New Essays Concerning Human Understanding:

Leibniz: New Essays on Human Understanding Gottfried Wilhelm Freiherr von Leibniz, 1996-11-07 In the New Essays on Human Understanding Leibniz argues chapter by chapter with John Locke's Essay Concerning Human Understanding challenging his views about knowledge personal identity God morality mind and matter nature versus nurture logic and language and a host of other topics The work is a series of sharp deep discussions by one great philosopher of the work of another Leibniz's references to his contemporaries and his discussions of the ideas and institutions of the age make this a fascinating and valuable document in the history of ideas The work was originally written in French and the version by Peter Remnant and Jonathan Bennett based on the only reliable French edition published in 1962 first appeared in 1981 and has become the standard English translation It has been thoroughly revised for this series and provided with a new and longer introduction a chronology on Leibniz's life and career and a guide to further reading Leibniz's New Essays Concerning The Human Understanding John Dewey, 2023-06-14 HE who knows me only by my writings does not know me said Leibniz These words true indeed of every writer but true of Leibniz in a way which gives a peculiar interest and charm to his life must be our excuse for prefacing what is to be said of his New Essays concerning the Human Understanding with a brief biographical sketch Gottfried Wilhelm Leibniz was born in Leipzig June 21 1646 His father who died when Leibniz was only six years old was a professor in the university and a notary of considerable practice From him the future philosopher seems to have derived his extraordinary industry and love of detail Such accounts as we have of him show no traces of the wonderful intellectual genius of his son but only a diligent plodding faithful and religious man a thoroughly conscientious husband jurist and professor Nor in the lines of physical heredity can we account for the unique career of Leibniz by his mother's endowments The fact however that she was patient in all trial living in peace with her neighbors anxious for unity and concord with all people even with those not well disposed to her throws great light upon the fundamental trait of Leibniz's ethical nature New Essays Concerning Human Understanding Gottfried Wilhelm Freiherr von Leibniz, 1896

Leibniz's New Essays John Dewey, 2015-11-26 He who knows me only by my writings does not know me said Leibniz These words true indeed of every writer but true of Leibniz in a way which gives a peculiar interest and charm to his life must be our excuse for prefacing what is to be said of his New Essays concerning the Human Understanding with a brief biographical sketch Gottfried Wilhelm Leibniz was born in Leipzig June 21 1646 His father who died when Leibniz was only six years old was a professor in the university and a notary of considerable practice From him the future philosopher seems to have derived his extraordinary industry and love of detail Such accounts as we have of him show no traces of the wonderful intellectual genius of his son but only a diligent plodding faithful and religious man a thoroughly conscientious husband jurist and professor Nor in the lines of physical heredity can we account for the unique career of Leibniz by his mother's endowments The fact however that she was patient in all trial living in peace with her neighbors anxious for unity

and concord with all people even with those not well disposed to her throws great light upon the fundamental trait of Leibniz's ethical nature As in so many cases it is the inherited moral characteristics which form the basis of the intellectual nature The love of unity which was a moral trait in Leibniz's mother became in him the hunger for a harmonious and unified mental world the father's devotion to detail showed itself as the desire for knowledge as minute and comprehensive as it was inter related
