Public Utilities Law Anthology, 1974 Sword and Shield Mary Massaron Ross, Edwin P. Voss, 2006 Traces the lines of authority that set forth the parameters for an illegal search and seizure claim or examining the emerging retaliation theories brought by public employees The book contains expert analysis and provides lawyers with a practical approach to this technically difficult and ever evolving area of law cover subjects such as The procedural intricacies of Section 1983 litigation in court causation municipal and supervisory liability state liability Eleventh Amendment preclusion defenses survivorship and wrongful death abstention doctrines and more Directory of Law Reviews and Scholarly Legal Periodicals, 1995 *A Section 1983 Civil Rights Anthology* Sheldon H. Nahmod, 1993 This anthology is organized on the basis of section 1983 s statutory language and collects important articles dealing with section 1983 It is intended as a supplement to the casebooks used in many civil rights federal courts and constitutional torts courses But it can also be used to supplement non casebook materials developed personally by teachers of these courses *U.C. Davis Law Review* University of California, Davis. School of Law, 2007-11 **International Taxation** Philip F. Postlewaite, 1999 *Cases and Materials on Corporations* Thomas R. Hurst, William A. The Common Law Process of Torts Donald Marshall, David S. Weissbrodt, 2003 *The Lawyer's Craft* Cathy Glaser, 2002 For as long as legal writing courses have existed students have been given large quantities of information all at once They are then expected to digest it in one large gulp and to do it The Lawyer s Craft takes a different approach The authors of this innovative book take the specific skills required to write a memo or brief and divided them into discrete building blocks that can be more easily absorbed by students The approach to drafting legal documents is highly structured to enable students to see how different parts fit together Memos and briefs are divided into parts and organized into a required format The format also provides students with a checklist to consult when constructing legal documents The Lawyer s Craft recognizes that skills must be practiced to be learned No matter how carefully students read the text and discuss it in class they will not be able to learn the material until they actually put it to work For this reason The Lawyer s Craft includes numerous examples and exercises The level of difficulty of the examples and exercises is gradually increased allowing students to master the basics before moving on to nuances and exceptions A Teacher s Manual is available to professors Federal Antitrust Law Daniel J. Gifford, Leo J. Raskind, 2002 The first chapter of this book provides an historical review of antitrust law in terms of the political and economic ideas which have shaped it throughout its development In the successive chapters the authors provide a sense of the manner in which changes in the underlying economic analysis have shaped the application of the statutes by the enforcement agencies and the courts The authors have addressed the antitrust issues raised by recent changes in technology in the rise of global markets and in the structure of health care markets by devoting three separate

chapters to Intellectual Property International Trade and Health Care Author Commentaries throughout the book are designed to probe the doctrinal and policy issues raised by the case excerpts In keeping with the objective of providing the economic analysis that may amplify and clarify the legal and policy issues the authors have also taken into account recent trends in the relevant economic literature Professors and adjunct professors may request complimentary examination copies of LexisNexis law school publications to consider for class adoption or recommendation Please identify the book s you wish to receive provide your institutional contact information and submit your request here **Preventive Law** Myron Moskovitz, Robert M.
