Subcommittee on Commerce, Consumer Protection, and Competitiveness, 1992 Investment Climate Reforms World Bank World Bank, 2015-11-02 Private firms are at the forefront of the development process providing more than 90 percent of jobs supplying goods and services and representing a significant source of tax revenues Their ability to grow create jobs and reduce poverty depends critically on a well functioning investment climate defined as the policy legal and institutional arrangements underpinning the functioning of markets and the level of transaction costs and risks associated with starting operating and closing a business The World Bank Group has provided extensive support to investment climate reforms This evaluation by the Independent Evaluation Group IEG assesses the relevance effectiveness and social value of World Bank Group support to investment climate reforms as it relates to concerns for inclusion and shared prosperity IEG finds that the World Bank Group has supported a comprehensive menu of investment climate reforms and has improved investment climate in countries as measured by

number of laws enacted streamlining of processes and time or simple cost savings for private firms However the impact on investment jobs business formation and growth is not straightforward Regulatory reforms need to be designed and implemented with both economic and social costs and benefits in mind IEG found that in practice World Bank Group support focuses predominantly on reducing costs to businesses In supporting investment climate reforms the World Bank and the International Finance Corporation use two distinct but complementary business models Despite the fact that investment climate is the most integrated business unit in the World Bank Group coordination is mostly informal relying mainly on personal contacts IEG recommends that the World Bank Group expand its range of diagnostic tools and integrate them in the areas of the business environment not yet covered by existing tools develop an approach to identify the social effects of regulatory reforms on all groups expected to be affected by them beyond the business community and exploit synergies by ensuring that World Bank and IFC staff improve their understanding of each other s work and business models *New Deal Banking Reforms and Keynesian Welfare State Capitalism* Ellen Russell,2007-08-23 Russell provides a groundbreaking critique of the orthodox position on the nature and unraveling of New Deal reforms This exceptional work will appeal to economists historians and scholars interested in this vital period of American history Financial Market Regulation and Reforms in Emerging Markets Masahiro Kawai,Eswar Prasad,2011-04-14 In the wake of the global financial crisis that began in 2008 offers a systematic overview of recent developments in regulatory frameworks in advanced and emerging market countries outlining challenges to improving regulation markets and access in developing economies Provided by publisher

Financial Services Reform United States. Congress. House. Committee on Commerce. Subcommittee on Finance and Hazardous Materials,1999-07 The Reform of International Economic Governance Antonio Segura Serrano,2016-05-05 The second half of the twentieth century saw the emergence of international economic law as a major force in the international legal system This force has been severely tested by the economic crisis of 2008 Unable to prevent the crisis the existing legal mechanisms have struggled to react against its direst consequences This book brings together leading experts to analyse the main causes of the crisis and the role that international economic law has played in trying to prevent it on the one hand and worsening it on the other The work highlights the reaction and examines the tools that have been created by the international legal field to implement international cooperation in an effort to help put an end to the crisis and avoid similar events in the future The volume brings together eminent legal academics and economists to examine key issues from the perspectives of trade law financial law and investment law with the collective aim of reform of international economic governance
