A Cognitive Approach to Ernest Hemingway's Short Fiction Gabriela Tucan,2021-04-09 How do readers make sense of Hemingway s short stories How is it possible that the camera like quality of his narrative can appeal to our senses and arouse our emotions How does it capture us With reserved narrators and protagonists engaged in laconic dialogs his texts do not seem to say much This book consciously revisits our responses to the Hemingway story a belated response to his invitation to discover what lies beneath the surface of his iceberg What this pioneering critical endeavor seeks to understand is the thinking required in reading Hemingway s short fiction It proposes a cognitively informed model of reading which questions the resources of the reader s imaginative powers The cognitive demonstrations here are designed to have potentially larger implications for the short story s general mode of knowing Drawing from both cognitively oriented poetics and narratology in equal measure this book explains what structures our interaction with literary texts

Why Literature? Cristina Vischer Bruns,2011-05-05

Deeper Learning, Dialogic Learning, and Critical Thinking Emmanuel Manalo,2019-09-30 Deeper learning dialogic learning and critical thinking are essential capabilities in the 21st century environments we now operate Apart from being important in themselves they are also crucial in enabling the acquisition of many other 21st century skills capabilities such as problem solving collaborative learning innovation information and media literacy and so on However the majority of teachers in schools and instructors in higher education are inadequately prepared for the task of promoting deeper learning dialogic learning and critical thinking in their students This is despite the fact that there are educational researchers who are developing and evaluating strategies for such promotion The problem is bridging the gap between the educational researchers work and what gets conveyed to teachers and instructors as evidence based usable strategies This book addresses that gap in it leading scholars from around

the world describe strategies they have developed for successfully cultivating students capabilities for deeper learning and transfer of what they learn dialogic learning and effective communication and critical thought They explore connections in the promotion of these capabilities and they provide in accessible form research evidence demonstrating the efficacy of the strategies They also discuss answers to the questions of how and why the strategies work A seminal resource this book creates tangible links between innovative educational research and classroom teaching practices to address the all important question of how we can realize our ideals for education in the 21st century It is a must read for pre service and in service teachers teacher educators and professional developers and educational researchers who truly care that we deliver education that will prepare and serve students for life *Classroom Notes Plus* ,2002 **Fiction** Laurie G.
