military but the geopolitics of wars waged by liberal states Linking the politics of daily life to the international is an intervention into international relations IR and security studies because instead of overlooking the politics of the everyday this book insists that it is vital to explore how geopolitical events and practices are co constituted reinforced and contested by it By utilising insights from Michel Foucault the book explores how shared and collectively mediated knowledge on gender race and sexuality facilitates certain claims about the nature of governing in liberal states and about why and how such states wage war against illiberal ones in pursuit of global peace and security The book also develops post structural work in international relations by urging scholars interested in the linguistic construction of geopolitics to consider the ways in which bodies objects and architectures also reinforce particular ideas about war identity and statehood Researching the Military Helena Carreiras,Celso Castro,Sabina Frederic,2016-03-02 Researching the Military focuses on the experiences of researchers who study the military around the world It explores the historical social institutional and personal factors that frame research and scrutinize the way knowledge in this area impacts society and policy More than merely analyzing research experiences yet necessarily including them it is also about the experiences of researchers their position with regard to the object of their studies the institutional context where they work and the way their research impacts the academic and policy making fields in the respective countries The common theme to the various chapters is reflexivity a conscious effort at addressing the conditions of research and the position of the researcher and the research participants in that interface By collecting diverse experiences of researchers from across the world this volume aims to enhance reflexivity in the field of military studies and to encourage the exchange of knowledge between the academic field and the military arena This book will be of much interest to students of military studies research methods sociology social anthropology and security studies in general **A Companion to State Power, Liberties and Rights** Morley, Sharon,Turner, Jo,Karen Corteen,Paul Taylor,2017-02-15 This handbook sets out defines and analyzes the essential vocabulary and terminology involved in the study of state power individual liberties and rights As part of the Companions series it is organized alphabetically taking up and defining key topics in these areas particularly as they relate to the study of crime and harm Topics addressed include state and corporate crime terrorism security risk legislation and policy human rights and civil liberties policing punishments and detention surveillance and regulation and many others Accessible yet challenging the book will be useful for both undergraduates and graduate students working in criminology criminal justice international relations political science and other fields *The Comic Art of War* Christina M. Dyvik, Lauren Greenwood, 2018-02-02 How are militarism and militarisation embodied and why is it important to study these concepts together This volume highlights a lack of research into people s emotions bodies and experiences in global politics and brings these important dimensions to bear on how we study militarism and process of militarisation This collection showcases innovative research that examines people s everyday lived experience and the multiple ways militarism is enshrined in our societies Emphasising the benefits of interdisciplinary thinking its chapters interrogate a range of methodological ethical and theoretical questions related to embodiment and militarism from a range of empirical contexts Authors from a variety of disciplinary backgrounds reveal the myriad of ways in which militarism is experienced by gendered raced aged and sexed bodies The volume covers a wide range of topics including the impact of social media gender queer and feminist research on the military the challenges of writing about embodied experience and the commercialisation of military fitness in civilian life This book fills a gap in the study of militarism and militarisation and will be of interest to students and scholars of critical military studies security studies and war studies It was originally published as a special issue of the journal Critical Military Studies *ECIW2009- 8th European Conference on Information Warfare and Security*

Henrique Santos, 2009 **Mission Uruzgan** Robert Beeres, Jan van der Meulen, Joseph Soeters, Ad Vogelaar, 2012 I en r kke afhandling beskriver den hollandske ISAF styrkes indsats i Afghanistan fra 2001 2010 I en fire rig periode fra 2006 2010 var det hollandske kontingent indsat i den afghanske provins Uruzgan og opn ede bem rkelsesv rdige resultater Sikkerhedssituationen blev forbedret den konomiske udvikling blev stabiliseret ligesom den offentlige administration uddannelsen af b rn og sundhedsplejen m v blev forbedret Efter 2010 er provinsen overtaget af amerikanske og australske tropper Parameters , 2005 *Families Under Stress* Benjamin R. Karney, John S. Crown, 2007 Recent demands on the military have raised concerns about the impact of extended deployments on military marriages To evaluate this impact the authors draw on marital status data in service personnel records to estimate trends in marriage and marital dissolution between 1996 and 2005 and the specific effects of time deployed to Afghanistan and Iraq on subsequent risk of ending a marriage The results generally run counter to expectations Although rates of marital dissolution have increased since 2001 for most services and components they had declined in the five years prior to 2001 As a result marital dissolution rates across the services and components are currently similar to those observed in 1996 when the demands on the military were measurably lower In most cases service members who were deployed had a lower risk of subsequently ending their marriages than service members who did not deploy or deployed fewer days Social Media and the Armed Forces Eva Moehleck de Baseggio, Olivia Schneider, Tibor Szvircsev Tresch, 2020-09-07 Social media has fundamentally changed communication and interaction in today s society Apart from being used by individuals it is also omnipresent in public sector

