North Coast Odyssey The Inside Passage From Port Hardy To Prince Rupert:

North Coast Odyssey Kenneth Campbell, 1993-01-01 Coasts Under Stress Rosemary E. Ommer, 2007-08-08 Rosemary

Ommer and her project team combine formal scientific natural and social and humanist analysis with an examination of the lived experience of coastal people They analyze community erosion created by economic decline and the ecosystem damage caused by unrelenting industrial pressure on natural resources and look at the history of coastal communities their resource bases their economies and the way the lives of people are embedded in their environments The Promise of Paradise Andrew Scott, 2017-03-25 The West has long attracted visionaries and schemers from around the world And no other region in North America can outstrip British Columbia for the number of utopian or intentional settlement attempts in the past 150 years Andrew Scott delves into the dramatic stories of these fascinating but often doomed communities From Doukhobor farmers to Finnish coal miners Quakers and hippies many groups have struggled to build idealistic colonies in BC s inspiring landscape While most discovered hardship disillusionment and failure new groups sprang up and continue to spring up to take their place Meet the quick tempered slave driving Madame Zee partner of the infamous Brother XII who reportedly beat followers with a riding crop Hear from Richard The Troll Schaller who founded the Legal Front Commune General Store and Funny Food Farm on the Sunshine Coast setting off a storm of hostility from locals Congregate with Jerry LeBourdais and fellow members of the Ochiltree Organic Commune who rebelled from hippie communes by embracing meat eating and coffee drinking With careful research and engaging first person accounts Scott sifts through the wreckage of the utopia seekers dreams and delves into the practices and philosophies of contemporary intentional communities This book is a compendium of astounding misadventures as well as an intriguing analysis of what moves people to search for paradise

Many Wests David M. Wrobel, Michael C. Steiner, 1997 What does it mean to live in the West today Do people tend to identify with states with regions or with the larger West This book examines the development of regional identity in the American West demonstrating that it is a regionally diverse entity made up of many different wests Great Plains Southwest Rocky Mountains and more in which American regionalism finds its fullest expression These fourteen original essays tell how a sense of place emerged among residents of various regions and how a sense of those places was developed by people outside of them Wrobel and Steiner first offer a compelling overview of the West s regional nature then thirteen other rising or renowned scholars from history American Studies geography and literature tell how regional consciousness formed among inhabitants of particular regions All of the essays address the larger issue of the centrality of place in determining social and cultural forms and individual and collective identities Some focus on race and culture as the primary influences on regional consciousness while others emphasize environmental and economic factors or the influence of literature Some even examine western regionalism in areas that lie beyond the West as it has traditionally been conceived Each of the contributors believes that where a people live helps determine what they are and they write not only about the many wests within the larger West

but also about the constant state of flux in which regionalism exists Many books speak of the West as a place but few others deal with the West s different places Many Wests presents a vision of the West that reflects both the common heritage and unique character of each major subregion building on the revisionist impulse of the last decade to help redirect New Western History toward an appreciation of regional diversity and integrate scholarship in the regional subfields It is a book for everyone who lives in studies or loves the West for it confirms that it is home to very different peoples economies histories and regions *BC Studies* ,1993 Boomsticks & Towlines Syd C.
