when urban renewal is a subject of intense interest throughout the world

Jubilee Line Extension Bob Mitchell, 2003 This major reference work details the story of London Underground's award winning Jubilee Line Extension JLE how it came to being how it was planned how it was designed built and commissioned and how the millennium deadline imposed by the Dome was met Always in the public eye and the political spotlight the JLE has played a significant role in the success of the Canary Wharf development improved public transport immeasurably in the areas of southeast and east London and set new standards for London Underground and public transport Despite the problems and the much publicised cost and time overruns the project can still be considered to be a major construction achievement The Jubilee Line Extension From Concept to Completion describes in detail the history of the project which goes back more than 50 years The first concepts were defined in 1943 and the book traces developments to the East London Railway study that effectively defined the JLE Extension Also presented is a detailed insight into the development of the Olympia York funding contribution that was a key issue in achieving Government approval With contributions from some of the major contractors personnel involved the book offers a detailed and factual account of the completion of this stunning new railway line Much has been written about the construction work of the JLE particularly the stations however this is the first book that provides a rounded view of how a major new underground railway line came to be built and presents key details of the JLE project activities relating to transport planning the legal processes comprehensive safety planning procurement contracting engineering development environmental issues project management and commissioning And all achieved under immense political and media scrutiny The Jubilee Line Extension From Concept to Completion will appeal to everyone who is interested in major transportation projects and in discovering how the JLE was able to deliver a major urban infrastructure project with the minimum of environmental disturbance and with an exemplary safety record Project managers will find this detailed record of all that was involved an inspiration and an invaluable source of information which they can apply to other projects they are working on now and in the future

New Connections Richard MacCormac, Peter Murray, Mary Anne Stevens, 2001 In December 1999 London acquired a new component to its urban Underground system the Jubilee Line was extended eastwards from Westminster to Stratford East creating 11 new stations This ambitious project incorporated innovative engineering

techniques and transport planning outstanding examples of contemporary architecture and acted as a catalyst for urban regeneration

Urban Design Jon Lang, 2006-08-11 Urban Design provides a comprehensive and accessible introduction to urban design presenting a 3 dimensional model with which to categorise the processes and products involved It not only defines the subject but also considers the future direction of the field and what can be learned from the past 50 international case studies demonstrate the variety of urban design efforts that have occurred in recent history

Identity by Design Georgia Butina-Watson, Ian Bentley, 2007-06-07 In a world of increasing globalisation where one high street becomes interchangeable with the next Identity by Design addresses the idea of place making and the concept of identity looking at how these things can be considered as an integral part of the design process Structured around a series of case studies including Prague Mexico Malaysia and Boston the authors discuss an array of design approaches to explain and define the complex interrelated concepts The concluding sections of the book suggest ideas for practical application in future design processes With full colour images throughout this book takes the discussion of place identity to the next level and will be valuable reading for all architects urban designers planners and landscape architects
