 Thomas Pinney, 2007-09-17 The Vikings called North America Vinland the land of wine Giovanni de Verrazzano the Italian
 explorer who first described the grapes of the New World was sure that they would yield excellent wines And when the
 English settlers found grapes growing so thickly that they covered the ground down to the very seashore they concluded that
 in all the world the like abundance is not to be found Thus from the very beginning the promise of America was in part the
 alluring promise of wine How that promise was repeatedly baffled how its realization was gradually begun and how at last it
 has been triumphantly fulfilled is the story told in this book It is a story that touches on nearly every section of the United
 States and includes the whole range of American society from the founders to the latest immigrants Germans in Pennsylvania
 Swiss in Georgia Minorcans in Florida Italians in Arkansas French in Kansas Chinese in California all contributed to the
 domestication of Bacchus in the New World So too did innumerable individuals institutions and organizations Prominent
 politicians obscure farmers eager amateurs sober scientists these and all the other kinds and conditions of American men
 and women figure in the story The history of wine in America is in many ways the history of American origins and of
 American enterprise in microcosm While much of that history has been lost to sight especially after Prohibition the recovery
 of the record has been the goal of many investigators over the years and the results are here brought together for the first
 time In print in its entirety for the first time A History of Wine in America is the most comprehensive account of winemaking
 in the United States from the Norse discovery of native grapes in 1001 A D through Prohibition and up to the present
 expansion of winemaking in every state **The Curious World of Wine** Richard Vine, 2012 Presents facts and trivia about
