Reform In Nineteenth Century China:

Reform in Nineteenth-century China Harvard University. East Asian Research Center, 1976 Proceedings of a workshop held under the auspices of the East Asian Research Center at Harvard University July 7 18 1975 **Reform in Nineteenth-Century China** John E. Schrecker, 2020-03-17 An edited volume consisting of 33 papers presented at Harvard University's East Asian Research Center's 1975 workshop on reform in China in the nineteenth century The book is divided into eight parts each with a general thematic introduction several essays on more specialized topics and a summary of the discussion that took place at the conference *Speaking of Profit* William T. Rowe, 2020-10-26 In the first half of the nineteenth century the Qing Empire faced a crisis It was broadly perceived both inside and outside of government that the prosperous age of the eighteenth century was over Bureaucratic corruption and malaise population pressure and food shortages ecological and infrastructural decay domestic and frontier rebellion adverse balances of trade and eventually a previously inconceivable foreign threat from the West seemed to present hopelessly daunting challenges This study uses the literati reformer Bao Shichen as a prism to understand contemporary perceptions of and proposed solutions to this general crisis Though Bao only briefly and inconsequentially served in office himself he was widely recognized as an expert on each of these matters and his advice was regularly sought by reform minded administrators From examination of his thought on bureaucratic and fiscal restructuring agricultural improvement the grain tribute administration the salt monopoly monetary policy and foreign relations Bao emerges as a consistent advocate of the hard nosed pursuit of material profit in the interests not only of the rural populace but also of the Chinese state and nation anticipating the arguments of self strengthening reformers later in the century Radicalism and Education Reform in 20th-Century China Suzanne Pepper, 2000-07-10 The first comprehensive book to cover the whole sweep of twentieth century Chinese education The Cambridge History of China Roderick MacFarquhar, John King Fairbank, 1987 *China's Economic Future* Joint Economic Committee Congress of the United States, 2016-12-05 This is the latest Joint Economic Committee volume on the Chinese economy With the current state of US China relations and Hong Kong's accession in 1997 the study should provide policy makers in the USA with a useful tool in guiding economic policy toward China Discovering History in China Paul A Cohen, 2010-04-29 Since its first publication Paul A Cohen's *Discovering History in China* has occupied a singular place in American China scholarship Translated into three East Asian languages the volume has become essential to the study of China from the early nineteenth century to today Cohen critiques the work of leading postwar scholars and is especially adamant about not reading China through the lens of Western history To this end he uncovers the strong ethnocentric bias pervading the three major conceptual frameworks of American scholarship of the 1950s and 1960s the impact response modernization and imperialism approaches In place of these Cohen favors a China centered approach in which historians understand Chinese history on its own terms paying close attention to Chinese historical trajectories and Chinese perceptions of their problems rather than a

set of expectations derived from Western history In an important new introduction Cohen reflects on his fifty year career as a historian of China and discusses major recent trends in the field Although some of these developments challenge a narrowly conceived China centered approach insofar as they enable more balanced comparisons between China and the West and recast the Chinese and their history in more human less exotic terms they powerfully affirm the central thrust of Cohen s work

Reform in 19th-century China Paul A. Cohen, John E. Schrecker, 1976

Translating Science David Wright, 2000

This fascinating richly illustrated account of the translation of Western science particularly chemistry into late nineteenth century China provides new insights both into the lives of the Chinese and foreign translators and into the processes and influences of science translation

Historical Dictionary of Modern China (1800-1949) James Z. Gao, 2009-06-16

The Historical Dictionary of Modern China 1800 1949 offers a concise but comprehensive examination of the political military economic social and cultural development of modern China Instead of focusing merely on the political elites of China this reference covers a variety of significant persons including women and ethnic minorities new historical concepts cultural and educational institutions and economic activities Drawing on newly available records including a large mass of governmental and family archives the narratives presented reveal new facts offer a new interpretation in accordance with China s modernization process during the late Qing period and a revisionist perspective on the Republican history The chronology records not only political and military events but also other experiences of the Chinese people The bibliography gives prominence to current literature on China s drive towards modernization and appendixes provide the reader with detailed information on China s cultural and economic transformation

Different Worlds of Discourse Nanxiu Qian, Grace S. Fong, Richard Joseph Smith, 2008

During the late Qing reform era 1895 1912 women for the first time in Chinese history emerged in public space in collective groups They assumed new social and educational roles and engaged in intense debates about the place of women in China s present and future These debates found expression in new media including periodicals and pictorials which not only harnessed the power of existing cultural forms but also encouraged experimentation with a variety of new literary genres and styles works increasingly produced by and for Chinese women

Different Worlds of Discourse explores the reform period from three interrelated and comparatively neglected perspectives the construction of gender roles the development of literary genres and the emergence of new forms of print media

The Columbia Guide to Modern Chinese History R. Keith Schoppa, 2000-08-05

China the world s oldest and most populous state remains an enigma to most people in the West even at a time when that country is playing an increasingly prominent role on the international stage At the heart of modern Chinese history have been the efforts of the Chinese people to transform their polity into a modern nation state the Confucian orthodoxy into an ideology that can help direct that process and an agrarian economy into an industrial one These efforts are ongoing and of great importance This book is both an introduction to the major features of modern Chinese history and a resource for researchers interested in virtually any topic relating to the Chinese experience of

the last 220 years This valuable reference contains a historical narrative providing a comprehensive overview of five core aspects of Chinese history domestic politics society the economy the world of culture and thought and relations with the outside world a compendium of 250 short descriptive articles on key figures events and terms a resource guide containing approximately 500 annotated entries for the most authoritative sources for further research in English as well as descriptions of important films depicting modern China and a guide to electronic resources and appendices including a chronology excerpts from key primary source documents and a wealth of tables and graphs on demographic social and economic trends

