Handbook of Development Economics Hollis Burnley Chenery, J. Behrman, T.N. Srinivasan, 1988 Handbooks of development economics edit Chenery v 1

The Common Agricultural Policy of the European Community International Monetary Fund, 1988-11-25 This chapter discusses principles and consequences of the common agricultural policy CAP of the European Community EC It shows that agricultural pricing policies aimed at supporting farm incomes were already in place in EC member countries before the inception of the CAP indeed in the presence of these policies the CAP was a logical consequence of the extension of the common market to the agricultural sector Thus the flaws of the CAP can be traced back to national policies and attitudes toward agriculture Recognition of the burden of agricultural support on the rest of the economy as well as the growing budgetary costs has elicited a greater public interest in the CAP Equally the trade frictions caused by export subsidies have underlined the CAP's international implications For these reasons the member states appear more determined than hitherto to bring agricultural expenditure under control Given the wider effects of the CAP both on EC economies and the international community it is to be hoped that current efforts at reform will be successful

Uneasy Compromise Henry J. Aaron, Harvey Galper, Joseph A. Pechman, 2010-12-01 Whether the nation would be better served by an income tax or by a consumption tax has been debated by tax experts for decades In practice tax systems everywhere are mixed or hybrid systems And while legislators have reasons for enacting such systems the mix results in inequities inefficiencies and abuse For Uneasy Compromise Brookings brought together some of the nation's most knowledgeable tax experts and analysts to address the question How should lawmakers grapple with the problems that arise from the side by side existence of principles of consumption taxation with principles of income taxation Rather than propose rules for an ideal system that will never exist this book addresses the problems created by a hybrid system In so doing it offers policymakers a comprehensive
