Women's Diaries from the Civil War South Sharon Talley, 2023-08-18 Traditionally narratives of war have been male Sharon Talley writes In the pages that follow she goes on to disrupt this tradition offering close readings and comparative studies of fourteen women's diaries from the Civil War era that illuminate women's experiences in the Confederacy during the war While other works highlighting individual diaries exist and Talley notes that there has been a virtual explosion of published primary sources by women in recent years this is the first effort of comprehensive synthesis of women's Civil War diaries to attempt to characterize them as a distinct genre Deeply informed by autobiographical theory as well as literary and social history Talley's presentation of multiple diaries from women of differing backgrounds illuminates complexities and disparities across female wartime experiences rather than perpetuating overgeneralizations gleaned from a single diary or preconceived ideas about what these diaries contain To facilitate this comparative approach Talley divides her study into six sections that are organized by location vocation and purpose diaries of elite planter women diaries of women on the Texas frontier diaries of women on the Confederate border diaries of espionage by women in the South diaries of women nurses near the battlefield and diaries of women missionaries in the Port Royal Experiment When read together these writings illustrate that the female experience in the Civil War South was not one but many Women's Diaries from the Civil War South A Literary Historical Reading is an essential text for scholars in women's studies autobiography studies and Civil War studies alike presenting an in depth and multifaceted look at how the Civil War reshaped women's lives in the South and how their diverse responses shaped the course of the war in return Playing House in the American West Cathryn Halverson, 2013-11-26 Examines an eclectic group of western women's autobiographical texts canonical and otherwise Playing House in the American West argues for a distinct regional literary tradition characterized by strategic representations of unconventional domestic life The controlling metaphor Cathryn Halverson uses in her engrossing study is playing house From Caroline Kirkland and Laura Ingalls Wilder to Willa Cather and Marilynne Robinson from the mid nineteenth to the late twentieth centuries western authors have persistently embraced wayward or eccentric housekeeping to prove a woman's difference from western neighbors and eastern readers alike The readings in Playing House investigate the surprising textual ends to which westerners turn the familiar terrain of the home evaluating community arguing for different conceptions of race and class and perhaps most especially resisting traditional gender roles Western women writers Halverson argues render the home as a stage for autonomy resistance and imagination rather than as a site of sacrifice and obligation The western women examined in Playing House in the American West are promoted and read as representatives of a region as insiders offering views of distant and intriguing ways of life even as they conceive of themselves as outsiders By playing with domestic conventions they recast the region they describe portraying the West as a place that fosters female agency individuality and subjectivity Rethinking American Indian History Donald Lee Fixico, 1997 Using innovative

methodologies and theories to rethink American Indian history this book challenges previous scholarship about Native Americans and their communities      Life at Four Corners Carol Coburn,1992 Defined less by geography than by demographic character Block Kansas in many ways exemplifies the prevalent yet seldom scrutinized ethnic religion based community of the rural Midwest Physically small the town sprang up around four corners formed by crossroads Spiritually strong and cohesive it became the educational and cultural center for generations of German Lutheran families In this book Carol Coburn analyzes the powerful combination of those ethnic and religious institutions that effectively resisted assimilation for nearly 80 years only to succumb to the influences of the outside world during the 1930s and 1940s Emphasizing the formal and informal education provided by the church school and family she examines the total process of how values identities and all aspects of culture were transmitted from generation to generation      **The Children's Civil War** James Alan Marten,2000-10-01 The Children s Civil War is an exploration of childhood during our nation s greatest crisis James Marten describes how the war changed the literature and schoolbooks published for children how it affected children s relationships with absent fathers and brothers how the responsibilities forced on northern and especially southern youngsters shortened their childhoods and how the death and destruction that tore the country apart often cut down children as well as adults      Women Studies Abstracts ,1985      Ohio History ,1982 Various issues contain book reviews      **The Re-invention of the American West** Noriko Suzuki,2009 Re Invention of the American West Women s Periodicals and Gendered Geography in the Late Nineteenth Century United States      South Dakota History ,1983      **The American Humanities Index** Stephen H. Goode,1985      Evolution Toward Equality Teresa Neal,2006-03 Women in the United States did not receive national suffrage until 1920 At that time 13 of the 15 states that had already granted suffrage were west of the Mississippi River Women not only received voting rights first in the western United States but they had meaningful property rights as well This may seem odd if we consider the Hollywood enhanced images we may have of the wild west where men roamed wild with guns and whisky So why were women able to achieve such success in equal rights Why was the first woman governor from Wyoming now known as the equality state Evolution Toward Equality explores the many factors that led to these phenomena Certainly the environment had a facilitating effect Women were often required to do many of the same outdoor tasks that their fathers husbands and brothers performed They worked side by side and expected to be treated equally Daughters often spent the day working with their fathers and brothers earning their respect and learning self assurance and independence When they later left home and married they expected to be treated in the same manner Follow this interesting revolution as Neal guides us through the stories and history of women s rights in the western United States during the 19th and early 20th Centuries      Books in Print Supplement ,1985      America, History and Life ,1985      *Read this Only to Yourself* Elizabeth Hampsten,1996      *Read This Only to Yourself* Elizabeth Hampsten,      Books in Print ,1982      Arts & Humanities Citation Index ,1986 A multidisciplinary index covering the journal literature of the arts and
