E. Turpin, Lester R. Kurtz, 1997 An excellent representation of the interdisciplinary thrust of peace studies Paul Joseph Tufts University Violence is a topic of concern everywhere in the media in churches in the halls of governments In every land and in every culture violence is considered by most to be taboo a last resort Yet under certain conditions from the level of the family to the level of nations violence is used as a mechanism of social control Various rationalizations thus emerge to distinguish between legitimate and illegitimate violence The Web of Violence explores the interrelationship among personal collective national and global levels of violence This unique collection brings together a number of internationally known contributors to address the genesis and manifestations of violence in the search for a remedy for this confounding social problem As the global community becomes more intimate we must better understand the nature of violence The Web of Violence supports this aim by examining the dangerous human phenomenon from many perspectives at different levels and using multiple methodologies CONTRIBUTORS Robert Jay Lifton Christopher G Ellison John P Bartkowski Yuan Horng Chu Philip Smith Robert Elias Birgit Brock Utne Riane Eisler Johan Galtung Gender and the Israeli-Palestinian Conflict Simona Sharoni, 1995-03-01 Simona Sharoni's innovative approach to the conflict in the Middle East stresses the relationship between gender and politics by illuminating the daily experiences of women in Israel and in the occupied West Bank and Gaza Strip Among the issues explored are the connections between the violence of the conflict and the escalation of violence against women the link between militarism and sexism and the role of nationalism in building individual and collective identities Sharoni also shows the impact of Intifada the Palestinian uprising in December 1987 on the Palestinian and Israeli women's movements While women's coalitions such as these are critical subjects in and of themselves the actions of marginalized women are rarely if ever given serious treatment in the study of international relations With this book Sharoni creates an aperture for the emergence of new perspectives and alternative methods in the development of a new vision in global politics and gender equality The interdisciplinary scope of the book will make it valuable to scholars of political science women's studies conflict resolution and Middle East studies **The Gendered New World Order** Jennifer Turpin, Lois Ann Lorentzen, 2013-10-31 Ecological security seems increasingly precarious and battles over land and models of economic development now lead to military conflicts The Gendered New World Order addresses the compelling issue of how gender connects the global problems of militarism underdevelopment and environmental decay Scholars from around the world make connections between seemingly disparate issues such as refugees polluted waters bombed villages massive dam projects starving children deforestation nuclear arms buildup and the rights of women *The Zen of International Relations* S. Chan, P. Mandaville, 2001-10-15 The new millennium can only be a time of true globalization if different histories and systems of understanding the world are appreciated The authors unveil significant studies to do with epistemological debates in International Relations and give detailed middle and far eastern examples of how different cultures have used story telling as a means of understanding what is outside and around Especially provocative is the Chinese idea of the West as an Other

