Peace The Strategy Conflict:

Strategies of Peace Daniel Philpott, Gerard Powers, 2010-03-24 Scholars of peacebuilding rethink the basic goals and methods of conflict resolution and argue for a holistic approach that they term strategic peacebuilding which aims not only for stability but for a comprehensive solution that incorporates apology forgiveness reconciliation and most crucially religion

Peace and the Strategy Conflict William Roscoe Kintner, 1967 **Strategies of Peace** Daniel Philpott, Gerard Powers, 2010-03-24 How can a just peace be built in sites of genocide massive civil war dictatorship terrorism and poverty In *Strategies of Peace* the first volume in the *Studies in Strategic Peacebuilding* series fifteen leading scholars propose an imaginative and provocative approach to peacebuilding Today the dominant thinking is the liberal peace which stresses cease fires elections and short run peace operations carried out by international institutions western states and local political elites But the liberal peace is not enough the authors argue A just and sustainable peace requires a far more holistic vision that links together activities actors and institutions at all levels By exploring innovative models for building lasting peace a United Nations counter terrorism policy that also promotes good governance coordination of the international prosecution of war criminals with local efforts to settle civil wars increasing the involvement of religious leaders who have a unique ability to elicit peace settlements and many others the authors advance a bold new vision for peacebuilding *Winning the Peace* Robert C. Orr, 2004-07-20 Events in Iraq Afghanistan and the Balkans have proved that failed and defeated states threaten the national security interests of the United States and the stability of entire regions But success in addressing these threats clearly depends on more than military might the post conflict period is equally crucial Case studies in this book examine the U S approach in Kosovo East Timor Sierra Leone Afghanistan and Iraq The book offers policy guidance on how to handle current reconstruction challenges and on building capacity to do a better job when America is inevitably called on to restore failed nations in the future *From Conflict to Cooperation - Strategic Approaches to Instrumentalizing Global Peace* James Welch, 2025-04-02 *From Conflict to Cooperation Strategic Approaches to Instrumentalizing Global Peace* uses a constructivist approach to examine and define the concept of global peace offering innovative methods and perspectives to tackle the ongoing challenge of achieving peaceful international relations The book is organized into three sections each focusing on a key aspect of global peace sociocultural dynamics theoretical perspectives and practical analysis Through a comprehensive exploration of these areas this volume lays the groundwork for new strategies and solutions in the quest for lasting global peace WINNING THE WAR BY WINNING THE PEACE: STRATEGY FOR CONFLICT AND POST-CONFLICT IN THE 21st CENTURY. Lloyd J. Matthews, 2022 *Crafting Peace in Kashmir* Verghese Koithara, 2004-08-30 Presenting a completely new perspective on the Kashmir conflict this book argues that resolving the situation can be brought about through a peace strategy rather than a war strategy Through an analysis of the conflicts in Northern Ireland Sri Lanka and Palestine the author draws parallels between the India Pakistan conflict He also presents reasons why a durable peace based on the Line

of Control becoming the settled border and the two parts of Jammu and Kashmir being given parallel and substantial autonomy can be achieved in today's conditions. The book concludes that peace between India and Pakistan is possible based on political realism and that strategic solutions that safeguard the interests of both countries are available. **Handbook of Peace and Conflict Studies** Charles Webel, Johan Galtung, 2007-03-12 This major new Handbook provides a cutting edge and transdisciplinary overview of the main issues, debates, state of the art methods and key concepts in peace and conflict studies today. The fields of peace and conflict studies have grown exponentially since being initiated by Professor Johan Galtung half a century ago. They have forged a transdisciplinary and professional identity distinct from security studies, political science and international relations. The volume is divided into four sections: understanding and transforming conflict, creating peace, supporting peace, peace across the disciplines. Each section features new essays by distinguished international scholars and professionals working in peace studies and conflict resolution and transformation. Drawing from a wide range of theoretical, methodological and political positions, the editors and contributors offer topical and enduring approaches to peace and conflict studies. The Handbook of Peace and Conflict Studies will be essential reading for students of peace studies, conflict studies and conflict resolution. It will also be of interest and use to practitioners in conflict resolution and NGOs as well as policy makers and diplomats. International Conflict Resolution and Peacebuilding Strategies Daniela Nascimento, 2017-02-17 The analysis and interpretation of conflicts can be a dangerously simplistic exercise. A western developed socio-economic perspective can simplify conflicts in the so-called Third World as the inevitable struggles of people who cannot coexist because of ethnic, religious or cultural differences. While acknowledging that many contemporary conflicts are characterised and influenced by these factors, this book calls for an approach to conflict prevention and resolution which mainly addresses the underlying political, economic and social causes. The conflict in Sudan, where narratives evolved from an interpretation based on religious differences between a Muslim North and the Christian South, provides a case study through which the author explores how most prevention and resolution strategies were based on flawed assumptions leading to poor results. By focusing instead on the underlying socio-economic inequality and marginalisation among groups, she analyses the dynamics of the complex peace process to ascertain if and how economic and social rights were effectively included and implemented as a part of the peace agreement including after South Sudan's independence. **Peace Research and Peacebuilding** Chadwick F Alger, 2013-08-13 This is the third volume to commemorate the 90th birthday of the distinguished scholar Chadwick F Alger to honor his lifetime achievement in international relations as President of the International Studies Association 1978-1979 and as Secretary General of the International Peace Research Association 1984-1987. After a brief introduction by Chad F Alger, this volume presents six of his key texts on Peace Research and Peacebuilding covering: The quest for peace, What are we learning, The Emerging Toolchest for Peacebuilders, Peace Studies as a Transdisciplinary Project, Challenges for Peace Researchers and Peace Builders in the Twenty First Century, Education

