Why Punish? How Much? Michael H. Tonry, 2011 Punishment like all complex human institutions tends to change as ways of thinking go in and out of fashion Normative political social psychological and legal ideas concerning punishment have changed drastically over time and especially in recent decades *Why Punish How Much* collects essays from classical philosophers and contemporary theorists to examine these shifts Michael Tonry has gathered a comprehensive set of readings ranging from Kant Hegel and Bentham to recent writings on developments in the behavioral and medical sciences Together they cover foundations of punishment theory such as consequentialism retributivism and functionalism new approaches like restorative communitarian and therapeutic justice and mixed approaches that attempt to link theory and policy This volume includes an accessible introduction that chronicles the development of punishment systems and theorizing over the course of the last two centuries *Why Punish How Much* provides a fresh and comprehensive approach to thinking about punishment and sentencing for a

broad range of law sociology philosophy and criminology courses *Economic Information, Decision, and Prediction* M. Marschak, 2012-12-06 The papers of Jacob Marschak which follow in these volumes are an extraordinary combination of original and fruitful departures in economic and social thought superb clarity of exposition and sensitivity to the values of earlier work and even competing traditions They make us marvel alike at their variety their quantity and their quality But they do not even so fully reflect Marschak's contributions to the development of social science He has had an unusual influence as one who exercises leadership In a formal organizational sense this role has been manifest in his capacity as Director of the Cowles Commission for Research in Economics then at the University of Chicago in that organization's most productive and influential period and later in his central role in the Western Management Science Institute at the University of California at Los Angeles I can speak from first hand knowledge about the first His special capacities are first the recognition of promising new concepts and of promising young scholars and second getting his colleagues to join him in developing the ideas and involving them fully in the necessary tasks There was an unusual combination of strength and humility in his methods a display of force in pushing the work along but a willingness almost an insistence on treating even the most junior associate as a fully equal colleague in intellectual development whose criticism of himself was to be encouraged His leadership has been exercised in the absence of formal positions *Indian Political Thought* Urmila Sharma, S.K. Sharma, 2001 The Book Covers University Syllabi In Political Science In The Papers Of Hindu Polity Indian Political Thought And Modern Indian Political Thought Etc Divided Into Three Parts The Ancient The Modern And The Contemporary This Book Analyses Indian Political Thought From Manu To M N Roy In Order To Keep It Brief And Precise Only Selected Thinkers Have Been Included While Those Of Only Historical Importance Have Been Left Out The Method Followed Is Construction Through Criticism So That Besides Knowing The Thought Of Eminent Indian Political Thinkers The Reader May Develop An Insight Into Political Processes Their Causes And Consequences While Matter Has Been Drawn From Authentic Sources It Has Been Narrated In Simple Language A Balanced Holistic Approach Has Been Maintained In Controversial Matters The Authors Have Left No Stone Unturned To Make This Book An Ideal Textbook For Students And Reference Book For Teachers Arcana Coelestia: Exodus Emanuel Swedenborg, 1878 **Thoughtlessness and Decadence in Iran** Alireza Shomali, 2019-04-01 Bridges Western and non Western political thought to address the problem of democracy and political decadence in contemporary Iran and by implication similar Islamic societies Political decay in Islamic societies has for the most part been the subject of structural analyses while philosophical studies have been rare often speculative and deterministic Thoughtlessness and Decadence in Iran explores from a theoretical perspective the problem of democracy deficit or political decadence in contemporary Iran and by implication in present day Middle Eastern societies This decadence the book argues is in part a religion based decadence and deliverance from it requires collective thoughtfulness about religion Alireza Shomali conceptualizes the Iranian Reality in terms of a lack of not only good life but

also thinking of good living This thoughtlessness means dissolution of critical consciousness and as such it heralds escalating decadence At this moment of rapid decay the book argues thought must become relevant to society the communicative practice of thinking must emerge to examine the pathologies of a religiously administrated life Opening a dialogue between Adorno Strauss Farabi and Razi among others Shomali underlines the critical points of similarity and difference between these thinkers and envisions a local emancipatory project that noting the specifics of the Iranian case takes lessons from the Western experience without blind imitation The book is global in its vision but also clearly local in its immersion in the philosophies values and culture of Iran and Iranian Islam This unique characteristic helps its prescription become local and simultaneously stay away from nativist third worldist and decolonialist discourses Abdolkarim Soroush author of *The Expansion of Prophetic Experience* *Love Or Greatness (Routledge Revivals)* Roslyn Wallach Bologh, 2009-12-15 This work first published in 1990 reissues the first thorough examination of the essentially masculine nature of Max Weber's social and political thinking Through a detailed examination of his central texts the author demonstrates Weber's masculine reading of social life and shows how his work advocates a masculine form of life that poses a challenge to contemporary women and to feminism In particular she addresses the patriarchal implications of Weber's belief in the need to relegate the ethic of brotherly love to a private sphere in order to make possible rational action and the achievement of greatness in the public sphere
