Heston, 2022-08-23 Wilderness periods of our lives those dry and desperate seasons when God seems distant and detached perhaps even indifferent or impotent can seem an abnormal and painful part of our lives that simply must be painfully plodded through and somehow endured Yet far from being something abnormal and life threatening like a cancer invading our bodies wilderness periods represent a fundamental element of our life in the Spirit and part of God's well orchestrated plan to guarantee that we become and possess everything he desires for us The Living Church, 2000-07

Outcomes of Faith During Hospitalization Reverend Dr. Hiltrude Nusser-Telfer, 2011-03-23 Chapter III presents eight case studies that identify and support the need for Professional Spiritual Care to undergird the work and healing methods of physicians and allied health professionals The case study method was the result of the encouragement of many patients and medical professionals over the course of fifteen years of ministry We are spiritual beings in a human body The spiritual assessment looks at a patient's medical condition social support system and religious affiliation including spiritual commitment to a belief in God In dealing with a devastating illness it is possible for patients to submit in trust and faith to believe in the God of Jesus Christ Prayer and faith are our protection from evil Due to our inherent insecurity we open ourselves up to fear which projects the wrong issues into our lives and encourages us to cop out from our intentions of protecting our soul and submitting to the will of God *The Catholic Library World* John M.
