

THE NEW DYNAMICS OF AGEING

Volume 2

Edited by Alan Walker

New Dynamics Of Congreb

David Grondin

New Dynamics Of Congreb:

Hegemony or Empire? David Grondin, 2016-04-29 American power has been subjected to extensive analysis since September 11 2001 While there is no consensus on the state of US hegemony or even on the precise meaning of the term it is clear that under George W Bush the US has not only remained the lone superpower but has increased its global military supremacy At the same time the US has become more dependent on its economic financial and geopolitical relationships with the rest of the world than at any other time in its history markedly since the events of 9 11 The distinguished scholars in this volume critically interpret US hegemony from a range of theoretical and topical perspectives They discuss the idea of empire in the age of globalization critique the Bush doctrine analyze the ideologies underpinning a new American imperialism and examine the influence of neo conservatism on US foreign and domestic policy *Congressional Record* United States. Congress, 1996 Cultivating Congress William Paul Browne, 1995 The American Congress in the mid 1990s remains the object of voter discontent Public outcries against special interests and unresponsive incumbents have amplified an already pervasive scepticism towards Beltway politics The book covers policy towards agricultural issues in particular Emerging Trends in Indian Politics Ajay K Mehra, 2013-04-03 This study presents 13 articles interrogating themes likely to impinge on India's 15th general elections in 2009 These were written following intense discussion between the contributors and use available data as well as original data and analysis The significance of the analyses goes beyond how much these questions find place in the campaign or how much they would impact the electoral results These have and would continue to be essential themes in Indian politics for some time They would influence the country's politics its leaders parties and institutions and would be interrogated in political policy and social science circles in the foreseeable future They would in turn be impacted redefined and perhaps transformed by political dynamics and social pressure The first attempt of its kind to analyse the impact of certain emerging trends in politics on upcoming elections anywhere in the world this book will be a useful addition to election studies and policy making in general Committees and the Decline of Lawmaking in Congress Jonathan Lewallen, 2020-08-14 The public journalists and legislators themselves have often lamented a decline in congressional lawmaking in recent years often blaming party politics for the lack of legislative output In *Committees and the Decline of Lawmaking in Congress* Jonathan Lewallen examines the decline in lawmaking from a new committee centered perspective Lewallen tests his theory against other explanations such as partisanship and an increased demand for oversight with multiple empirical tests and traces shifts in policy activity by policy area using the Policy Agendas Project coding scheme He finds that because party leaders have more control over the legislative agenda committees have spent more of their time conducting oversight instead Partisanship alone does not explain this trend changes in institutional rules and practices that empowered party leaders have created more uncertainty for committees and contributed to a shift in their policy activities The shift toward oversight at the committee level combined with party leader control over the voting agenda

means that many members of Congress are effectively cut out of many of the institution's policy decisions. At a time when many including Congress itself are considering changes to modernize the institution and keep up with a stronger executive branch the findings here suggest that strengthening Congress will require more than running different candidates or providing additional resources

Current Catalog National Library of Medicine (U.S.), 1979 First multi year cumulation covers six years 1965-70

Congress and U.S. Foreign Policy Ralph G. Carter,, James M. Scott, 2021-06-03 In Congress and U S Foreign Policy leading scholars examine the foreign policy activity role and influence of the U S Congress in the current polarized and partisan political context Challenging conventional views the contributors reveal how members of Congress have been active and assertive utilizing numerous different means to influence US foreign policy sometimes supporting and sometimes opposing the President The contributors provide in depth analysis and expert perspectives on the issues decisions and debates that have arisen across multiple presidential administrations in the polarized political context since the end of the Cold War This polarized environment greatly increases the conflict among and complicates the ability of policymakers to reach compromises much less consensus on the appropriate ends and means of US foreign policy This timely and cohesive reassessment of the tumultuous years of the most recent presidential administrations focuses analytical attention on the patterns of engagement between Congress and the President and the range of avenues and influence by the collective institution and its individual members It thus sheds light on the role and behavior of Congress and its members in US foreign policy as a vital aspect of understanding how and why the US chooses its policy courses toward the world

Russia-Foreign Relations-United States Air University (U.S.). Library, 1976

The ^AUnited States and Canada Paul J. Quirk, 2019-07-11 This edited volume presents an integrated comparative examination of the political systems of the United States and Canada with special attention to the effects of political institutions and their interaction with political values and other factors in policymaking It explores in particular the differences between the American presidential or separation of powers system and the Canadian parliamentary system It also considers a number of further institutional differences concerning federalism bureaucratic leadership judicial definitions of citizens rights and others
