New Image Painting In The 1980s:

The New Image Tony Godfrey, 1986 This is the first book to cover the great resurgence that has occurred in Europe and America in the last ten years New Painting now dominates contemporary art in its various guises neo expressionism pattern painting anachronistic painting post graffiti This book clearly outlines the different aspects of this complex phenomenon the return to national traditions the re cycling of advertising media the various regional schools of Germany the use of such unorthodox materials as antlers straw lead and even porridge mixed into the paint The best known of these artists Baselitz Clemente Fetting Kiefer Paladino Salle Schnabel and others with their unique use of myth style and materials are all

examined in detail Jacket *New image painting in the 1980's (the)*. T. Godfrey, 1986 **Unpackaging Art of the 1980s**

Alison Pearlman, 2003-06-15 American art of the 1980s is as misunderstood as it is notorious Critics of the time feared that market hype and self promotion threatened the integrity of art They lashed out at contemporary art questioning the validity of particular media and methods and dividing the art into opposing camps While controversies have since subsided critics still view art of the 1980s as a stylistic battlefield Alison Pearlman rejects this picture which is truer of the period s criticism than of its art Pearlman reassesses the works and careers of six artists who became critics biggest targets In each of three chapters she pairs two artists the critics viewed as emblematic of a given trend Julian Schnabel and David Salle in association with Neo Expressionism Jean Michel Basquiat and Keith Haring vis vis Graffiti Art and Peter Halley and Jeff Koons in relation to Simulationism Pearlman shows how all these artists shared important but unrecognized influences and approaches a crucial and overwhelming inheritance of 1960s and 1970s Conceptualism a Warholian understanding of public identity and a deliberate and nuanced use of past styles and media Through in depth discussions of works from Haring s body paintings of Grace Jones to Schnabel s movie Basquiat Pearlman demonstrates how these artists interests exemplified a broader generational shift unrecognized by critics She sees this shift as starting not in the 1980s but in the mid 1970s when key developments in artistic style art world structures and consumer culture converged to radically alter the course of American art Unpackaging Art of the 1980s offers an innovative approach to one of the most significant yet least understood episodes in twentieth century art The Rise and Fall of American Art, 1940s-1980s Assoc Prof Catherine

Dossin, 2015-03-28 This book challenges the perception of New York as the undisputed center of the art world between the end of World War II and the fall of the Berlin Wall a position of power that brought the city prestige money and historical recognition In her transnational and interdisciplinary study Dossin analyses changing distributions of geopolitical and symbolic power in the Western art worlds a story that spans two continents forty years and hundreds of actors The Rise and Fall of American Art, 1940s-1980s Catherine Dossin, 2016-03-03 In The Rise and Fall of American Art 1940s 1980s Catherine Dossin challenges the now mythic perception of New York as the undisputed center of the art world between the end of World War II and the fall of the Berlin Wall a position of power that brought the city prestige money and historical

recognition Dossin reconstructs the concrete factors that led to the shift of international attention from Paris to New York in the 1950s and documents how peripheries such as Italy Belgium and West Germany exerted a decisive influence on this displacement of power As the US economy sank into recession in the 1970s however American artists and dealers became increasingly dependent on the support of Western Europeans and cities like Cologne and Turin emerged as major commercial and artistic hubs a development that enabled European artists to return to the forefront of the international art scene in the 1980s Dossin analyses in detail these changing distributions of geopolitical and symbolic power in the Western art worlds a story that spans two continents forty years and hundreds of actors Her transnational and interdisciplinary study provides an original and welcome supplement to more traditional formal and national readings of the period After Modernist Painting Craig Staff,2025-01-23 This book presents both a historical survey and a critical re evaluation of the contested and contingent nature of the medium of painting over the last 60 years Offering a critical account of painting specifically rather than art more generally After Modernist Painting provides a timely exploration of what has remained a persistent and protean medium Taking Clement Greenberg s Modernist Painting as its starting point the book focuses on certain developments including the relationship of painting to Conceptual Art and Minimalism the pronouncement of painting s alleged death its response to Installation Art s foregrounding of site how painting both images and imagines the digital and how it continues to embody a particular set of ideas and responses to the world Revised and expanded to reflect developments in the field since the first edition was published in 2013 After Modernist Painting addresses a range of global artists and painting practices from the Dansaekhwa art movement in South Korea to the Conceptualism of Geta Bratescu in 1970s Romania Essential reading for students on fine arts painting courses the book is an invaluable resource for those seeking to understand the themes and issues that have pertained to painting within the context of postmodernism and contemporary artistic practice and also provides a valuable starting point for other more specialized histories of particular painters Movements in Art Since 1945: Second Edition (World of Art) Edward Lucie-Smith,2020-04-14 A classic introduction to art since the end of the Second World War Movements in Art Since 1945 tells the story of art across all forms of media over the past seventy five years Revised and redesigned for the first time since 2001 this standard introduction to visual art in the postwar era examines the movements trends and artists from abstract expressionism to the present day Writing with exceptional clarity and a strong sense of narrative Edward Lucie Smith demystifies the work of dozens of artists and reveals how the art world has interacted with social political and environmental concerns This book includes detailed coverage of major developments within the artistic community such as pop art conceptual and performance work neo expressionism and minimalist art across the globe including Asia Africa and Latin America A new chapter on art since 2000 includes discussions of work by Banksy and Ai Weiwei as well as recent trends in art from Russia and Eastern Europe Featuring nearly 300 images of key artworks that range from graffiti from 1980s New York to contemporary painting from

