Reforming the European Union Daniel Finke, 2012-07-29 For decades the European Union tried changing its institutions but achieved only unsatisfying political compromises and modest incremental treaty revisions In late 2009 however the EU was successfully reformed through the Treaty of Lisbon *Reforming the European Union* examines how political leaders ratified this treaty against all odds and shows how this victory involved all stages of treaty reform negotiations from the initial proposal to referendums in several European countries The authors emphasize the strategic role of political leadership and domestic politics and they use state of the art methodology applying a comprehensive data set for actors reform preferences They look at how political leaders reacted to apparent failures of the process by recreating or changing the rules of the game While domestic actors played a significant role in the process their influence over the outcome was limited as leaders ignored negative referendums and plowed ahead with intended reforms The book's empirical analyses shed light on critical episodes strategic agenda setting during the European Convention the choice of ratification instrument intergovernmental bargaining dynamics and the reaction of the German Council presidency to the negative referendums in France the Netherlands and Ireland

Reforming the European Union G.Wyn Rees, N. (Department Of Law, University Of Leicester) Neuwahl, P. (Department Of Politics, University Of Leicester) Lynch, 2014-05-12 Analyses the likely future of the EU following next year's Intergovernmental Conference IGC which is likely to be even more significant for the future of Europe than the Maastricht Treaty Since Maastricht it has become clear that future developments are less certain with regard to the EU and integration The IGC will have to try and resolve tensions such as widening Europe to include former communist countries whilst also trying to deepen Europe with increased political and economic integration providing a framework which is acceptable to a core of countries Benelux Germany France who favour more integration and an early move to monetary union with countries such as the UK which does not

Reforming the European Commission Michael W. Bauer, 2013-10-18 Many international and supranational organisations have lately been busy modernising their internal administration But nowhere has management change received a similar amount of attention than in the case of the European Commission Although the perception prevails that the Commission has been losing out in recent years this vivid interest academic as well as public in the so called Kinnock reform suggests that this organisation still remains at the heart of the Union The proposition of this book thus is simple If it remains true that the Commission is an essential part within the admittedly complex equation of EU policy making changes of the administration basis of this actor are likely to have broader implications Consequently this special issue poses three crucial questions about the recent administrative reform of the European Commission why was such a comprehensive reform possible what are its specific implications for the Commission

as an organisation and what is the likely impact for the policy process In short this book puts the organisational base of EU policy making centre stage In the quest for answers the authors of the subsequent chapters take distinct perspectives use various research strategies and methods and attempt to solve diverse empirical puzzles But all attempt to add to our understanding of this organisational base and how to systematically study it This book was published as a special issue of the Journal of European Public Policy Reforming the European Union ,2005 **Report on the State of the European Union** J. An American Constitution for Europe Jeffrey P. Cajka, 2016-12-30 The European Union foresaw a united prosperous Europe free of military conflict That view has been muddled by the economic collapse of 2008 the revived aggressiveness of Russia and a refugee crisis that has divided the Union and caused Britain to begin the process of leaving Although the problems faced by the United States after the American Revolution were different the forces that threaten to collapse the EU were also present in early America At the 1789 US Constitutional Convention the delegates made their system of government stronger In short this book presents a Constitution for The Federation of European Nations FEN based on the US Constitution but including some areas that appeal to Europeans and excluding those that still cause problems in the US

Reforming Europe Constantine Arvanitopoulos, 2010-04-06 In the 2009 elections the European centre right emerged victorious thus affirming its political domination in contemporary European politics The aim of this book is not to provide an analysis of the factors that contributed to the EPP s political prevalence Instead it is to help this large political family maintain its vigour of political thought and policy prescriptions The book provides a forum for prominent centre right thinkers to debate the major European problems of our times with particular emphasis on the management of the financial

crisis and the next institutional steps regarding the European integration project. It assembles the views of politicians, academics and think tank fellows from different national backgrounds and dissimilar ideological perspectives who unfold their vision for Europe's future. Overall, the book attempts to both highlight and stimulate the centre-right contribution to the discussion of Europe's main contemporary challenges.

Theory and reform in the EU Dimitris N. Chrysoschoou, Michael J. Tsinisizelis, Stelios Stavridis, Kostas Ifantis, 2013-07-19. This electronic version has been made available under a Creative Commons BY-NC-ND open access license. This substantially updated and revised edition offers a comprehensive overview of the challenges confronting the political system as well as the international politics of the European Union. It draws from a spectrum of regional integration theories to determine what the Union actually is and how it is developing, examining the constitutional politics of the European Union from the Single European Act to the Treaty of Nice and beyond. The ongoing debate on the future of Europe links together the questions of democracy and legitimacy, competences and rights, and the prospects for European polity building. The aim is to contribute to a better understanding of the emerging European polity and the questions that further treaty reform generates for the future of the regional system. The authors also assess the evolving European security architecture, the limits and possibilities of a genuine European foreign security and defence policy, and the role of the EU in the post-Cold War international system. Common themes involve debates about stability and instability, continuity and change, multipolarity and leadership, co-operation and discord, power capabilities and patterns of behaviour. The book traces the defining features of the new order in Europe and incorporates an analysis of the post-September 11th context.

EU Strategies on Governance Reform Wil Hout, 2013-09-13. This book discusses the European Union's approach to governance reform in its development assistance relationships with various groups of developing countries. A group of expert authors outline the general features of the position on governance taken by the EU, which is currently the major multilateral donor of development assistance, and discuss the implementation of EU policies in a set of cases: the group of African Caribbean and Pacific (ACP) states, the New Partnership for Africa's Development (NEPAD), Southeastern Europe, Central Asia, the Euro-Mediterranean, Latin America, and fragile states. The contributions to the book argue that the EU's position on governance reform, particularly since the adoption of the European Consensus on Development in 2005, has had distinctly neoliberal overtones. The EU's governance-related strategies have been instrumental to deepening market-based reform in aid-receiving countries. Policies on state building adopted by the EU reflect mainly the interests of and ideas embraced by the EU and its member states. To an important extent, the rhetoric accompanying EU policies does not match with the political and social dynamics inherent in governance.

structures on the ground in many of its aid recipient partner countries This book was published as a special issue of Third World Quarterly

Social developments in the European Union 2010 Degryse C. and Natali D., 2011 2010 was a critical year for the European Union EU in at least three major respects First of all many EU countries started showing signs of increased financial stress while the eurozone began to be affected by a true debt crisis extending well beyond the highly publicised case of Greece Secondly the European Union strove to achieve renewal through its first steps to implement the Lisbon Treaty that had come into force on 1 December 2009 The third reason why 2010 represented a turning point for the EU is that the ten year Lisbon Strategy launched by the European Council in March 2000 as a framework for EU socio economic policy coordination formally reached its end in June 2010 when EU leaders adopted the new Europe 2020 Strategy All of these developments will have deep and long lasting effects on social policy at both national and supra national level This 2010 edition of Social developments in the European Union examines the ways in which the EU has tackled the main challenges related to the fiscal crisis the first steps towards implementation of the Lisbon Treaty and the launch of the EU2020 Strategy The volume sheds light on a number of aspects including the risks for the European social model and European integration project the state of the debate on revision of the Stability and Growth Pact the impact of the economic and financial crisis on pensions the new EU employment policy roadmap and more generally the tensions risks and opportunities generated by Europe 2020