Reform and Development in China Yang Yao, Ho-Mou Wu, 2010-09-13 Between 1978 and 2006 GDP growth in China maintained an annual average rate of 9.7% meaning the Chinese economy increased by more than twelve times This was achieved with quite unorthodox approaches to reform and development as China has adopted a gradualist approach to adopting key institutions as well as modifying and experimenting with traditional recipes for economic growth This collection brings together key researchers in the field from Asia US Europe and Australia to discuss how China has managed to push forward reforms in the face of political resistance how the Chinese economy has maintained growth within an imperfect institutional environment and how the Chinese government remains effective when it relinquishes its power to the market Specific emphasis is paid to the relevance of China's experiences to other developing countries This valuable contribution to the study of China's economy covers a wide range of topics including the historical foundations of the 30 years of reform law and development in China foreign direct investment poverty reduction market integration income distribution social protection as well as demographics and population *Reform and Development in China* finds both unique elements to the Chinese experience and elements which can be applied to other developing countries In particular China's gradualism in economic reform strong leadership and emphasis on inclusive development are singled out to be potentially transferable to other developing countries This collection will be of interest to postgraduate students and researchers as well as practitioners in development economics

Bubonic Plague in Nineteenth-Century China Carol Ann Benedict, 1996 This book the first work in English on the history of disease in China traces an epidemic of bubonic plague that began in Yunnan province in the late eighteenth century spread throughout much of southern China in the nineteenth century and eventually exploded on the world scene as a global pandemic at the end of the century The author finds the origins of the pandemic in Qing economic expansion which brought new populations into contact with plague bearing animals along China's southwestern frontier She shows how the geographic diffusion of the disease closely followed the growth of interregional trading networks particularly the domestic trade in opium during the nineteenth century A discussion of foreign interventions during plague outbreaks along China's southern coast links the history of plague to the political impact of imperialism on China and to the ways in which European cultural representations of the Chinese influenced the theory and practice of colonial medicine

The Making of the Human Sciences in China Howard Chiang, 2019-05-07 This volume provides a

history of how the human has been constituted as a subject of scientific inquiry in China from the seventeenth century to the present Organized around four themes Parameters of Human Life Formations of the Human Subject Disciplining Knowledge and Deciphering Health it scrutinizes the development of scientific knowledge and technical interest in human organization within an evolving Chinese society Spanning the Ming Qing Republican and contemporary periods its twenty four original synthetic chapters ground the mutual construction of China and the human in concrete historical contexts As a state of the field survey a definitive textbook for teaching and an authoritative reference that guides future research this book pushes Sinology comparative cultural studies and the history of science in new directions *The Qing Dynasty and Traditional Chinese Culture* Richard J. Smith, 2015-10-23 The Qing dynasty 1636 1912 a crucial bridge between traditional and modern China was remarkable for its expansiveness and cultural sophistication This engaging and insightful history of Qing political social and cultural life traces the complex interaction between the Inner Asian traditions of the Manchus who conquered China in 1644 and indigenous Chinese cultural traditions Noted historian Richard J Smith argues that the pragmatic Qing emperors presented a Chinese face to their subjects who lived south of the Great Wall and other ethnic faces particularly Manchu Mongolian Central Asian and Tibetan to subjects in other parts of their vast multicultural empire They were attracted by many aspects of Chinese culture but far from being completely sinicized as many scholars argue they were also proud of their own cultural traditions and interested in other cultures as well Setting Qing dynasty culture in historical and global perspective Smith shows how the Chinese of the era viewed the world how their outlook was expressed in their institutions material culture and customs and how China's preoccupation with order unity and harmony contributed to the civilization's remarkable cohesiveness and continuity Nuanced and wide ranging his authoritative book provides an essential introduction to late imperial Chinese culture and society Chinese Business Groups in Hong Kong and Political Change in South China 1900-1925 S. Chung, 1998-04-27 Politics can be a profitable business as can be found in Republican era Canton amidst a politically fragmented China Competing merchant groups in Hong Kong sought to finance the regional Canton government in return for financial concessions This patronage system made commercial endeavours dependent on politics and embedded business in politics Handbook of Finance and Development Thorsten Beck, Ross Levine, 2018-07-27 This Handbook provides a comprehensive overview of the relationship between financial and real sector development The different chapters written by leading contributors in the field survey research on the importance of financial development for economic growth the causes and consequences of financial fragility the historic development of financial systems in several major economies and regions of the world and the regulatory and supervisory underpinnings of financial sector development

Government, Imperialism and Nationalism in China Chihyun Chang, 2013-08-06 The Chinese Maritime Customs Service which was led by British staff is often seen as one of the key agents of Western imperialism in China the customs revenue being one of the major sources of Chinese government income but a source much of which was pledged to Western

banks as the collateral for and interests payments on massive loans This book however based on extensive original research considers the lower level staff of the Chinese Maritime Customs Service and shows how the Chinese government struggling to master Western expertise in many areas pursued a deliberate policy of encouraging lower level staff to learn from their Western superiors with a view to eventually supplanting them a policy which was successfully carried out The book thereby demonstrates that Chinese engagement with Western imperialists was in fact an essential part of Chinese national state building and that what looked like a key branch of Chinese government delegated to foreigners was in fact very much under Chinese government control