American Artists On Art Ellen Johnson,2018-02-20 From the Preface The fact that so much of modern art has devoted itself to the exploration and assertion of its own identity is reflected in but does not explain the increasing amount of writing and talking on the part of contemporary artists Rather the whole history of the changing role of art and artists in a democratic industrial and technological society stands behind the spate of artists words and the public s hunger for them even some of the general public out there beyond art s little circle Statements by artists appeal somewhat the way drawings do they bring us or at least they hold the promise of bringing us closer to the artist s thoughts and feelings and to an understanding of his or her modus operandi they hold the keys to a mysterious realm And sometimes they offer us the sheer pleasure of good reading Such is the primary raison d etre of this book Its other motivation is educational and stems from the frustrating lack in teaching contemporary art of any single compilation of statements by American artists from 1940 to the present This anthology differs in several respects from those others that do include documents of American art since 1940 The selection I have made is devoted exclusively to statements of artists it is limited to the last four decades it presents in a single volume a representative and fairly comprehensive coverage of major developments in American art beginning with Abstract Expressionism and whenever possible it cites the first or among the very earliest documents signaling a shift in the definition intent or direction of art

Painting the Digital River James Faure Walker,2006 This book is as much about painting as it is about the digital world But beyond both it s really about visual intelligence What makes it a joy to read is the lovely match between Faure Walker s subject and his style of writing apparently artless just making itself up as it goes along but actually always with a witty spring and never slack MATTHEW COLLINGS artist critic author and television host As a painter himself James Faure Walker opens up a provocative dialogue between painting and digital computing that is essential reading for all painters interested in new technologies IRVING SANDLER author critic and art historian Faure Walker has a

distinguished background as both a painter and digital artist He is an early adopter of digital technology in this regard so has lived the history of the ever accelerating embrace of the digital On top of this he is a good storyteller and a clear writer who avoids the pitfalls of pretentious art world jargon LANE HALL digital artist and professor Using a wide stream of fresh water as a metaphor Faure Walker depicts a flow of ideas concepts and solutions that result in digital art All the core elements of an art style in making are here ties with mainstream and traditional art stages of technological progress and reflections on the bright and varied personalities of digital artists With a personal approach Faure Walker presents vibrant exciting emotionally overpowering art works and describes them with empathy and imagination This entertaining sensitive and observant book itself flows like a river ANNA URSYN digital artist and professor Something like this book is overdue I am not aware of any comparable work Lots of how to do but nothing raising so many interesting and critical questions HANS DEHLINGER digital artist and professor Here is the intimate narrative of a passionate yet skeptical explorer who unflinchingly records his artistic discoveries and personal reflections Faure Walker s decades of experience as a practicing painter art critic and educator shine through on every page The book is an essential resource for anyone interested in digital visual culture ANNE MORGAN SPALTER digital artist author and visual computing researcher This book is about art written from an artist s point of view It also is about computers written from the perspective of a painter who uses them Painting the Digital River is James Faure Walker s personal odyssey from the traditional art scene to fresh horizons from hand to digital painting and sometimes back again It is a literate and witty attempt to make sense of the introduction of computer tools into the creation of art to understand the issues and the fuss to appreciate the people involved and the work they produce to know the promise of the new media as well as the risks Following his own winding path Faure Walker tells of learning to paint with the computer of misunderstandings across the art and science divide of software limitations of conversations between the mainstream and digital art worlds of emerging genres of digital painting of the medieval digital of a different role for drawing As a painter and computer enthusiast the author recognizes the marvels of digital paint as well as anyone But he also challenges the assumption that digital somehow means different The questions he raises matter to artists of every background style and disposition and the answers should reward anyone seeking insight into contemporary art
