Introduction to Cataloging and Classification Daniel N. Joudrey,Arlene G. Taylor,David P. Miller,2015-09-29 A new edition of this best selling textbook reintroduces the topic of library cataloging from a fresh modern perspective Not many books merit an eleventh edition but this popular text does Newly updated Introduction to Cataloging and Classification provides an introduction to descriptive cataloging based on contemporary standards explaining the basic tenets to readers without previous experience as well as to those who merely want a better understanding of the process as it exists today The text opens with the foundations of cataloging then moves to specific details and subject matter such as Functional Requirements for Bibliographic Records FRBR Functional Requirements for Authority Data FRAD the International Cataloging Principles ICP and RDA Unlike other texts the book doesn t presume a close familiarity with the MARC bibliographic or authorities formats ALA s Anglo American Cataloging Rules 2nd Edition revised AACR2R or the International Standard Bibliographic Description ISBD Subject access to library materials is covered in sufficient depth to make the reader comfortable with the principles and practices of subject cataloging and classification In addition the book introduces MARC BIBFRAME and other approaches used to communicate and display bibliographic data Discussions of formatting presentation and administrative issues complete the book questions useful for review and study appear at the end of each chapter 21 Days in Normandy Angelo Caravaggio,2016-08-30 Right s some of the injustices done to the Canadians on their maligned actions during the Invasion of Normandy An absorbing account Firetrench The Canadian Fourth Armoured Division crossed the Channel in July 1944 to support the invading forces and assist in the Allied attempts to break out of the Normandy beachhead They were heavily engaged in Operation Totalize and Operation Tractable but have been criticized for their failure to close the Falaise gap and complete the entrapment of withdrawing German forces Their commander Major General George Kitching was relieved of his command after just twenty one days in action Angelo Caravaggio reexamines the division s performance and particularly that of its leadership Using new information he establishes that despite entering battle for the first time during one of the most challenging phases of Allied operations in August 1944 the 4th Armoured Division under Kitching s leadership proved resilient and adaptive in overcoming the volatile and unpredictable nature of warfare in Normandy The combat operations of August 1944 transformed the division into a battle hardened combat formation that would later distinguish itself through its ability to generate a sustained drive across France out of the chaos and destruction of the Normandy battles The author uses new information to demonstrate the unit did show flexibility and adapted to the battlefield

quickly despite being thrown into battle during one of the Normandy Campaign's critical phases His arguments are detailed and based upon in depth research and the book has many detailed maps to help the reader follow the action Warfare History Network

Sovereignty for Survival James Robert Allison, 2015-10-20

In the years following World War II many multi national energy firms bolstered by outdated U S federal laws turned their attention to the abundant resources buried beneath Native American reservations By the 1970s however a coalition of Native Americans in the Northern Plains had successfully blocked the efforts of powerful energy corporations to develop coal reserves on sovereign Indian land This challenge to corporate and federal authorities initiated by the Crow and Northern Cheyenne nations changed the laws of the land to expand Native American sovereignty while simultaneously reshaping Native identities and Indian Country itself James Allison makes an important contribution to ethnic environmental and energy studies with this unique exploration of the influence of America's indigenous peoples on energy policy and development Allison's fascinating history documents how certain federally supported often environmentally damaging energy projects were perceived by American Indians as potentially disruptive to indigenous lifeways These perceived threats sparked a pan tribal resistance movement that ultimately increased Native American autonomy over reservation lands and enabled an unprecedented boom in tribal entrepreneurship At the same time the author demonstrates how this movement generated great controversy within Native American communities inspiring intense debates over culturally authentic forms of indigenous governance and the proper management of tribal lands

The Covenants of the Prophet Muhammad Ibrahim Mohamed Zein, Ahmed El-Wakil, 2022-12-30

Through analysis of the Covenants of the Prophet Muhammad which pledge protection to diverse faith communities this book makes a profoundly important contribution to research on early Islam by determining the Covenants historicity and textual accuracy The authors focus on the Prophet Muhammad's relationship with other faith communities by conducting detailed textual and linguistic analysis of documents which have received little scholarly consideration before This not only includes decrees of the Prophet Muhammad Umar ibn al Kha

b Al ibn Ab lib and Mu wiya ibn Ab Sufy n but also of important Muslim rulers They present their findings in relation to contemporaneous historical writings historic testimonies official recognition archaeological evidence historic scribal conventions date matching calculations textual parallelisms and references in Muslim and non Muslim sources They also provide new and revised translations of various Covenants issued by the Prophet Mu ammad which were attested by Muslim authorities after him The authors argue that the claim of forgery is no longer tenable following the application of rigorous textual and historical analysis This book is essential reading for Muslims Christians Jews Samaritans and Zoroastrians as well as anyone interested in interfaith relations Islamophobia extremist ideologies security studies and the relationship between Orthodox and Oriental Christianity with Islam Managing Digital Audiovisual Resources Matthew C. Mariner, 2014-03-12 The demand from library users for audiovisual materials and remote access combined with the unceasing deterioration and inaccessibility of many audiovisual formats requires libraries to adapt their collections to meet current and future demands While this changing landscape of digitization and resource management may seem daunting it represents an opportunity to bolster a library's relevancy and competitiveness Managing Digital Audiovisual Resources fills a gap as a single concise guide for real world basics broad concepts and practical needs from technologies to collections to promotion The easy to read book is geared towards the ongoing management of digital audiovisual resources presenting real world scenarios and ways to think through balancing all of the many factors and needs for these collections dealing with limited resources materials with different levels of significance materials facing different levels of preservation risk factors for decision making and resources for other options The book takes a procedural and example rich approach to the management of digital audiovisual resources It covers the selection of resources for digitization how to managedigitization of physical audiovisual collections how to select the best platforms for preservation and presentation and how to market collections once they are accessible Among other useful features this guide will provide readers with Illustrated digitization workflows Comprehensive lists and illustrated descriptions of equipment and formats Real world case studies Common U S copyright situations and Resources for further study and assistance *Communication Cables and Related Technologies* Alan Harmer, 1999 The subject Fibre optic cables forms a major part of the conference and continues to progress with many new developments Topics include new designs and cable formats very high density fibre cables for the access network and buildings special cables for particular applications installation in ducts or as aerial cables replacement and repair of cables field testing PMD measurements and OTDR network monitoring and fault finding test equipment and connector and splicing techniques The planning installation and maintenance of cables and associated hardware form the vital core of a successful network This subject addresses the issues of planning and design using new tools such as artificial intelligence reliability preventive maintenance and strategies for maintenance installation issues and costs Materials development is vital for the communications cable industry Subjects considered are new materials technology polymeric materials coating and filling technology fabrication techniques and
