New Consensus For Old Cultural Studies From Left To Right:

New Consensus for Old Thomas Frank, 2002-01 Thomas Frank has been sending wake up calls to just about everyone within reach over the past decade in venues from The Village Voice to Harper's. His takes on labor politics advertising the virtues of the Midwest and how uncool you really are have won him a wide audience and in this piece Frank gives us a reading of cultural studies viewed by some as an important new perspective in the academy but by others as an unwieldy theoretical fad. Cultural Studies Lawrence Grossberg, 2020-11-25 This book leading and shaping the field of cultural studies in Australia fosters a conversation about the changing and competing discursive and material conditions struggles and possibilities of the contemporary world in all their complexities and diversities. Cultural Studies' Affective Voices M. Gregg, 2006-08-30 In a series of encounters with key figures in the field of cultural studies this book draws together interest in affect theory and contemporary politics to describe the mobilising effects of individual scholarly voices in cultural studies history emphasising the ongoing importance of engaged public intellectualism throughout. **Cultural Studies 50 Years On** Kieran Connell, Matthew Hilton, 2016-09-30 Stuart Hall conceptualized his time at the Centre for Contemporary Cultural Studies as a series of interruptions. It was this fluidity that gave rise to Hall's conception of cultural studies as a moving target a fusion of a range of disciplinary approaches that was uniquely influenced by politics in the world beyond the academy. The political commitments of those at the Centre were wide ranging and from its embrace of collective ways of research and decision making to its deployment of various strands of European Marxist theory had a critical impact on the Centre's working practices. Yet as the diverse work of many of these same scholars has shown the political climate of the present day is almost unrecognizable from that of the mid 1960s to the mid 1980s arguably the most productive period in the Centre's history. **Cultural Studies 50 Years On** explores how the political social and cultural contexts of the early 21st century influenced the object and method of doing cultural studies. In bringing together a historical reassessment of the Centre with present day questions regarding the future of the field the aim is not to reduce cultural studies to the work of a single now defunct institution. Instead it aims to utilize what is a critical moment in the trajectory of the field in order to take stock of where it has come from and to explore where it might be going. *Cultural Studies and Anti-Consumerism* Sam Binkley, Jo Littler, 2014-02-25 Anti consumerism has become a conspicuous part of contemporary activism and popular culture from culture jams and actions against Esso and Starbucks through the downshifting and voluntary simplicity movements the rise of ethical consumption and organic and the high profile of films and books like *Supersize Me* and *No Logo*. A rising awareness of labor conditions in overseas plants the environmental impact of intensified consumer lifestyles and the effects of neo liberal privatization have all stimulated such popular cultural opposition. However the subject of anti consumerism has received relatively little theoretical attention particularly from cultural studies which is surprising given the discipline's historical investments in extending radical politics and exploring the complexities of consumer desire. This book considers

how the expanding resources of contemporary cultural theory might be drawn upon to understand anti consumerist identifications and practices how railing against the social and cultural effects of consumerism has a complex past as well as present and it pays attention to the interplays between the different movements of anti consumerism and the particular modes of consumer culture in which they exist In addition as well as using cultural studies to analyse anti consumerism it also asks how such anti consumerist practices and discourse challenges some of the presumptions and positions currently held in cultural studies This book was previously published as a special issue of Cultural Studies Cultural Studies Review Chris Healy and Stephen Muecke (eds),2008-03-01 Thinking and writing about the past challenging what history might be and how it could appear is an ongoing interest of this journal and an ongoing sometimes contentious point of connection between cultural studies and history The shifts in how we research and write the past is no simple story of accepted breakthroughs that have become the new norms nor is it a story where it is easy to identify what the effects of cultural studies thinking on the discipline of history has been History has provided its own challenges to its own practices in a very robust way while the cultural studies has challenged what the past is and how it might be rendered from a wide ranging set of ideas and modes of representation that have less to do with specific disciplinary arguments than responses to particular modes textual filmic sonic particular sites nations Indigenous temporalities sexuality literature gender and perhaps a greater willingness to accentuate the political in the historical

Why Cultural Studies? Gilbert B. Rodman,2014-08-14 Why Cultural Studies is a rallying call for a reinvigoration of the project of cultural studies that provides a critical analysis of its meteoric rise to the academic fore and makes a convincing argument for the pressing need for a renewed investment in and re evaluation of its core ideals Rodman argues that there are valuable lessons we can learn from cultural studies past that have the potential to lead cultural studies to an invigorated and viable future Makes the claim that cultural studies isn t and shouldn t be solely an academic subject but open to both academics and non academics alike Asserts that now more than ever cultural studies has a productive role to play in promoting social justice and building a better world Written by one of the leading figures in the area of cultural studies and the current Chair of the Association for Cultural Studies **Richard Hoggart and Cultural Studies** S. Owen,2008-10-14 In this new collection of essays a range of established and emerging cultural critics re evaluate Richard Hoggart s contribution to the history of ideas and to the discipline of Cultural Studies They examine Hoggart s legacy identifying his widespread influence tracing continuities and complexities and affirming his importance *Discourse : Event : Practice* Franka Schäfer,2025-10-14 With Discourse Event Practice the author presents a dynamic theoretical program for a discourse theoretically informed sociology of practice oriented toward the concept of the event She outlines the sociological relationship between the concepts of discourse event and practice diagnoses their distorted relationship and explains the dynamization of dichotomous conceptions as the guiding principle of her argumentation Through a reconstruction of the discourse theoretical foundations the practical theoretical conditions the

situation of the method discussion and the starting point of sociological protest research she forms the basis of the research program and marks the question of the association of discourses and practices as a gap which is elucidated using the example of protest research The core of the book is a nuanced examination of the concept of event developed from the influence of Foucault as a primary basis for transformation and translated into a concept of event that ensures a relationship between discourse and practice that overcomes dichotomies within a post structuralist materialism In addition the potential of the program lies in the expansion of practice studies to include an explicit perspective on power and domination illustrated through an analysis of the practices of resistance as exemplified by the Yippie Festival of Life

One Market Under God

Thomas Frank, 2010-02-10 In a book that has been raising hackles far and wide the social critic Thomas Frank skewers one of the most sacred cows of the go go 90s the idea that the new free market economy is good for everyone Frank's target is market populism the widely held belief that markets are a more democratic form of organization than democratically elected governments Refuting the idea that billionaire CEOs are looking out for the interests of the little guy he argues that the great euphoria of the late nineties was never as much about the return of good times as it was the giddy triumph of one America over another Frank is a latter day Mencklen as readers of his journal The Baffler and his book The Conquest of Cool know With incisive analysis passionate advocacy and razor sharp wit he asks where we are headed and whether we're going to like it when we get there
