Reflections From A Snowhouse:

Labrador Memoir of Dr Harry Paddon, 1912-1938 Harry Paddon, 2003 Dr Harry Paddon's memoir is an extensive account of life in Labrador prior to its entry into Confederation. As the Grenfell Mission's principal physician for over twenty-five years, Dr Paddon travelled extensively throughout Labrador by both dog team and boat. Through his journals, he fashions a portrait of Labrador society in accord with the traditional rhythms of trapping and fishing as it was before the onset of industrial development. He also chronicles the demands of northern medicine in response to pervasive threats such as tuberculosis and deficiency diseases, including a moving description of the Spanish Flu epidemic of 1918-19. Paddon's memoir gives the reader a sense of the resident Innu, Inuit, and settler communities as well as the prevailing institutions of non-governmental authority: the Hudson's Bay Company, the Moravian Mission, and the International Grenfell Association. At a time when Labrador is undergoing further industrial development and social change, his writings, carefully edited and annotated by Ronald Rompkey, the biographer of Sir Wilfred Grenfell, capture the heart of the region and its people.

Vikings to U-Boats Gerhard P. Bassler, 2006-10-06 *Vikings to U-Boats* explores the colony's hidden multicultural history, examining both sides of the German Newfoundland Labrador experience. From first recorded contacts to the end of World War II, Bassler traces the lives of German-speaking fishermen, musicians, doctors, engineers, and entrepreneurs. He reconstructs the historical reality behind U-Boat and spy stories and analyses the change in status of the colony's German-speaking people from neighbours to enemy aliens. *Vikings to U-Boats* challenges the assumption that the history of Newfoundland and Labrador was shaped solely by English speakers from the British Isles.

The Story of Labrador Bill Rompkey, William Rompkey, 2005-05 Newfoundland and Labrador are like two uneasy stepsisters, each with its own distinct identity, trying to share a common house. Using original research, including personal interviews and drawing on his forty-year association with Labrador, Bill Rompkey explores this relationship in the context of the region's unique racial, geographical, political, and social history. Rompkey charts the rise of Labrador as a giant in Canada's near north. He looks at the impact of the region's vast natural resources, which includes the recently discovered nickel mine at Voisey's Bay, the largest in the world, and Ramah chert, a choice stone the Aborigines traded thousands of years ago. *The Story of Labrador* is also the story of Inuit caribou hunters and people of the seal, French fishermen, and Basque whalers, settlers, traders, and absentee governors. It is the story of great Canadian construction projects like the Quebec North Shore and Labrador Railway, the rich iron ore operations at Labrador City and Wabush, and Churchill Falls, which was the largest hydro project in the world when it was created.

Twentieth-century Newfoundland James Hiller, Peter Neary, 1994 *Twentieth Century Newfoundland Explorations* brings together ten papers by eight well-known historians of Newfoundland and Labrador. The papers address a wide variety of subject matter and open many avenues for further research. The book concludes with an extensive bibliography on the Newfoundland and Labrador in the Twentieth century. This bibliography is organized by topic and will serve the needs of the general reader and specialists.
