

MEDIA CULTURE

In cultural studies, the term "media culture" refers to the culture that resulted from American corporate consumer ideology and mass media (Thomas, 2012, p. 30).

EXPLANATION

Media culture refers to the immense impact of the media on public opinions, tastes, and values.

Media culture plays a significant role in shaping culture more broadly. In capitalist countries, media culture tends to position people as consumers who use their purchasing power to construct an individual identity.

EXAMPLES OF IMPACTS

Beauty Norms

Mass media tends to normalize certain standards of beauty. This can lead to body image concerns for consumers.

Gender Norms

Ideas about gender identity are reproduced through media, and historically, this has been highly heteronormative.

The Historical Literature of the Jack Cade Rebellion Alexander L. Kaufman, 2016-03-16 Accounts of Jack Cade's 1450 Rebellion an uprising of some 30 000 middle class citizens protesting Henry VI's policies and resulting in hundreds of deaths as well as the leader's execution form the dominant entry in a group of quasi historical documents referred to as the London chronicles of the Fifteenth Century However each chronicle is inherently different and highly subjective In the first study of the primary documents related to the Cade Rebellion Alexander L Kaufman shows that the chroniclers produced multiple representations of the event rather than a single unified narrative Aided by contemporary theories of historiography and historical representation Kaufman scrutinizes the differing representations and distinguishes the writers' objectiveness their underrated literary skills and their ideological positions on the rebellion and fifteenth century politics He demonstrates how the use of figurative language is related to writing about trauma and how descriptions of Cade's procession through London are a violent parody of midsummer festivals In an exploration of authenticity in the descriptions of Cade Kaufman also examines the characterization and plot devices that push Cade towards the realm of myth showing that representations of Cade are influenced by popular fifteenth century stories of Robin Hood

With the ever growing proliferation of electronic and other popular media the complexity of relationship between what students see and hear what they believe and how they interact with one another underscores now more than ever the need for across the curriculum teaching of critical thinking critical reading and critical viewing skills The emerging consensus is that teaching critical viewing skills bolsters students' abilities in traditional disciplines combats problems of youth apathy violence and substance abuse and improves students' parents and teachers' attitudes toward school Intermediality Teachers Handbook of Critical Media Literacy challenges the practice of teaching the classics and the canon of acceptable literary works far removed from students' experiences with emphasis on learning environment over the presentation of any specific or specified content The authors Ladislaus Semali and Ann Watts Pailliotet present literacy education as intermedial in nature it entails

constructing connections among varying conceptions and sign systems Reading printed texts requires more than simply decoding letters into words or sounds it involves finding meaning motive structure and affect The same goes for reading the electronic text The authors argue for the discourse of literacy to take up a critical stance by examining a whole wide array of texts that form the meaning making process of the looming information age Intermediality examines extends and synthesizes the existing literary definitions texts theories processes research and contexts It brings into focus the possibilities of working with media texts to address questions adapted from linguists and literary educators Thus in this book critical media literacy becomes a competency to read interpret and understand how meaning is made and derived from print photographs and other electronic and graphic visuals
