New Geopolitics Of Eurasia And Turkey's Position:

The New Geopolitics of Eurasia and Turkey's Position Bulent Aras,2013-01-11 This work explores the geopolitical struggles that are currently underway in the newly independent states of the Caucasus region showing how many players in the region are coalescing into two opposing blocs The growing political military and economic ties amongst the countries of these two blocs stem from a number of developments in the region most notably the fall of the Soviet Union and consequently the end of the Cold War and its bi polar global alliance structure These blocs are competing for influence in the region and the rights to exploit and transport the rich energy resources that have been found in the Caspian Sea The text shows how many actors have been willing to co operate in other non energy related issues in the hope of receiving a financial reward when countries do decide on these matters

When Empire Meets Nationalism Didier Chaudet,Florent Parmentier,2016-02-11 This innovative study presents an in depth political and sociological analysis of the internal power politics and imperial forms developed by the Russian neo eurasianists and the neo conservatives in the United States It traces the growth of nationalism and the concept of Empire in relation to the ideologies and foreign policy of both Russia and the USA Beginning with a genealogy of the two movements the authors present the intricacy of imperial rhetoric and nationalist ideologies in modern states compared with the distinctive definition of Empire as a politico historical form The extent to which these ideas have shaped the foreign policy of Russia and the USA is then related to events in Central Asia Afghanistan Iran Iraq Saudi Arabia and

Turkey The analysis of each case provides a better understanding of the imperial character of these foreign policies in relation to their nationalist foundations The combination of political theory and geopolitics makes this cutting edge research a must read to all interested in the evolving discourse surrounding Empire The Turkish Economy in Crisis Ziya Onis, Barry Rubin, 2004-08-02 This book provides a set of critical perspectives on the economic crises of 2000 and 2001 focusing on both the origins and consequences of the crises Attention is drawn to the role of domestic actors as well as key external actors such as the International Monetary Fund in precipitating the twin crises *The Security Context in the Black Sea Region* Dimitrios Triantaphyllou, 2013-10-18 This book on the security context in the Black Sea region is a timely endeavour and substantive contribution to understanding the state of play in the region and its linkages to the rest of the world With contributions from analysts from Europe the United States Russia Ukraine and Turkey the book provides a holistic perspective Post Cold War developments have increased interest in the Black Sea region and the role of the regional and extra regional actors in its security issues this volume examines the position of the United States NATO s involvement the EU s engagement Russia and Turkey s aspirations alongside the policies of the other states in the region as they seek a role for themselves It illustrates and investigates key concerns such as security energy and energy security regionalism and good governance and questions why a cooperative security framework or other regional schemes which could accommodate the needs of all stakeholders has to date never become a reality This book adds to the growing body of research on the region presenting the facts of the current situation and asking what can be done in the Black Sea region for it to survive given its precarious security environment This book was published as a special issue of Southeast European and Black Sea Studies

Turkey and the US in the Middle East Gürcan Balik, 2016-05-26 Written by the former chief foreign policy advisor to the Turkish president and based on unprecedented access to official documents and communiques this book gives the inside story of Turkish US relations from the first Gulf War through debates on the Iraqi Kurdish question the 2003 invasion of Iraq and into the present day Using events in Iraq as the basis for a theoretical case study Gurcan Balik argues that Turkey influenced US foreign policy on several key occasions and that Turkish support was instrumental in the first intervention in Iraq After Iraq s 1991 uprisings however Turkey s interests in the Middle East began to diverge from those of the US and their relationship gradually deteriorated evident in Turkey s refusal to open up its northern border to aid the US advance to Baghdad in 2003 Balik contends that an Iraq gap then emerged which has since had major implications for the Turkish economy and for the future of the Middle East Turkey and the US in the Middle East contains hitherto unpublished primary source material and is an essential addition to the scholarship of the period *Iran's Foreign Policy in the South Caucasus* Marzieh Kouhi-Esfahani, 2019-01-10 Iran s role as a regional power is more significant than many in the West may realise The country lies between Central Asia the Caucasus and the Gulf region on the one hand and on the other between the Mediterranean Levant region and South Asia Many of these areas are of increasing strategic importance This book explores

Iran's role as a regional power focusing on relations with South Caucasus countries Azerbaijan and Armenia. It outlines the historical context including Persia's rule of these countries before the nineteenth century and discusses Iran's approach to foreign and regional policy and how both internal and international factors shape these policies. The book assesses Iran-Azerbaijan and Iran-Armenia bilateral relations to demonstrate how those policies translate in Iran's regional and bilateral relations. The book concludes by considering how Iran's relations in the region are likely to develop in the future.
