On March 2, 2010, the Secretary of Defense appointed the two editors to co chair a working group to undertake a comprehensive review of the impacts of repeal should it occur of Section 654 of Title 10 of the U.S. Code commonly known as the Don't Ask, Don't Tell law. Their assignment was two fold: 1. assess the impact of repeal of Don't Ask, Don't Tell on military readiness, military effectiveness, unit cohesion, recruiting, retention and family readiness and 2. recommend appropriate changes if necessary to existing regulations, policies and guidance in the event of repeal. This document constitutes their report of that assessment and their recommendations. This is a print on demand edition of an important hard to find report. *Cruising Through Research* John D. Volkman, 1998-01-15. Teaching research skills is a breeze with these fun reproducible lessons. Through a variety of engaging projects, students experience and learn research techniques that they can use throughout their lives. In one lesson, they take a treasure hunt approach consulting standard library materials such as Current Biography Dictionary of American History, Bartlett's Familiar Quotations and Contemporary Authors to find answers to a series of reference questions. In another, students write letters, term papers in disguise that describe in detail a future cruise. In the process, they learn how to take notes and combine facts to produce an interesting paper and an accurate bibliography. Projects include topics for science, foreign language, social science and language arts. **The ... Education is a positive construct which empowers people to make use of its potentialities in the best ways to achieve excellence. Research in this endeavour tries to resolve various problems related to education, educational process and educational advancements. Thereby keeping education updated and advanced in turn preparing updated, positive and constructive citizens of the society. Today an educated person is expected to be equipped with the most advanced knowledge, skills, humane values and digitalisation including evaluation of existing policies and bringing out components/variables to be covered by forthcoming policies. Thus research is positively correlated with the human and material development ensuring humane and developed society. The strength of an institution is reflected by the researches undertaken by the members over there. It gives me immense pleasure to note that survey of research abstracts in Faculty of Education, Banaras Hindu University has been completed and ready for its publication in hard and soft mode. The present volume includes 256 abstracts since 1952 including most recent D.Litt. abstract in education. This survey no doubt presents a trend of researches under study. These abstracts will certainly pave educational paths to solving recent educational issues. A commendable contribution has

been done by the team of publication This will have a long term impact on future researchers Moreover preservation of research knowledge covering 33 identified educational areas and its dissemination were much needed and expected for the cause of quality research I am sure the volume will serve its qualitative purpose to researchers teachers administrators and policy makers in India and abroad We are grateful to Prof D P Singh Chairman University Grants Commission New Delhi India for writing foreword for this volume and motivating us I convey my heartfelt gratitude to all the members of publication team for their concerted efforts in bringing out this precious volume Date 13th April 2020 Prof R P Shukla Banaras Hindu University Head and Dean Varanasi 10 Faculty of Education
