The Constructed Other: Japanese Architecture in the Western Mind Kevin Nute, 2021-09-30 The Constructed Other argues that the assumed otherness of Japanese architecture has made it both a testbed for Western architectural theories and a source of inspiration for Western designers The book traces three recurring themes in Western accounts of Japanese architecture from the reopening of Japan in the mid nineteenth century to the present day a wish to see Western architectural theories reflected in Japanese buildings efforts to integrate elements of Japanese architecture into Western buildings and a desire to connect contemporary Japanese architecture with Japanese tradition It is suggested that together these narratives have had the effect of creating what amounts to a mythical version of Japanese architecture often at odds with historical fact but which has exercised a powerful influence on the development of building design internationally

Kenzo Tange and the Metabolist Movement Zhongjie Lin, 2010-02-25 Metabolism the Japanese architectural avant garde movement of the 1960s profoundly influenced contemporary architecture and urbanism This book focuses on the

Metabolists utopian concept of the city and investigates the design and political implications of their visionary planning in the postwar society At the root of the group s urban utopias was a particular biotechnical notion of the city as an organic process It stood in opposition to the Modernist view of city design and led to such radical design concepts as marine civilization and artificial terrains which embodied the metabolists ideals of social change Tracing the evolution of Metabolism from its inception at the 1960 World Design Conference to its spectacular swansong at the Osaka World Exposition in 1970 this book situates Metabolism in the context of Japan s mass urban reconstruction economic miracle and socio political reorientation This new study will interest architectural and urban historians architects and all those interested in avant garde design and Japanese architecture
