Commandery of the State of Illinois, 1902 English in context , *Books and Religious Devotion* Allan F.

Westphall, 2015-02-05 In *Books and Religious Devotion* Allan Westphall presents a study of the book collecting habits and annotation practices of Thomas Connary an Irish immigrant farmer who lived in New Hampshire in the latter half of the nineteenth century Connary led a pious life that revolved around the use annotation and sharing of religious books His surviving annotated volumes provide a revealing glimpse into the utility of books for a common reader and they show how one remarkable eccentric reader turned religious books into near icons Through a careful excavation of book adaptations and enhancements Westphall gives us insight into the range of opportunities provided by the material book for recording and communicating Connary's religious fervor The study also investigates the broader nineteenth century cultural setting in which books are seen as testimonies of personal faith and come to function as instruments of social interaction in both domestic and public spheres Underlying Connary's many and varied interactions with books is his belief that working in books as physical objects can be a devout exercise instrumental in human salvation The World of South African Music Christine Lucia, 2009-03-26 The present Reader is a selection of texts on South African music which are chosen not only for their importance or the frequency of citations but with the express purpose of providing the reader with a deep understanding of the music itself Consequently there are readings that are chosen because they have been influential but

there are also many which though published have not enjoyed very wide circulation There are those which are of obvious historic interest and others which speak to contemporary issues Among other things the volume provides an excellent sense of the varying ideologies and approaches that determine the relationship between author and subject The reader is indispensable to scholars and enthusiasts of South African music and it is of great interest to ethnomusicologists more generally It is also an excellent resource for those who do not have immediate access to harder to find articles and is perhaps most vital to those who are looking to find a way into the world of South African music