and Coordination of a Diversity of Actors in Applying What We Are Learning The escalating peace potential of global governance There Are Peacebuilding Tasks for Everybody and What Should Be the Foundations of Peace Education

National Conference as a Strategy for Conflict Transformation and Peacemaking Jacques L. Koko, 2008-03-30
Events in the post Cold War era have challenged the notions of realism and realpolitik with an upsurge in intrastate conflicts involving other actors than just the state During this period the international community has witnessed the limitations of the tenets of realism for addressing disastrous civil wars or ethno political conflicts internal to the states Largely because of this and alongside the emerging field of conflict resolution in western countries transitional conflict resolution mechanisms emerged with characteristic multi track diplomacy orientations for solving national problems within African countries By the end of the 1980s and early 1990s several African countries including South Africa Burundi and Sierra Leone resorted to either a Truth and Reconciliation Commission or an international tribunal to handle violence and restore peace and justice In the same period other African countries opted for what was called national conference to solve their national problems and transform conflict into an opportunity for structural change In February 1990 the Republic of Benin a small nation state in West Africa achieved peace through a national conference The national conference in Benin was a national gathering for crisis resolution through social debates on critical issues facing the nation and political decision making for constructive changes As a pioneer Benin led the political change movement of the national conference and was later followed by eight other African countries namely Chad Congo Brazzaville Gabon Mali Niger Togo the Central African Republic and the former Zaire now known as the Democratic Republic of Congo To date most of the existing literature on the subject explores the phenomenon of national conference as something of a prelude to political transition to multipartyism and democracy Part of the literature depicts the national conference as a civil coup d etat and recommends its institutionalization as a system for democratic transitions This book takes a different approach by conceptualizing the national conference phenomenon as a multi track diplomacy tool or as a process for conflict transformation and peacemaking Building upon theories of conflict and conflict resolution the author analyzes the national conference as a unique diplomatic approach to transforming national crisis which expands the scope of strategies for peacemaking

Peace Ethology offers scholarly essays on the development nature and current state of peace **Confronting Ethnic Conflict** Jennifer L. De Maio,2009-01-01 Confronting Ethnic Conflict critically assesses the role of external intervention in managing selected ethnic conflicts in Africa Given the pervasive threat of ethnic conflict and the growing incidence of internal wars spilling across borders understanding the impact of third party intervention on conflict prevention durable peaceful governance and amicable social relations becomes a critical exercise for any scholar of conflict management The purpose of this project is to determine whether intervention strategies undertaken by international regional and subregional actors can be devised or improved so as to maximize the likelihood of successful conflict management in the case of internal conflicts particularly ethnic conflicts As the literature and empirical evidence suggest third party intervention does not always prevent or end violence De Maio contends that external involvement is more likely to lead to effective conflict management if it works to alter the perceptions of the antagonists and ensures that the parties truly own the peace This book focuses on four cases in detail the Somali crisis from 1988 to 1992 the Burundi conflict from 1995 to 2003 the protracted conflict in Sudan from 1983 to 2005 and the 1994 KwaZulu Natal civil conflict in South Africa The cases were selected because their varying outcomes and different types of third party involvement suggest that insights can be gained into the conditions that determine successful third party intervention **Peace, Literature, and Art - Volume I** Ada Aharoni,2009-08-30 Peace Literature and Art is the component of Encyclopedia of Social Sciences and Humanities in the global Encyclopedia of Life Support Systems EOLSS which is an integrated compendium of twenty one Encyclopedias Culture is the essence of individual and national identity What children and people read and watch and the kind of Culture Literature and Media they are exposed to through home education and society provide them with basic values attitudes and norms which affect and motivate them throughout their lives It is of crucial importance therefore that those stories we are exposed to at the socio cultural and educational levels which we watch on television in films and on the Internet and which we read should be peaceful ones which open our eyes to a humane world that can prosper from peace and harmony This Theme on Peace Literature and Art deals in two volumes and cover several topics related to Peace Education Definition Approaches and Future Directions Importance of a Literature and a Culture of Peace These two volumes are aimed at the following five major target audiences University and College Students Educators Professional Practitioners Research Personnel and Policy Analysts Managers and Decision Makers NGOs and GOs **Understanding Quality Peace** Madhav Joshi,Peter

