New Instruments for Environmental Policy in the EU Jonathan Golub,1998-06-04 New Instruments for Environmental Policy in the EU provides a comprehensive analysis of the debate over new forms of environmental regulation in the European Union The conclusions draw attention to critical aspects of instrument design as well as the difficulty of accommodating national policy diversity without contravening EU and international tr **Environmental Policy in Search of New Instruments** B. Dente,2013-03-09 Environmental policy is undergoing a dramatic transformation The problems connected with global change the need for preventative action and the growing importance of non source pollution call for new courses of action and new institutional arrangements In this situation it is fairly obvious that both the traditional command and control policy instruments and the more modern financial and economic instruments are increasingly under stress This volume deliberately aims to break new ground in providing the conceptual tools necessary for the next generation of environmental policies In doing so it covers a wide interdisciplinary range from public policy analysis to international law and draws upon much international experience well reflected by the mixed composition of the contributors On the basis of a shared theoretical framework the book explores the potential of new policy instruments such as policy evaluation or mediation proposes alternative institutional arrangements for dealing with the issues classifies existing instruments and illuminates the process through which old and new tools can be set into operation New Instruments of Environmental Governance? Andrew Jordan,Rüdiger Wurzel,Anthony R. Europe's environment Environmental economists in particular have proposed that legislation should be supplemented or replaced by New Environmental Policy Instruments NEPIs such as eco taxes environmental charges tradable permits and voluntary agreements This book focuses on practical experiences with NEPIs in the EU and tests their application using the case study of the Packaging and Packaging Waste Directive It traces the ways in which member states have adapted NEPIs to suit their preferred styles of environmental policy then assesses their performance and how NEPIs have both assisted and hindered the EU environmental programme It suggests options for ensuring that the environmental programme does not become fragmented by the use of NEPIs and discusses the implications of EU enlargement

Environmental Policy in the European Union Andrew Jordan, 2012 This second and fully revised edition brings together some of the most influential work on the theory and practice of contemporary EU environmental policy Comprising five comprehensive parts it includes in depth case studies of contemporary policy issues such as climate change genetically modified organisms and trans Atlantic relations as well as an assessment of how well the EU is responding to new challenges such as enlargement environmental policy integration and sustainability The book's aim is to look forward and ask whether the EU is prepared or even able to respond to the new governance challenges posed by the perceived need to use new policy instruments and processes to mainstream environmental thinking in all EU policy sectors