as atypical and indeed inscrutable to the extent of not needing scrutiny at all      **Israeli Women's Studies** Esther Fuchs, 2005 The purpose of the present anthology is to bring together select and organize the publishing work that has been done in the last two decades The idea is to highlight current state of the art essays and point to an evolutionary trajectory from the earlier pioneering essays to the voices that define the field today      *Emergent Conflict and Peaceful Change* Hugh Miall, 2007-02-28 Hugh Miall draws upon conflict theory case studies of averted conflict and a survey of the preventors of war since 1945 to explore how some conflict can be avoided at times of great social or political change He also looks ahead to discuss the prevention of emerging global conflicts focusing on climate change      **Understanding Coexistence with Wildlife** Simon Pooley, John D. Everyday Peace? Philippa Williams, 2015-10-12 Winner of the 2016 Julian Minghi Distinguished Book Award of the Political Geography Specialty Group at the AAG Providing important insights into political geography the politics of peace and South Asian studies this book explores everyday peace in northern India as it is experienced by the Hindu Muslim community Challenges normative understandings of Hindu Muslim relations as relentlessly violent and the notion of peace as a romantic endpoint occurring only after violence and political maneuverings Examines the ways in which geographical concepts such as space place and scale can inform and problematize understandings of peace Redefines the politics of peace as well as concepts of citizenship agency secular politics and democracy Based on over 14 months of qualitative and archival research in the city of Varanasi in Uttar Pradesh India      *International Theory* Steve Smith, Ken Booth, Marysia Zalewski, 1996-06-13 This book provides a major review of the state of international theory It is focused around the issue of whether the positivist phase of international theory is now over or whether the subject remains mainly positivistic Leading scholars analyse the traditional theoretical approaches in the discipline then examine the issues and groups which are marginalised by mainstream theory before turning to four important new developments in international theory historical sociology post structuralism feminism and critical theory The book concludes with five chapters which look at the future of the subject and the practice of international relations This survey brings together key figures who have made leading contributions to the development of mainstream and alternative theory and will be a valuable text for both students and scholars of international relations      *Maneuvers* Cynthia Enloe, 2000-02 Enloe outlines the dilemmas feminists around the globe face in trying to craft theories and strategies that support militarized women locally and internationally without unwittingly being militarized themselves      *Gender Integration in NATO Military Forces* Lana Obradovic, 2016-04-15 Numerous states have passed gender integration legislation permanently admitting women into their military forces As a result states have dramatically increased women's numbers and improved gender equality by removing a number of restrictions Yet despite changes and initiatives on both domestic and international levels to integrate gender perspectives into the military not all states have improved to the same extent Some have successfully promoted gender integration in the

ranks by erasing all forms of discrimination but others continue to impede it by setting limitations on equal access to careers combat and ranks Why do states abandon their policies of exclusion and promote gender integration in a way that women s military participation becomes an integral part of military force By examining twenty four NATO member states this book argues that civilian policymakers and military leadership no longer surrender to parochial gendered division of the roles but rather support integration to meet the recruitment numbers due to military modernization professionalization and technological advancements Moreover it proposes that increased pressure by the United Nations to integrate gender into security and NATO seeking standardization and consistency on the international level and women s movements on the domestic level are contributing to greater gender integration in the military Winner of the 2015 ERGOMAS Best Book in Civil Military Relations Award      **Shakespeare Against War** Robert White,2024-05-31 Whilst Shakespearean drama provides eloquent calls to war more often than not these are undercut or outweighed by compelling appeals to peaceful alternatives conveyed through narrative structure dramatic context and poetic utterance Placing Shakespeare s works in the history of pacifist thought Robert White argues that Shakespeare s plays consistently challenge appeals to heroism and revenge and reveal the brutal futility of war White also examines Shakespeare s interest in the mental states of military officers when their ingrained training is tested in love relationships In imagery and themes war infiltrates love with problematical consequences reflected in Shakespeare s comedies histories and tragedies alike Challenging a critical orthodoxy that military engagement in war is an inevitable and necessary condition White draws analogies with the experience of modern warfare showing the continuing relevance of Shakespeare s plays which deal with basic issues of war and peace that are still evident

The Transformation of Violent Intercommunal Conflict Stephen Ryan,2016-02-24 In recent years there has been a remarkable growth of interest in the concept of conflict transformation and the closely related strategy of grass roots peace building Yet there exists no general critical analysis of the concept of conflict transformation in the context of violent intercommunal conflict and the different approaches that can be included in response to this category of dispute This study offers a comprehensive survey and critical overview of this emerging area Examining the reasons for the growing interest in the concept of conflict transformation in situations of ethnic conflict the book explores the different dimensions of transformation It draws on examples of strategies from a number of situations of ethnic conflict including Northern Ireland Israel Palestine Bosnia Kosovo Cyprus Spain Sri Lanka and the former Soviet Union to identify and assess key issues and problems that have emerged and ultimately to propose a stronger emphasis on the promotion of inter subjective understanding      *Feminist Theory and International Relations in a Postmodern Era* Christine Sylvester,1994-02-25 This book evaluates the major debates around which the discipline of international relations has developed in the light of contemporary feminist theories
