Refugees Seeking A Safe Haven:

Seeking Safe Haven, 1986 *Refugees* Kem Knapp Sawyer, 1995 This book examines the refugee crisis It describes the plight of the men women and children forced to leave their homes and the difficulties host countries encounter in welcoming vast numbers of refugees Also covered problems of refugees in different regions throughout the world including Haiti Bosnia Somalia Palestine Afghanistan organizations that assist refugees and ways to avert refugee crises in the future Seeking Refuge María Cristina García, 2006-03-06 Tells the story of the 20th century Central American migration and how domestic and foreign policy interests shaped the asylum policies of Mexico the United States and Canada *Safe Zone* Lokman B. Çetinkaya, 2017-02-04 Using legal arguments consistent with international law this book explores whether and under which circumstances a State or States may establish and militarily enforce safe zones in countries that produce large scale refugee outflows so as to protect its or their own interests by averting said outflows as well as to alleviate human suffering in today's world of civil and internal warfare Though large scale refugee outflows have become an increasingly frequent problem in inter state relations international law offers no clear remedy Accordingly interpretation and adaptation of the existing rules and principles of international law in addition to State practice and the jurisprudence of international courts are required in order to find appropriate and lawful responses to such situations The book examines countermeasures necessity and humanitarian intervention as possible legal grounds to justify the establishment of safe zones Since the proposal of a safe zone for Syria remains on the international community's agenda the specific conditions of this case are particularly addressed in order to assess the suitability and legality of a possible safe zone in Syria Refugee assistance United States.
