Acrobatic Modernism from the Avant-Garde to Prehistory Jed Rasula, 2020-02-27 This is a book about artistic modernism contending with the historical transfigurations of modernity As a conscientious engagement with modernity's restructuring of the lifeworld the modernist avant garde raised the stakes of this engagement to programmatic explicitness But even beyond the vanguard the global phenomenon of jazz combined somatic assault with sensory tutelage Jazz like the new technologies of modernity re calibrated sensory ratios The criterion of the new as self making also extended to names pseudonyms and heteronyms The protocols of modernism solicited a pragmatic arousal of bodily sensation as artistic resource validating an acrobatic sensibility ranging from slapstick and laughter to the pathos of bereavement Expressivity trumped representation The artwork was a diagram of perception not a mimetic rendering For artists the historical pressures of altered perception provoked new models and Ezra Pound's slogan Make It New became the generic rallying cry of renovation The paradigmatic stance of the avant garde was established by Futurism but the discovery of prehistoric art added another provocation to artists Paleolithic caves validated the spirit of all over composition unframed and dynamic Geometric abstraction Constructivism and Purism and Surrealism were all in quest of a new mythology Making it new yielded a new pathos in the sensation of radical discrepancy between futurist striving and remotest antiquity The Paleolithic cave and the USSR emitted comparable siren calls on behalf of the remote past and the desired future As such the present was suffused with the pathos of being neither but subject to both

Visualizing Haiti in U.S. Culture, 1910-1950 Lindsay J Twa, 2014-05-28 From the 1910s until the 1950s the Caribbean nation of Haiti drew the attention of many U S literary and artistic luminaries yet while significant studies have been published on Haiti's history none analyze visual representations with any depth This book argues that choosing Haiti as subject matter was a highly charged decision by American artists to use their artwork to engage racial social and political issues Twa scrutinizes photographs illustrations paintings and theatre as well as textual and archival sources

The Fourth Dimension and Non-Euclidean Geometry in Modern Art, revised edition Linda Dalrymple Henderson, 2018-05-18 The long awaited new edition of a groundbreaking work on the impact of alternative concepts of space on modern art In this groundbreaking study first published in 1983 and unavailable for over a decade Linda Dalrymple Henderson demonstrates that two concepts of space beyond immediate perception the curved spaces of non Euclidean geometry and most important a higher fourth dimension of space were central to the development of modern art The possibility of a spatial fourth dimension suggested that our world might be merely a shadow or section of a higher dimensional existence That iconoclastic idea encouraged radical innovation by a variety of early twentieth century artists ranging from French Cubists Italian Futurists and Marcel Duchamp to Max Weber Kazimir Malevich and the artists of De Stijl and Surrealism In an extensive new Reintroduction Henderson surveys the impact of interest in higher dimensions of space in art and culture from the 1950s to 2000 Although largely eclipsed by relativity theory beginning in the 1920s the

spatial fourth dimension experienced a resurgence during the later 1950s and 1960s. In a remarkable turn of events it has returned as an important theme in contemporary culture in the wake of the emergence in the 1980s of both string theory in physics with its ten or eleven dimensional universes and computer graphics. Henderson demonstrates the importance of this new conception of space for figures ranging from Buckminster Fuller, Robert Rauschenberg and the Park Place Gallery group in the 1960s to Tony Robbin and digital architect Marcos Novak.

Moscow Vanguard Art Margarita Tupitsyn, 2017-01-01. A comprehensive survey of art in Moscow in the era of the Soviet Union that champions the unquenchable spirit of artistic experimentation in the face of political repression. Ambitious and interdisciplinary. *Moscow Vanguard Art 1922-1992* tells the story of generations of artists who resisted Soviet dictates on aesthetics spanning the Russian avant garde, socialist realism and Soviet postwar art in one volume. Drawing on art history, criticism and political theory, Margarita Tupitsyn unites these three epochs, mapping their differences and commonalities, ultimately reconnecting the postwar vanguard with the historical avant garde. With a focus on Moscow artists, the book chronicles how this milieu achieved institutional and financial independence and reflects on the theoretical and visual models it generated in various media, including painting, photography, conceptual performance and installation art. Generously illustrated, this ground-breaking volume, published in the year that marks the centennial of the October Revolution, demonstrates that regardless of political repression, the spirit of artistic experiment never ceased to exist in the Soviet Union.

