New Directions In Psychological Anthropology:

New Directions in Psychological Anthropology Theodore Schwartz, Geoffrey M. White, Catherine A. Lutz, 1992 The field of psychological anthropology has changed a great deal since the 1940s and 1950s when it was often known as Culture and Personality Studies Rooted in psychoanalytic psychology its early practitioners sought to extend that psychology through the study of cross cultural variation in personality and child rearing practices Psychological anthropology has since developed in a number of new directions Tensions between individual experience and collective meanings remain as central to the field as they were fifty years ago but alongside fresh versions of the psychoanalytic approach other approaches to the study of cognition emotion the body and the very nature of subjectivity have been introduced And in the place of an earlier tendency to treat a culture as an undifferentiated whole psychological anthropology now recognizes the complex internal structure of cultures The contributors to this state of the art collection are all leading figures in contemporary psychological anthropology and they write about recent developments in the field Sections of the book discuss cognition developmental psychology biology psychiatry and psychoanalysis areas that have always been integral to psychological anthropology but which are now being transformed by new perspectives on the body meaning agency and communicative practice

Self and Identity

Richard D. Ashmore, Lee Jussim, 1997-05-15 Self and identity have been important yet volatile notions in psychology since its formative years as a scientific discipline Recently psychologists and other social scientists have begun to develop and refine the conceptual and empirical tools for studying the complex nature of self This volume presents a critical analysis of fundamental issues in the scientific study of self and identity These chapters go much farther than merely taking stock of recent scientific progress World class social scientists from psychology sociology and anthropology present new and contrasting perspectives on these

fundamental issues Topics include the personal versus social nature of self and identity multiplicity of selves versus unity of identity and the societal cultural and historical formation and expression of selves These creative contributions provide new insights into the major issues involved in understanding self and identity As the first volume in the Rutgers Series on Self and Social Identity the book sets the stage for a productive second century of scientific analysis and heightened understanding of self and identity Scholars and advanced students in the social sciences will find this highly informative and provocative reading Dr Richard D Ashmore is a professor and Dr Lee Jussim is an associate professor in the Department of Psychology at Rutgers University New Brunswick New Jersey

Suicide as a Dramatic Performance David Lester, Steven Stack, 2015-09-30 Each suicide is as unique as the individuals involved especially if one examines the nature of the act and to what extent these acts can be viewed as a theatrical performance Focusing on the dramatic aspects of suicide may seem

tangential to the physical and mental pain experienced by those who try to kill themselves but dramatic aspects often provide important clues for understanding the mental state of suicidal individuals David Lester and Steven Stack investigate what happens in the weeks days and hours before a suicide when the suicidal individual must make decisions and formulate the script for his or her suicidal act The editors argue that these choices may help us understand and prevent other suicides and stimulate new and innovative research in this important area Through twenty five substantive chapters including both quantitative and qualitative analyses this book offers insights into suicide as a dramatic act with chapters on the intended audience the suicide note the location and method chosen and cultural scripts including suicide by cop sati seppuku and duels The contributors to this volume argue that psychological social and cultural factors influence these choices and that the decisions made by the individual are important for understanding the mental state of the person choosing to die by suicide

A Cognitive Theory of Cultural Meaning Claudia Strauss, Naomi Quinn, 1997 Culture and meaning are central to anthropology but anthropologists do not agree on what they are Claudia Strauss and Naomi Quinn propose a new theory of cultural meaning one that gives priority to the way people's experiences are internalized Drawing on connectionist or neural network models as well as other psychological theories they argue that cultural meanings are not fixed or limited to static groups but neither are they constantly revised and contested Their approach is illustrated by original research on understandings of marriage and ideas of success in the United States

Women's Bodies, Women's Worries Tine Gammeltoft, 2012-12-06 The first fully fledged ethnography on health related issues to come out of contemporary Vietnam Women's Bodies Women's Worries is a study of women's lives in a rural commune in Vietnam's Red River delta Starting as an examination of the impact of Vietnam's ambitious family planning policy on the health and lives of rural women the study explores historical and contemporary socio cultural forces which influence the lives of Vietnamese women What begins as an investigation of contraceptive side effects becomes an inquiry into the daily lives of rural women an examination of the moral ideologies by which women's lives are circumscribed and an exploration of the ways women themselves manage and negotiate the moral demands and social relations which constitute daily lives In addition the book provides a sympathetic account of the everyday lives and concerns of rural women while also including theoretical considerations of the social grounding of bodily experience the cultural meanings of health and illness and the everyday politics of emotional expression

Listening To Culture Nandita Chaudhary, 2004-05-24 Listening to Culture presents everyday cultural activity in Indian family and community life in order to demonstrate why and how such activity must be encompassed in the study of individuals and collectives The author explores the rich world of everyday talk in families with children between friends at the work place and shows the significance of this domain of social activity for an understanding of culture
