**Rationality and Relativity** F. P. O'Gorman, 1989      **Explorations in Knowledge** , 1990      **Handbook of Epistemology** I. Niiniluoto, Matti Sintonen, Jan Wolenski, 2004-03-31 Epistemology or theory of knowledge has always been one of the most important if not the most important field of philosophy New arguments are constantly brought to bear on old views new variants are marshalled to revive ancient stands new concepts and distinctions increase the sophistication of epistemological theories There are a great many excellent textbooks monographs as well as anthologies consisting of articles in epistemology Similarly there are useful philosophical dictionaries which contain a great number of relatively short entries and general philosophical handbooks which also touch epistemological issues This volume of 27 essays grew out from the interest to see a handbook which is devoted entirely to the historical roots and systematic development of theory of knowledge It is not intended to compete but to supplement the already existing literature It aims at giving both beginners and more advanced students as well as professionals in epistemology and other areas of philosophy an overview of the central problems and solutions of epistemology The essays are self contained and still often rather extensive discussions of the chosen aspects of knowledge The contributions presuppose very little familiarity with previous literature and only a few of them require the mastery of even elementary logical notation This we hope makes the volume also accessible to the philosophically interested wider audience The contributors were asked to provide substantial up to date self contained and balanced surveys of the various subareas and more specific topics of epistemology with reference to literature      **Irish Philosophical Journal** , 1990      Jonathan Edwards and the Enlightenment Josh Moody, 2005 To find more information about Rowman Littlefield titles please visit us at [www.rowmanlittlefield.com](http://www.rowmanlittlefield.com)      *The British National Bibliography* Arthur James Wells, 1968      **Forthcoming Books** Rose Arny, 1989-09      **Subject Guide to Books in Print** , 1996      Whitaker's Books in Print , 1998      Architectural Science Review , 1996      Whitaker's Book List , 1989      **Les Études philosophiques** , 1991      Bibliografisch Repertorium Van de Wijsbegeerte , 1991      **The Athenaeum** James Silk Buckingham, John Sterling, Frederick Denison Maurice, Henry Stebbing, Charles Wentworth Dilke, Thomas Kibble Hervey, William Hepworth Dixon, Norman Maccoll, Vernon Horace Rendall, John Middleton Murry, 1903      **The Athenaeum** , 1903      **American Book Publishing Record** , 1990      The Reign of Relativity Viscount Haldane, 2015-06-12 Excerpt from The Reign of Relativity The topics of this book are Knowledge itself and the relativity of reality to the character of Knowledge Some of the questions considered in the book are more than two thousand years old That fact need not disturb us For there appears to have been steady progress in the forms of the answers which have gradually been evolved If the substance of these turns out to be more akin to doctrines originally produced by the Greeks than we had expected to find that again need not disturb us It would not trouble us in the case of literature or art and we have to learn to study philosophy and even to a considerable extent science as we study these with the circumstances and language of the particular period steadily kept in our view To say this does not