"Visualizing Haiti in U.S. Culture, 1910-1950" Lindsay J. Twa, 2017-07-05. From the late 1910s through the 1950s, particularly the Caribbean nation of Haiti, drew the attention and imaginations of many key U.S. artists, yet curiously, while significant studies have been published on Haiti's history and inter-American exchanges, none analyze visual representations with any depth. The author calls not only on the methodologies of art history but also on the interdisciplinary eye of visual culture studies, anthropology, literary theory and tourism studies to examine the fine arts in relation to popular arts, media, social beliefs and institutional structures. Twa emphasizes close visual readings of photographs, illustrations, paintings and theatre. Extensive textual and archival research also supports her visual analysis, such as scrutinizing the personal papers of this study's artists, writers and intellectuals. Among the literary and artistic luminaries of the twentieth century that Twa includes in her discussion are Richmond Barthé, Eldzier Cortor, Aaron Douglas, Katherine Dunham, Langston Hughes, Zora Neale Hurston, Alexander King, Jacob Lawrence, James Weldon Johnson, Lorraine Hansberry, Mailou Jones, Eugene O'Neill and William Edouard Scott. Twa argues that their choice of Haiti as subject matter was a highly charged decision by these American artists to use their artwork to engage racial, social and political issues.

Explorations in Music and Esotericism, Marjorie Roth, Leonard George, 2023. Scholars explore from many fresh angles the interweavings of two of the richest strands of human culture: music and esotericism, with examples from the medieval period to the modern age. Music and esotericism are two responses to the intuition that the world holds hidden order, beauty and power. Those who compose

perform and listen to music have often noted that music can be a bridge between sensory and transcendent realms Such renowned writers as Boethius expanded the definition of music to encompass not only sounded music but also the harmonic fabric of human and cosmic life Those who engage in pursuits called esoteric from ancient astrology magic and alchemy to recent and more novel forms of spirituality have also remarked on the relevance of music to their quests Esotericists have composed music in order to convey esoteric meaning performed music to create esoteric influences and listened to music to raise their esoteric awareness The academic study of esotericism is a young field and few researchers have probed the rich interface between the musical and esoteric domains In *Explorations in Music and Esotericism* scholars from numerous fields introduce the history of esotericism and current debates about its definition and extent The book's sixteen chapters present rich instances of connections between music and esotericism organized with reference to four aspects of esotericism as a form of thought as the keeping and revealing of secrets as an identity and as a signifier Edited by Marjorie Roth and Leonard George Contributors Elizabeth Abbate Malachai Komanoff Bandy Adam Bregman Charles E Brewer Benjamin Dobbs Anna Gawboy Pasquale Giaquinto Adam Knight Gilbert Joscelyn Godwin Virginia Christy Lamothe Andrew Owen Christopher Scheer Codee Ann Spinner Woodrow Steinken and Daphne Tan Catalogue of Title-entries of Books and Other Articles Entered in the Office of the Librarian of Congress, at Washington, Under the Copyright Law ... Malevich Charlotte Douglas,Christina Lodder,2007-12-31 The Russian artist Kazimir Malevich was one of the great figures of twentieth century art and a pioneer of abstraction whose painting *The Black Square* of 1915 has become an icon of modernism Yet he is a creative figure about whom much still remains to be elucidated Soviet scholarship ignored him for decades and Western scholars were inevitably only able to work with the limited visual and documentary material that was available to them It was only after the fall of Communism in 1991 that access to such material became easier This book represents the fruits of the research that has been conducted since then by a range of Russian and Western scholars who have been able to shed vital new light on the artist's life his training his art his career his relationships with other artists and movements and his theories Malevich Gilles Néret,2003 Kazimir Malevich 1878 1935 was Russia's foremost pioneer of geometric abstract art This work gives a brief introduction to the life and work of this prolific painter designer and writer