organisations such as the armed forces This book examines the opportunities and risks associated with social media in the context of the armed forces from an international social scientific perspective It discusses the impact of social media in the everyday life of military personnel and analyses the extent to which social media influences their performance be it as a distraction or as a source of perceived appreciation It particularly highlights the representation of masculinity and femininity in military social media channels since the way gender is portrayed on social media has an effect on how future recruits and at the other end of the military career spectrum veterans feel they are approached The book also focuses on the new form of follow up discussion which enables the armed forces to interact with the population On social media the armed forces are publicly presented and this shapes the public s opinions on them Further the armed forces can use debates as a monitoring tool of society s attitudes towards them or towards events that have an effect on society Conversely social media can lend a voice to military personnel allowing them to be publicly heard As discussions on social media can only be controlled to a limited extent the context in which the armed forces are discussed alters their sphere of influence and potentially leads to a loss of control An extreme example of this is the use of social media as a tool to strategically distribute misinformation in order to shape public opinion and threaten national security Moreover the use of social media to demoralise adversaries or to harm their credibility results in social media being considered a cyber weapon that affects politics and military activities

Peace Operations and Restorative Justice Peter Reddy, 2016-05-13 With a bold vision and a distinctive message Reddy stipulates that international peacekeeping can be designed and implemented using the principles of restorative justice To prove this Reddy discusses the congruence of crime armed conflict and violent disorder critiquing restorative justice and its nuanced character as a suitable application to complex civil wars This book provides a comprehensive survey of peace operations and then focuses on the cases of Somalia and Bougainville The comparison between their societal contexts their conflicts peace operations and final outcomes are crucial to this argument Furthermore

this shows how the constraining maximising and emergent values of restorative justice can be applied in a peacekeeping setting from the overall command level through to the behaviours of deployed peacekeepers with direct contemporary application This sharp study makes for evocative reading as it introduces the new concept of regeneration as key to any restoratively arranged peace operation Military police NGO and civilian peacekeeper practitioners as well as academic theorists can use this unique work to produce better and more lasting results for conflict ridden communities

Miseducating Americans Richard F. Hamilton,2015-01-31 In Miseducating Americans Richard F Hamilton examines accounts of American history appearing in textbooks and popular accounts and compares these with the reports contained in scholarly monographs The task to determine how certain myths and misconstructions became accepted as recorded history Hamilton provides much needed correction of those misleading accounts Was America historically the land of the free Not if you take into account slavery discrimination and post Civil War segregation policies Was America in the late nineteenth century truly expansionist as American textbooks imply or did it actually capitalize on unexpected political and economic opportunities like Russia s desire to rid itself of Alaska Was the acquisition of the Philippines a zealous profit seeking effort aiming for the China market or the fortuitous consequences of a move against Spain during the Spanish American War Miseducating Americans debunks many commonly accepted explanations of historical facts It contends that many accounts are oversimplifications and some are one sided depictions of virtue Hamilton traces the sources of these misconstructions which mostly come from history textbooks written by authors aiming for popular audiences He then offers explanations as to how and why the inaccuracies have been repeated and passed on

Organizational Reaction to Social Deviance Robert Joseph Stevenson,2010 This study in criminology sociology and the US Military explores changes in the meaning and production of deviant populations in American military settings since 1941 It is designed to highlight the operation of an ethos of control as armed forces and society undergo historically unstable accommodation and conflict The author examines time series data on organizational reaction to deviance in military settings Bad Paper Discharges courts martial and administrative controls in light of central characteristics of military settings the social composition of officer and enlisted ranks force levels technological changes in war hardware and the distribution of risks faced by various kinds of soldiers Propositions from the deviance literature concerning 1 the constancy of punishment 2 the duration intensity and priority of sanctioning and 3 cohesion and stress are examined in military contexts to discern the changing social control climates therein Some sources of the shift are located in the role that risk plays in the system and the function of the officer corps as agents of social control In short the character of social institutions is knowable in part by studying the manner in which deviants therein are controlled stigmatized and expelled An extensive bibliography is provided
