New Guinea Journey Into The Stone Age:

New Guinea, 1990 *Journey Into Stone Age* Malcolm S. Kirk, 1969 **Pygmies & Papuans: The Stone Age To-day in Dutch New Guinea** A. F. R. Wollaston, 2022-06-02 In *Pygmies Papuans The Stone Age To day in Dutch New Guinea* A F R Wollaston presents a meticulously detailed ethnographic study that chronicles the lives of the indigenous Pygmy and Papuan populations in the early 20th century Employing a descriptive literary style Wollaston weaves vivid narratives enriched with sensorial observations that illuminate the cultural social and environmental contexts of these groups The book is grounded in the realities of its time providing a rare glimpse into the Stone Age lifestyle and the ongoing impact of colonialism on these communities making it a significant contribution to the field of anthropology and colonial studies A F R Wollaston a British explorer and naturalist spent extensive time studying remote cultures influenced by his passion for understanding human diversity and the effects of modernization on traditional societies His background in science combined with hands on experience in the field equips him with a unique perspective that is evident in this work Wollaston s keen interest in preserving the narratives of marginalized peoples underlines the importance of his contribution to the academic discourse surrounding indigenous studies This book is highly recommended for readers interested in anthropology colonial history and cultural studies Wollaston s in depth research and engaging prose not only illuminate the lives of the Pygmies and Papuans but also challenge readers to reflect on the complexities of cultural identity and the repercussions of external influences on traditional ways of life **From 'Stone-Age' to 'Real-Time'** Martin Slama, Jenny Munro, 2015-04-24 There are probably no other people on earth to whom the image of the stone age is so persistently attached than the inhabitants of the island of New Guinea which is divided into independent Papua New Guinea and the western part of the island known today as Papua and West Papua From Stone Age to Real Time examines the forms of agency frictions and anxieties the current moment generates in West Papua where the persistent stone age image meets the practices and ideologies of the real time a popular expression referring to immediate digital communication The volume is thus essentially occupied with discourses of time and space and how they inform questions of hierarchy and possibilities for equality Papuans are increasingly mobile and seeking to rework inherited ideas institutions and technologies while also coming up against palpable limits on what can be imagined or achieved secured or defended This volume investigates some of these trajectories for the cultural logics and social or political structures that shape them The chapters are highly ethnographic based on in depth research conducted in diverse spaces within and beyond Papua These contributions explore topics ranging from hip hop to HIV AIDS to historicity filling much needed conceptual and ethnographic lacunae in the study of West Papua **Christianity, Islam, and Nationalism in Indonesia** Charles E. Farhadian, 2005 As the largest Muslim country in the world Indonesia is marked by an extraordinary diversity in language ancestry culture religion and ways of life Christianity Islam and Nationalism in Indonesia focuses on the Christian Dani of West Papua providing a social and ethnographic history of the most important indigenous population in the

troubled province It presents a fascinating overview of the Dani s conversion to Christianity examining the social religious and political uses to which they have put their new religion While its indigenous population is Papuan and its dominant religions are Christianity and animism West Papua contains a growing number of Papuan Muslims Farhadian provides the first study of this highland Papuan group in an urban context which helps distinguish it from the typical highland Papuan ethnography Incorporating cultural and structural approaches the book affords a fascinating insight into the complex relationship between Christianity Islam and nationalism West New Guinea Dylan Gaffney,Marlin Tolla,2025-02-20 This book explores the human past in West New Guinea otherwise known as Indonesian Papua West Papua or Irian Jaya The western part of New Guinea and its surrounding islands were critical for the early peopling of the Pacific region over 50 000 years ago when Homo sapiens moved out of Africa and into Asia seafaring through the islands of Wallacea as far as New Guinea the Bismarck Archipelago and the Solomon Islands After arriving on the shores of West New Guinea people adapted to diverse environments including coral reefs tropical rainforests swamps montane cloud forests and savannah grasslands Over millennia people transformed these habitats by burning and cutting the forests translocating plants and animals and managing access to resources Food production later emerged in the region as the global climate warmed up around 10 000 years ago Between 4000 3000 years ago the Austronesian languages began to enter West New Guinea with its speakers settling around the coasts and offshore islands New forms of exchange connected people and particularly within the last 2000 years drew West New Guinea into global networks The objects produced and traded at ethnographic contact like pottery stone axes string bags shell ornaments and wooden carvings can be informative about these networks but they are increasingly changing as people navigate and transform their material worlds in the present The examination of these objects in museums not only casts light on their makers traders and collectors but also highlights the ongoing connections that Papuans have with their material culture in the twenty first century The 22 chapters in this book contribute novel perspectives and critical data on each of these themes The authors come from archaeology social anthropology biological anthropology linguistics museology palaeoecology and beyond They write about a wide array of West New Guinea s regions including the highlands north and south coasts Bird s Head Peninsula Cenderawasih Bay and the Raja Ampat Islands

Heiser,2016-02-03 Humankind has had a long and intimate association with gourds and one of them the bottle gourd or calabash may have been man s first cultivated plant Although grown in the United States today primarily as ornamentals in other parts of the world gourds have many other important uses With charming text and stunning black and white photographs The Gourd Book provides fascinating scientific information and folklore about these remarkable plants and keys for identifying species The first part of the book deals with

tree gourds widely used as containers and for decoration the Cucurbita gourds including the buffalo gourd the Turk s turban the silver seed gourd and the Malabar gourd all utilized as food and the beautiful ornamental gourds the loofah gourds popular as cosmetic sponges minor gourds such as the snake wax bitter teasel and hedgehog sometimes used as food or medicine and gourds mentioned in the Bible The second part takes up the bottle gourd which has been used for thousands of years Even today this gourd is almost indispensable in many parts of the tropics where species are used to make containers musical instruments and clothing as food and medicine and in art The book concludes with a discussion of the gourd in folklore and myth and an appendix on growing hybridizing and preserving gourds for decoration Delightfully written for general readers this book will also appeal to botanists anthropologists horticulturists and everyone interested in plants or gardening
