Raven In Flight:

Raven's Flight to Freedom Dr. Algirdas V. Kanauka, 2017-11-30 This is the story of my survival adventures experiences and insights about geopolitics and changing worldviews from before World War II Lithuania to Soviet occupation and my escape and evasion through wartime Germany till the end of WWII It also talks about my life as a refugee in displaced persons camp for four years and my immigration to the United States of America in 1949 Five years later having graduated from the Citadel Military College I was commissioned as a second lieutenant in the US Air Force and participated in the Cold War as a combat crew member of Strategic Air Commands Bombers B 52 and B 58 Then I had a stint with research and development of F 111 weapons systems at Wright Air Development Center and about a year in Southeast Asian war Vietnam with an F 111 fighter bomber detachment Then I went back to Europe on an US AF project Finally after twenty two years I retired from the Air Force to Southern California and worked in the aerospace industry and had new experiences and insights about mens venture into the cosmos However after the dissolution of Soviet Union the old country of Lithuania became free and I went there to help rebuild the country and pay my debt to it by consulting the general staff and teaching at the military academy there There are more insights and adventures Finally I retire to cool my heels in the warm waters of the Pacific Rim in Southern Californias Rancho Palos Verdes as a freelance writer Mary Lambert's Raven Takes Periodical Flights Scattering the Thoughts of Its Author Over the World in Verse, Essay, Story, Drama and Song, Obeying the Injunction of Kings 111-xvii: I Have Commanded the Ravens to Feed Thee." Cohen, Julian Yates, 2023-06-13 A timely rethinking of the archetypal story of Noah the great flood and who was left behind as the waters rose Most people know the story of Noah from a children's bible or a play set with a colorful ship bearded Noah pairs of animals and an uncomplicated vision of survival Noah's ark however will forever be haunted by what it leaves to the rising waters so that the world can begin again In Noah's Arkive Jeffrey J Cohen and Julian Yates examine the long history of imagining endurance against climate catastrophe as well as alternative ways of creating refuge

They trace how the elements of the flood narrative were elaborated in medieval and early modern art text and music and now shape writing and thinking during the current age of anthropogenic climate change Arguing that the biblical ark may well be the worst possible exemplar of human behavior the chapters draw on a range of sources from the Epic of Gilgamesh and Ovid's tale of Deucalion and Pyrrha to speculative fiction climate fiction and stories and art dwelling with environmental catastrophe Noah's Arkive uncovers the startling afterlife of the Genesis narrative written from the perspective of Noah's wife and family the animals on the ark and those excluded and so left behind to die This book of recovered stories speaks eloquently to the ethical and political burdens of living through the Anthropocene Following a climate change narrative across the millennia Noah's Arkive surveys the long history of dwelling with the consequences of choosing only a few to survive in order to start the world over It is an intriguing meditation on how the story of the ark can frame how we think about environmental catastrophe and refuge conservation and exclusion offering hope for a better future by heeding what we know from the past

Penda, Mercia's First King Paul Barrett, 2024-07-30 Since the Venerable Bede wrote his iconic Ecclesiastical History of England in the eighth century King Penda has been relegated to the role of villain and treated as a barrier to advancement in a battle between new ideas and a new culture Paul Barrett outlines the background to the Anglo Saxon takeover in England and explores the broad concepts of the Angles traditional culture before delving into the life of Penda 605-655 Penda's life spanned the first half of the seventh century the era which gave birth to national identities which still form the central components of modern Britain Wales Scotland and England all take shape through this period Penda's seemingly impossible ascent to prominence starts on the very periphery of power and ends with the dominance of Britain He is at the centre of Mercia's birth expansion and rise Throughout his reign his kingdom becomes a bastion of stability in a period of endemic warfare climate change challenges cultural competition and unstable nation to nation relationships Throughout his life Penda challenges the status quo and shows the value of cultural pluralism in a time when the growing power of a new faith Christianity was pushing all others into extinction Guided by his loyalty to an ancient culture service to his family and his powerful Queen Cynewise Penda launched Mercia towards eventual supremacy which would last for over 200 years He was the last of the great Anglo Saxon heathen warlords
