Keyboard Warriors Graham Edward Geddes, 2016-08-17 The far right English Defence League EDL is a strange product of global and local dynamics most prominently the War on Terror While the EDL has become well known for its high profile Islamophobic demonstrations within local communities the bulk of its day to day activity occurs online within its social networking sites between supporters referred to as keyboard warriors Keyboard warriors activities are confined to the virtual realm and they are unlikely to attend EDL events in physical space such as demonstrations This book explores the kind of Islamophobic identity that is produced by EDL supporters within the networking sites and focuses on how this identity is constructed around insecurities that are central to the lives of this population EDL supporters can be identified as members of the working class that have experienced significant ontological insecurity since the 1980s as a consequence of globalisation and related deindustrialisation Working class identity has been weakened in contrast to the post war era when stronger roles could be located for such groups Adrift in a post industrial landscape located in an ethno religious war attached to feelings of class and national pride and now mediated by new social networking systems the insecurities of these sections of the white working class have become attached to a construct of Islamic identity that is defined as essentially immoral and dangerous This attribution of otherness however is not restricted merely to Muslims but is applied to any perceived anti EDL agent including the government and the police which are aggregated into a hegemonic foe that persecutes the English nation and facilitates Islamic expansionism The central theme of the book is that new media systems have become critical to an understanding of extreme political identities and the expansion of worldviews in which inter group conflict is amplified while also offering a sense of meaning and self esteem for those involved

Works of Samuel Warren: Passages from the diary of a late physician Samuel Warren, 1867 *Understanding Terrorism Innovation and Learning* Magnus Ranstorp, Magnus Normark, 2015-04-24 This book examines the role of terrorist innovation and learning in theory and practice and in the context of three specific EU case studies It is often said that terrorist groups are relatively conservative in character operating in a technological vacuum relying almost exclusively on bombs and bullets This observation masks increasing complexity and creativity and innovation

within terrorist groups and one of the most distinguishing features of al Qaeda's terrorist operations is its propensity for remarkable innovation. This book examines how and why terrorist groups innovate more generally and al Qaeda related terrorist plots in Europe more specifically. The starting point for this book was twofold. Firstly to examine the issue of innovation and learning more generically both in theory within specific themes and within the context of al Qaeda's influence on this process. Secondly this book examines the evolution of specific al Qaeda related plots in three specific northern EU states: the United Kingdom, Denmark and Germany where there has been a significant volume of planned, failed and executed terrorist plots. In particular, these case studies explore signs of innovation and learning. This book will be of much interest to students of terrorism and counter terrorism, political violence, security studies and IR in general.

[Riding in Release](#) Kate Sandel, 2022-03-28. *Riding in Release* considers the relationship between two significant traditions of riding and horse training: The French Classical School and horsemanship born out of the Vaquero and Buckeroo lineage. Both traditions are founded on the development of a partnership with a horse which enables lightness of foot and thought. This book provides useful insights for riders of all levels, whether you want to hack out in harmony or improve your half-pass with clear practical step-by-step instructions and advice. Topics covered include consideration of the similarities of the traditions and why this is useful for modern riders to understand how horses move, think and feel, and how this knowledge is useful to us. Foundational handling up to high school common themes, the human side of the partnership, how to make sense to our horse and be someone he wants to learn from, and how to help our horse develop a greater ease of movement without the use of gadgets or force. There are detailed explanations of straightness, balance and dynamic posture along with step-by-step guidance on teaching the language of the aids, tapping into your horse's amazing capacity to learn. Finally, the development of good feeling between you and your horse through logical application that respects a horse's emotional life as well as his physical body is covered.

Embracing the Passion Nigel Pimlott, 2015-02-28. Convention suggests it is best not to talk about faith and politics; this book talks about both. It argues that Jesus was a political figure who championed the rights of the marginalised, the oppressed and voiceless. In this challenging and accessible book, Nigel Pimlott argues young people are often marginalised, oppressed and rarely heard in a world favouring the rich and powerful. Young people are opinionated, passionate about what they think is right and wrong, and are concerned about the world they live in. Yet research indicates young people are disengaged from mainstream political

processes where they can express their views young adults have stopped voting in elections in unprecedented numbers This is something of a paradox Nigel contends that by more effectively equipping Christian youth workers and ministers to do politicking they will be able to better equip and disciple young people to be more politically engaged in their own contexts This unique research based book provides a concise overview of how youth workers might best help young people flourish and realise the common good It engages those interested in politics and more importantly encourages those not interested to get interested and make a difference in the world **Policing large scale disorder** Great Britain: Parliament: House of Commons: Home Affairs Committee,2011-12-22 Additional written evidence is contained in volume 3 available on the Committee website at www.parliament.uk/homeaffairscom
