Social Problems, Law, and Society Kathryn A. Stout, Richard A. Dello Buono, William J. Chambliss, 2004-07-14 This volume represents a critical issue oriented approach to law and society emphasizing its important relationship to contemporary social problems Various empirical studies within the text explore the contradictory dynamics of class as they relate to race and gender in both a national and global context illustrating the dialectical interplay between the state and social movements in the context of the larger political economy The Reactions to Crime Project, 1982 **Combat Stress Reaction** Zahava Solomon, 2013-03-09 In this highly readable text the author details the findings of an exhaustive series of studies of Israeli combat veterans documenting the effects of combat stress reaction on mental and physical health social interaction and military effectiveness In addition to providing mental health professionals trauma victims and military personnel with an unparalleled source of information the work's exploration of the cultural social and political processes affecting recovery from combat stress reaction offers a unique perspective of contemporary Israeli culture *Nuclear Reactions* Alvin M. Weinberg, 1992-11-18 Blurb Contents Marvelous reading with few problems of the interaction between science technology and society left untouched One need not always agree but one cannot come away without a better education I found the parts on scientific administration and on the interaction of science and society excellent and provocative reading and the parts on energy and nuclear energy very much to the point American Journal of Physics Alvin Weinberg explores through these collected essays the ever troublesome relationship between science technology and society The title is taken from Weinberg's assertion that most of the issues arising at the intersection of science and society depend upon answers to questions that lie outside the power of science issues that are trans scientific Weinberg who during World War II helped develop the first nuclear reactors has much to say on the current role of nuclear power and the possibilities for the future Other topics include

strategic defenses and arms control the role of the science administrator and the way in which time energy and resources are allocated to public problems In this remarkable record of a half century of public oriented work Weinberg lays the foundation for a philosophy of scientific administration parallel to the more established philosophy of science

Citizens' Reactions to European Integration Compared Elizabeth Frazer, Florence Haegel, Virginie Van Ingelgom, 2013-01-17 Pre financial crisis EU citizens were overlooking Europe ignoring it in favour of globalisation economic flows and crises of political corruption Innovative focus group methods allow an analysis of citizens reactions and demonstrate how euroscepticism is a red herring instead articulating an indifference to and ambivalence about Europe

Reactions to Crime Fred DuBow, Edward McCabe, Gail Kaplan, 1980 Reaction Peter King, 2012-04-30 To call someone a reactionary is to insult them and to end any argument There is no possible rejoinder no one could possibly wish to be a reactionary But what if one were to gratefully accept the label What would it mean to wilfully and honestly be a reactionary Referencing thinkers as diverse as Burke de Maistre Gu non Ratzinger Scruton and the Prince of Wales this book considers the nature of reaction as a justified response to modernity and the constant call for change Reaction is shown to take two distinct forms first as a rejection of progress and a defence of traditional culture and values and second as a common sense disquiet and distaste towards elites These are seen as entirely valid responses to the failure of modernity Reaction presents an original and thoughtful critique of modernity and a defence of tradition It will be of interest to anyone concerned that we are heading too far and too quickly in the wrong direction

Kennedy, 2020-04-14 Many people including some mental health professionals and service members themselves have the misconception that military deployment is highly likely to cause posttraumatic stress disorder PTSD This book gives practitioners a more nuanced understanding of military stress reactions and related mental health concerns from transient adjustment problems to clinical disorders Drawing on expert knowledge of military environments and culture Carrie H Kennedy provides vital guidance for evidence based assessment intervention and prevention Kennedy emphasizes that overdependence on the diagnosis of PTSD can lead to suboptimal care and shows how to tailor treatment to each service member s or veteran s needs A crucial addition to any practitioner s library the book is illustrated with numerous case vignettes

Public Reactions to Nuclear Waste Riley E. Dunlap, Michael E. Kraft, Eugene A. Rosa, 1993 Nuclear waste is going nowhere and neither is the debate over its disposal The problem growing every day has proven intractable with policymakers on one side armed with daunting technical data and the public on the other declaring not in my backyard This timely volume offers a look past our present impasse into the nature and roots of public viewpoints on nuclear waste disposal A much needed supplement to the largely technical literature on this problem the book provides extensive studies of the reaction of citizens whether rural or urban near site residents or prospective visitors to proposed nuclear waste sites around the nation particularly Nevada s Yucca Mountain Conducted by distinguished sociologists psychologists political scientists and economists these studies constitute the most comprehensive

account available of the impact of public perceptions and opinions on the nuclear waste policy process in the United States As such the collection will clarify the politics of nuclear waste siting and will give impetus to the stalled debate over the issue Contributors Rodney K Baxter Julia G Brody Bruce Clary Lori Cramer William H Desvousges Riley E Dunlap Douglas Easterling Judy K Fleishman James Flynn William R Freudenburg Michael E Kraft Richard S Krannich Howard Kunreuther Mark Layman Ronald L Little Robert Cameron Mitchell Alvin H Mushkatel Joanne M Nigg K David Pijawka Eugene A Rosa Paul Slovic

The Sociology of Social Problems Adam Jamrozik, Luisa Nocella, 1998-07-13 Social problems such as unemployment poverty and drug addiction are a fact of life in industrialised societies This book examines the sociology of social problems from interesting and challenging perspectives It analyses how social problems emerge and are defined as such who takes responsibility for them who is threatened by them and how they are managed solved or ignored The authors examine and critique existing theories of social problems before developing their own theoretical framework Their theory of residualist conversion of social problems explains how certain social problems threaten legitimate power structures so that problems of a social or political nature are transformed into personal problems and the helping professions are left to intervene This book will become a key reference on class inequality and social intervention and an important text for students in sociology and social work courses
