How is children's literature defined as a genre? A leading scholar presents close readings of six classic stories to answer these questions and offer a clear definition of children's writing as a distinct literary form. Perry Nodelman begins by considering the plots, themes, and structures of six works: *The Purple Jar*, *Alice in Wonderland*, *Dr Doolittle*, *Henry Huggins*, *The Snowy Day*, and *Plain City*, all written for young people of varying ages in different times and places to identify shared characteristics. He points out markers in each work that allow the adult reader to understand it as a children's story, shedding light on ingrained adult assumptions and revealing the ways in which adult knowledge and experience remain hidden in apparently simple and innocent texts. Nodelman then engages a wide range of views of children's literature from authors, literary critics, cultural theorists, and specialists in education and information sciences. Through this informed dialogue, Nodelman develops a comprehensive theory of children's literature, exploring its commonalities and shared themes. *The Hidden Adult* is a focused and sophisticated analysis of children's literature and a major contribution to the theory and criticism of the genre. *The Hidden History of South Africa's Book and Reading Cultures* Archie L. Dick, 2013-06-17 *The Hidden History of South Africa's Book and Reading Cultures* shows how the common practice of reading can illuminate the social and political history of a culture. This ground-breaking study reveals resistance strategies in the reading and writing practices of South Africans, strategies that have been hidden until now for political reasons relating to the country's liberation struggles. By looking to records from a slave lodge, women's associations, army education units, universities, courts, libraries, prison departments, and political groups, Archie Dick exposes the key works of fiction and non-fiction, magazines and newspapers that were read and discussed by political activists and prisoners. Uncovering the book and library schemes that elites used to regulate reading, Dick exposes incidences of intellectual fraud, book theft, censorship, and book burning. Through this innovative methodology, Dick aptly shows how South African readers used reading and books to resist unjust regimes and build community across South Africa's class and racial barriers. *Hidden Springs. Patronage and Poetry in the Islamic World
Jocelyn Sharlet, 2011-06-13 Panegyric poetry in both Arabic and Persian was one of the most important genres of literature in the medieval Middle East and Central Asia Jocelyn Sharlet argues that panegyric poetry is important not only because it provides a commentary on society and culture in the medieval Middle East but also because panegyric writing was one of the key means for individuals to gain social mobility and standing during this period This is particularly so within the context of patronage a central feature of social order during these times Sharlet places the medieval Arabic and Persian panegyric firmly within its cultural context and identifies it as a crucial way of gaining entry to and movement within this patronage network This is an important contribution to the fields of pre-modern Middle Eastern and Central Asian literature and culture
