Impressions in Love's Reflection Cherie Leigh, 2020-12-07 It becomes obvious to anyone who gets to know me that I am a

hopeless romantic I am not sure what instigated my sentimentality over love and romance but I have an affinity for all things that exhibit the beautiful qualities of passion The incredible holding power of love should not be taken for granted even as it can either profoundly entice or greatly elude The full effects of love s intensity move me with deep appreciation Some may say that I live in a fantasy world with my notions about romantic love but I don t let that bother me I just hop on my magical unicorn and ride off into the sunset I use my poetry to express intensity of emotions whether it be to entice delight mystify enlighten ache or touch Sometimes even through love s painful experiences there can be profound beauty taken from it that leaves lasting impressions For love in all its reflections has much to teach us about its purpose as the most powerful force in existence Since the beginning of time as we know it it has lived and breathed its testimony serving to inspire This collection of poetry came together for publication from encouragement from friends and fellow peer poets who believe in me I have always enjoyed writing but the past few years have been pivotal times of creativity I have changed from a woman seeking deliverance from pain to a woman experiencing inexplicable passion The obsession of love has become an innate part of my personality that needs to express itself in words I guess you could say I am smitten about anything written about love My hope is for the readers of my poetry to experience an emotional connection or perhaps find release through my various themes of love Some of my love poems take on a tone of spirituality while others embrace aspects of sensuality But all show phases and faces of love in need of expression For as mysterious as love can be it always makes its presence known in one form or another with unmistakable impact Welcome to my world of Passionate Impressions in Love s Reflection

Fountain,2012-12-06 In the Fall of 1988 64 geologists and geophysicists from 11 countries met in Killarney Ontario on the north shore of Lake Huron to examine evidence that suggests that the continental crust is exposed in cross section at several key locations on the Earth s surface The meeting which was held under NATO auspices as an Advanced Study Institute was a landmark event in that it was the first time that many of the lead scientists working on these complexes in relative isolation around the world had ever gathered together to compare results The present volume is a compendium of the invited lectures given on the principle sections plus an array of supporting papers on these and other sections as well as on related topics such as crustal emplacement mechanisms deformation and rheology Nearly all of the best known sections are represented including the Ivrea Zone Calabria the Kapuskasing Zone Fiordland and many others It is our hope that this Volume will serve as a reference for Earth scientists who are trying to understand levels of the crust not normally exposed to view as well as a point of departure for new research and a teaching aid to new entrants in this relatively new field of study **Basement**
