Reading Dido Gender Textuality And Medieval Aeneid:

Reading Dido Marilyn Desmond, 1994 **Reading Dido** Marilyn Desmond, 1994 *Dido's Daughters* Margaret W. Ferguson, 2007-11-01 Winner of the 2004 Book Award from the Society for the Study of Early Modern Women and the 2003 Roland H Bainton Prize for Literature from the Sixteenth Century Society and Conference Our common definition of literacy is the ability to read and write in one language But as Margaret Ferguson reveals in *Dido's Daughters* this description is inadequate because it fails to help us understand heated conflicts over literacy during the emergence of print culture The fifteenth through seventeenth centuries she shows were a contentious era of transition from Latin and other clerical modes of literacy toward more vernacular forms of speech and writing Ferguson's aim in this long awaited work is twofold to show that what counted as more valuable among these competing literacies had much to do with notions of gender and to demonstrate how debates about female literacy were critical to the emergence of imperial nations Looking at writers whom she dubs the figurative daughters of the mythological figure Dido builder of an empire that threatened to rival Rome Ferguson traces debates about literacy and empire in the works of Marguerite de Navarre Christine de Pizan Elizabeth Cary and Aphra Behn as well as male writers such as Shakespeare Rabelais and Wyatt The result is a study that sheds new light on the crucial roles that gender and women played in the modernization of England and France **Gender and Text in the Later Middle Ages** Jane Chance, 2019-11-07 The women who spoke or wrote in the margins of the Middle Ages women who were oppressed and diminished by social and religious institutions often were not literate Or if they could read they did not know how to write Transforming or subverting Western and patristic traditions associated with the clergy they also turned to Eastern and North African traditions and to popular oral theater and focused in their choice of genre on lyric romance and confessional autobiography These essays analyze their texts and reconstruct a medieval feminine aesthetic that begins a rewriting of cultural and literary history **Virgil in the Renaissance** David Scott Wilson-Okamura, 2010-08-12 The disciplines of classical scholarship were established in their modern form between 1300 and 1600 and Virgil was a test case for many of them This book is concerned with what became of Virgil in this period how he was understood and how his poems were recycled What did readers assume about Virgil in the long decades between Dante and Sidney Petrarch and Spenser Boccaccio and Ariosto Which commentators had the most influence What story if any was Virgil's Eclogues supposed to tell What was the status of his Georgics Which parts of his epic attracted the most imitators Building on specialized scholarship of the last hundred years this book provides a panoramic synthesis of what scholars and poets from across Europe believed they could know about Virgil's life and poetry *Anthology of Ancient Medieval Woman's Song* A. Klinck, 2004-04-16 This collection focuses on a woman's point of view in love poetry and juxtaposes poems by women and poems about women to raise questions about how femininity is constructed Although most medieval woman's songs are either anonymous or male authored lyrics in a popular style the term can usefully be expanded to cover poetry composed by