Wallensteen,2018-01-29 This book provides an analytical framework for understanding how the concept of quality peace can be used to evaluate post conflict peacebuilding using social science statistics and case studies Including contributions from more than 20 researchers and practitioners it argues that the quality of the peace in a post conflict state relates to the extent to which peace accords are implemented the agreed upon mechanism for the non violent resolution of the conflict and the available social space for civil and political actors To arrive at the concept of quality peace the authors evaluate the existing literature and identify a lack of a satisfactory means of measuring outcomes and consequently how these might be researched comparatively The volume problematizes the quality peace concept as a way to understand the origins of armed conflict as well as problems deriving from the conflict dynamics and the need for social political and economic changes in the post conflict periods The book emphasizes five dimensions as crucial for quality peace in a post accord society Negotiations and agreements not only aim at avoiding the return of war but also seek to 1 promote reconciliation 2 develop mechanisms for resolving future disputes 3 provide for reliable security 4 open economic opportunities for marginalized segments of the population and 5 generate space for civil society These five dimensions together provide for quality peace after war They are studied in the context of internal armed conflicts in which multiple parties have signed a peace agreement This book will be of great interest to students of peace and conflict studies civil wars global governance security studies and International Relations in general

A Future for Peacekeeping? Edward Moxon-Browne,2016-07-27 This study challenges the easy assumption that peacekeeping as we ve known it in the past will be the pill for every ill in the future A new world order means new types of conflict breaking out almost anywhere in a world that is more volatile and less predictable than before Contributors to this volume argue that we need to get back to basics that there are sobering lessons to be learnt from Somalia the Lebanon and Cambodia that we need to ask some fundamental questions Can peacekeeping be reformed or must it be totally reinvented Are soldiers the best peacekeepers and if not who should replace them

Integrating Peacebuilding Into Humanitarian and Development Programming Mark Rogers, Aaron Chassy, Tom Bamat, 2010-10-05 Efforts by international organizations to integrate or mainstream peacebuilding across the diverse spectrum of humanitarian and development work has tended to be opportunistic and ad hoc This paper seeks to clarify key terms explore organizational frameworks and initiatives provide some practical guidance and list references or links to both thematic and procedural sources Asymmetries of Conflict John Leech, 2014-04-04 Decisions about defence and security are becoming increasingly open to public influence This book therefore aims to give both the voter and the decision maker a new vision of how to manage crises and avert hostilities with non traditional means *Small-State Mediation in International Conflicts* Jacob Eriksson, 2015-08-19 The Israeli Palestinian conflict is one of the most prolonged contentious and divisive in the modern era But despite the volatile nature of the conflict which frequently flares up in armed confrontations between the two there have been advancements towards a settlement through an admittedly protracted peace process In this book Jacob Eriksson argues that the impact of small states such as Sweden or Norway should not be ignored when it comes to the ongoing efforts to negotiate between Israel and Palestine Although small states lack coercive power the talks they have sponsored in this particular instance such as the Norwegian mediated Oslo Accords have transformed both the conflict and the conceptions of a solution to it Of course the diplomatic and financial power of larger states such as the USA is undoubtedly central to a negotiated solution But by looking at conflict resolution from the perspective of the small state Eriksson offers a unique analysis of power and diplomacy in the context of negotiations and efforts towards peace settlements
